RELIGION, SEX, AND HUMAN TRAFFICKING

Oxford University Press **Yvonne C. Zimmerman offers a groundbreaking exploration of the relationship between freedom and sexual regulation in American approaches to human trafficking.**

RELIGIOUS RESPONSES TO SEX WORK AND SEX TRAFFICKING

AN OUTRAGE AGAINST ANY DECENT PEOPLE

Taylor & Francis **This book examines the history, theological beliefs and current contextual practices of faith-based NGOs who work in the area of human trafficking that involves the sex industry. There are hundreds of religious organizations around the globe who minister with human trafficking survivors and sex workers, but what is really happening on the ground and how do theological beliefs support a faith-based response? Many of these groups represent their work as a cosmic battle against evil forces, yet important structural critiques are ignored in the urgency to rescue women and children. Using perspectives from both NGO staff and sex workers, an interdisciplinary panel of contributors examine specific organizations, highlight marginalized voices, and analyze undergirding methodologies. In doing so, the authors provide clear critiques and establish best practice guidelines for faith-based NGOs and future religious leaders, affirming an intersection of justice based upon critical reflection and careful action. This book addresses with nuance an important topic that is often over-simplified. It will, therefore, be of great interest to scholars studying the interaction of religion to sex work and human trafficking, as well as academics of religious studies and theology more generally.**

GREATER GOTHAM

A HISTORY OF NEW YORK CITY FROM 1898 TO 1919

Oxford University Press **"Between consolidation and the end of World War One, New York was transformed and transforming, mirroring the juggernauting dynamism of the country at large--and largely fueling it. The names of two of its streets encapsulate the degree of the city's preeminence: Wall Street and Broadway. [This book] reveals the workings of the city's consolidation; the emerging hegemony of its financial markets, which effectively reconstructed U.S. capitalism; the influx of migrants from other continents and from the American South; the development of its massive infrastructure--subways and waterways and electrical grid; and New York's growing dominance over the arts, media, and entertainment"--Provided by publisher.**

EDUCATION FOR LIFE AND WORK

DEVELOPING TRANSFERABLE KNOWLEDGE AND SKILLS IN THE 21ST CENTURY

National Academies Press **Americans have long recognized that investments in public education contribute to the common good, enhancing national prosperity and supporting stable families, neighborhoods, and communities. Education is even more critical today, in the face of economic, environmental, and social challenges. Today's children can meet future challenges if their schooling and informal learning activities prepare them for adult roles as citizens, employees, managers, parents, volunteers, and entrepreneurs. To achieve their full potential as adults, young people need to develop a range of skills and knowledge that facilitate mastery and application of English, mathematics, and other school subjects. At the same time, business and political leaders are increasingly asking schools to develop skills such as problem solving, critical thinking, communication, collaboration, and self-management - often referred to as "21st century skills." Education for Life and Work: Developing Transferable Knowledge and Skills in the 21st Century describes this important set of key skills that increase deeper learning, college and career readiness, student-centered learning, and higher order thinking. These labels include both cognitive and non-cognitive skills- such as critical thinking, problem solving, collaboration, effective communication, motivation, persistence, and learning to learn. 21st century skills also include creativity, innovation, and ethics that are important to later success and may be developed in formal or informal learning environments. This report also describes how these skills relate to each other and to**

more traditional academic skills and content in the key disciplines of reading, mathematics, and science. **Education for Life and Work: Developing Transferable Knowledge and Skills in the 21st Century** summarizes the findings of the research that investigates the importance of such skills to success in education, work, and other areas of adult responsibility and that demonstrates the importance of developing these skills in K-16 education. In this report, features related to learning these skills are identified, which include teacher professional development, curriculum, assessment, after-school and out-of-school programs, and informal learning centers such as exhibits and museums.

THE ROUTLEDGE COMPANION TO PHILOSOPHY IN ORGANIZATION STUDIES

Routledge **The Routledge Companion to Philosophy in Organization Studies** provides a wide-ranging overview of the significance of philosophy in organizations. The volume brings together a veritable "who's-who" of scholars that are acclaimed international experts in their specialist subject within organizational studies and philosophy. The contributions to this collection are grouped into three distinct sections: Foundations - exploring philosophical building blocks with which organizational researchers need to become familiar. Theories - representing some of the dominant traditions in organizational studies, and how they are dealt with philosophically. Topics - examining the issues, themes and topics relevant to understanding how philosophy infuses organization studies. Primarily aimed at students and academics associated with business schools and organizational research, **The Routledge Companion to Philosophy in Organization Studies** is a valuable reference source for anyone engaged in this field.

COLLABORATING AGAINST HUMAN TRAFFICKING

CROSS-SECTOR CHALLENGES AND PRACTICES

Rowman & Littlefield **In the fight against human trafficking, cross-sector collaboration is vital—but often, systemic tensions undermine the effectiveness of these alliances.** Kirsten Foot explores the most potent sources of such difficulties, offering insights and tools that leaders in every sector can use to re-think the power dynamics of partnering. Weaving together perspectives from many sectors including business, donor foundations, mobilization and advocacy NGOs, faith communities, and survivor-activists, as well as government agencies, law enforcement, and providers of victim services, Foot assesses how differences in social location (financial well-being, race, gender, etc.) and sector-based values contribute to interpersonal, inter-organizational, and cross-sector challenges. She convincingly demonstrates that finding constructive paths through such multi-level tensions—by employing a mix of

shared leadership, strategic planning, and particular practices of communication and organization—can in turn facilitate more robust and sustainable collaborative efforts. An appendix provides exercises for use in building, evaluating, and trouble-shooting multi-sector collaborations, as well as links to online tools and recommendations for additional resources. All royalties from this book go to nonprofits in U.S. cities dedicated to facilitating cross-sector collaboration to end human trafficking. GENDER AND HUMAN RIGHTS IN A GLOBAL, MOBILE ERA

Routledge **Gender and Human Rights in a Global, Mobile Era** delves into feminist debates surrounding the relationship between gender and human rights through engaging feminist perspectives on the multifaceted issue of human trafficking. Building on analyses of domestic servitude, commercial sex, and labor trafficking by military contractors, and grounded in intersectional feminist cosmopolitanism and feminist theorizing on vulnerability, precarity, and ethical interdependence, Laura Hebert makes several interrelated contributions. As she explores how a feminist gender analysis illuminates the structures and norms enabling trafficking, Hebert simultaneously considers the future of feminist rights advocacy. Emphasizing the sociality of human rights, she encourages feminist scholars and activists to look beyond states as the duty-bearers of human rights and the assumption that human rights are made meaningful mainly through the establishment of legal rights at the national level. She challenges the idea that "feminism" can be reduced to advocacy on behalf of women's rights. She also encourages critical reflection on how divisions associated with feminist politics have impeded opportunities for the building of feminist solidarities across differences aimed at the realization of the human rights of all. Strongly interdisciplinary, *Gender and Human Rights in a Global, Mobile Era* will be of interest to students and scholars throughout the social sciences and humanities.

THE NEW SLAVE NARRATIVE

THE BATTLE OVER REPRESENTATIONS OF CONTEMPORARY SLAVERY

Columbia University Press A century and a half after the abolition of slavery in the United States, survivors of contemporary forms of enslavement from around the world have revived a powerful tool of the abolitionist movement: first-person narratives of slavery and freedom. Just as Frederick Douglass, Harriet Jacobs, and others used autobiographical testimonies in the fight to eradicate slavery, today's new slave narrators play a crucial role in shaping an antislavery agenda. Their writings unveil the systemic underpinnings of global slavery while critiquing the precarity of their hard-fought freedom. At the same time, the demands of antislavery organizations, religious groups, and book publishers circumscribe the voices of the enslaved, coopting their narratives in support of alternative agendas. In this pathbreaking interdisciplinary study, Laura T. Murphy argues that the slave narrative has reemerged as a twenty-first-century genre that has gained new currency in the context of the memoir boom, post-9/11 anti-Islamic sentiment, and conservative family-values politics. She analyzes a diverse range of dozens of book-length accounts of modern slavery from Africa, Asia, the United States, the United Kingdom, and Europe, examining the narrative strategies that survivors of slavery employ to make their experiences legible and to promote a reinvigorated antislavery agenda. By putting these stories into conversation with one another, *The New Slave Narrative* reveals an emergent survivor-centered counterdiscourse of collaboration and systemic change that offers an urgent critique of

the systems that maintain contemporary slavery, as well as of the human rights industry and the antislavery movement.

QUEER

A COLLECTION OF LGBTQ WRITING FROM ANCIENT TIMES TO YESTERDAY

Head of Zeus Ltd **LGBTQ writing from ancient times to yesterday selected by award-winning translator Frank Wynne. Drawing together writing from Catullus to Sappho, from Arthur Rimbaud to Anne Lister and Armistead Maupin, translator Frank Wynne has collected eighty of the finest works representing queer love by LGBTQ authors. These pieces straddle the spectrum of queer experience, from Verlaine's sonnet in praise of his lover's anus and Emily Dickinson's exhortation of a woman's beauty, to Alison Bechdel's graphic novel of her coming out, Juno Dawson's reflections on gender and Oscar Wilde's 'De Profundis'. With stories, poems, extracts and scenes from countries the world over, Queer is an unabashed and unapologetic anthology, which gives voice to those often silenced.**

PATIENT SAFETY

A CASE-BASED COMPREHENSIVE GUIDE

Springer Science & Business Media **Despite the evolution and growing awareness of patient safety, many medical professionals are not a part of this important conversation. Clinicians often believe they are too busy taking care of patients to adopt and implement patient safety initiatives and that acknowledging medical errors is an affront to their skills. Patient Safety provides clinicians with a better understanding of the prevalence, causes and solutions for medical errors; bringing best practice principles to the bedside. Written by experts from a variety of backgrounds, each chapter features an analysis of clinical cases based on the Root Cause Analysis (RCA) methodology, along with case-based discussions on various patient safety topics. The systems and processes outlined in the book are general and broadly applicable to institutions of all sizes and structures. The core ethic of medical professionals is to “do no harm”. Patient Safety is a comprehensive resource for physicians, nurses and students, as well as healthcare leaders and administrators for identifying, solving and preventing medical error.**

THE PSYCHOSOCIAL IMPLICATIONS OF DISNEY MOVIES

MDPI **In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for**

academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

TEACHING MEDICAL PROFESSIONALISM

SUPPORTING THE DEVELOPMENT OF A PROFESSIONAL IDENTITY

Cambridge University Press This book presents ideas and guidance about human development to enhance medical education's ability to form competent and responsible physicians.

TEACHING MEDICAL PROFESSIONALISM

Cambridge University Press Until recently professionalism was transmitted by respected role models, a method that depended heavily on the presence of a homogeneous society sharing values. This is no longer true, and medical schools and postgraduate training programs in the developed world are now actively teaching professionalism to students and trainees. In addition, licensing and certifying bodies are attempting to assess the professionalism of

practising physicians on an ongoing basis. This is the only book available to provide guidance to those designing and implementing programs on teaching professionalism. It outlines the cognitive base of professionalism, provides a theoretical basis for teaching the subject, gives general principles for establishing programs at various levels (undergraduate, postgraduate, and continuing professional development), and documents the experience of institutions who are leaders in the field. Teaching aids that have been used successfully by contributors are included as an appendix.

MANAGEMENT

Cengage Learning **MANAGEMENT, 12th Edition** takes a practical, student-oriented approach toward teaching management with an emphasis on current topics, including issues of diversity, ethics, and technology. The student-friendly content features references to pop culture and cites current publications of interest to students. In addition to providing the management framework and introducing students to contemporary management topics, the text provides experiential activities to get students thinking and acting like real-life managers. A robust network of supplements helps students to understand the hands-on, real-world application of chapter concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

FEMICIDE ACROSS EUROPE

THEORY, RESEARCH AND PREVENTION

Policy Press Available Open Access under CC-BY-NC licence. Femicide, the killing of women and girls because of their gender, was until recently included in the category 'homicide', obscuring the special features of this social and gendered phenomenon. However, the majority of murders of women are perpetrated by men whom they know from family ties and are the result of intimate partner violence or so-called 'honour' killings. This book is the first one on femicide in Europe and presents the findings of a four-year project discussing various aspects of femicide. Written by leading international scholars with an interdisciplinary perspective, it looks at the prevention programmes and comparative quantitative and qualitative data collection, as well as the impact of culture. It proposes the establishment of a European Observatory on Femicide as a new direction for the future, showing the benefits of cross-national collaboration, united to prevent the murder of women and girls.

THE RED BOOK OF OPHTHALMOLOGISTS

WHO'S WHO IN OPHTHALMOLOGY : A REGISTER OF SPECIALISTS IN OPHTHALMOLOGY OF THE UNITED STATES, PUERTO RICO, AND CANADA

MISCARRIAGES OF JUSTICE IN CANADA

CAUSES, RESPONSES, REMEDIES

University of Toronto Press Innocent people are regularly convicted of crimes they did not commit. A number of systemic factors have been found to contribute to wrongful convictions, including eyewitness misidentification, false confessions, informant testimony, official misconduct, and faulty forensic evidence. In *Miscarriages of Justice in Canada*, Kathryn M. Campbell offers an extensive overview of wrongful convictions, bringing together current sociological, criminological, and legal research, as well as current case-law examples. For the first time, information on all known and suspected cases of wrongful conviction in Canada is included and interspersed with discussions of how wrongful convictions happen, how existing remedies to rectify them are inadequate, and how those who have been victimized by these errors are rarely compensated. Campbell reveals that the causes of wrongful convictions are, in fact, avoidable, and that those in the criminal justice system must exercise greater vigilance and openness to the

possibility of error if the problem of wrongful conviction is to be resolved.

METACOGNITION IN LANGUAGE LEARNING AND TEACHING (OPEN ACCESS)

Routledge The Open Access version of this book, available at <https://www.taylorfrancis.com/books/e/9781351049139>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license. This volume offers an exhaustive look at the latest research on metacognition in language learning and teaching. While other works have explored certain notions of metacognition in language learning and teaching, this book, divided into theoretical and empirical chapters, looks at metacognition from a variety of perspectives, including metalinguistic and multilingual awareness, and language learning and teaching in L2 and L3 settings, and explores a range of studies from around the world. This allows the volume to highlight a diverse set of methodological approaches, including blogging, screen recording software, automatic translation programs, language corpora, classroom interventions, and interviews, and subsequently, to demonstrate the value of metacognition research and how insights from such findings can contribute to a greater understanding of language learning and language teaching processes more generally. This

innovative collection is an essential resource for students and scholars in language teaching pedagogy, and applied linguistics.

SEXUAL ETHICS

A THEOLOGICAL INTRODUCTION

Georgetown University Press **Two principles capture the essence of the Catholic tradition on sexual ethics: that each and every marriage act must remain open to the transmission of life, and that any human genital act must occur within the framework of marriage. In the Catholic tradition, moral sexual activity is institutionalized within the confines of marriage and procreation, and sexual morality is marital morality. But theologians Todd Salzman and Michael Lawler contend that there is a disconnect between many of the Church's absolute sexual norms and other theological and intellectual developments explicitly recognized and endorsed in the Catholic tradition, especially since the Second Vatican Council. These developments include the shift from a primary static worldview to a historically conscious worldview, one that recognizes reality as dynamic, evolving, changing, and particular. By employing such a historically conscious worldview, alternative claims about the moral legitimacy of controversial topics such as contraception, artificial reproduction, and homosexual marriage can faithfully emerge within a Catholic context. Convinced of the central role that love, desire, and fertility play in a human life, and also in the life of Christian discipleship, the authors propose an understanding of sexuality that leads to the enhancement of human sexual relationships and flourishing. This comprehensive introduction to Catholic sexual ethics—complete with thought-provoking study questions at the end of each chapter—will be sure to stimulate dialogue about sexual morality between Catholic laity, theologians, and the hierarchy. Anyone seeking a credible and informed Catholic sexual ethic will welcome this potentially revolutionary book.**

WATER SOCIETIES AND TECHNOLOGIES FROM THE PAST AND PRESENT

UCL Press Today our societies face great challenges with water, in terms of both quantity and quality, but many of these challenges have already existed in the past. Focusing on Asia, **Water Societies and Technologies from the Past and Present** seeks to highlight the issues that emerge or re-emerge across different societies and periods, and asks what they can tell us about water sustainability. Incorporating cutting-edge research and pioneering field surveys on past and present water management practices, the interdisciplinary contributors together identify how societies managed water resource challenges and utilised water in ways that allowed them to evolve, persist, or drastically alter their environment. The case studies, from different periods, ancient and modern, and from different regions, including Egypt, Sri Lanka, Cambodia, Southwest United States, the Indus Basin, the Yangtze River, the Mesopotamian floodplain, the early Islamic city of Sultan Kala in Turkmenistan, and ancient Korea, offer crucial empirical data to readers interested in comparing the dynamics of water management practices across time and space, and to those who wish to understand water-related issues through conceptual and quantitative models of water use. The case studies also challenge classical theories on water management and social evolution, examine and establish the deep historical roots and ecological foundations of water sustainability issues, and contribute new grounds for innovations in sustainable urban planning and ecological resilience.

REALTY AND BUILDING

INVESTING IN CULTURAL DIVERSITY AND INTERCULTURAL DIALOGUE

UNESCO This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of

cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

DISRUPTIVE CHRISTIAN ETHICS

WHEN RACISM AND WOMEN'S LIVES MATTER
