Motor Racing at Nassau in the 1950s & 1960s

Veloce Publishing Ltd Motor Racing at Nassau is a collection of images that complements the descriptive account of the Bahamas Speed Weeks. It conveys in pictures the roller-coaster story of the eclectic mix of people and their cars that came to Nassau to enjoy each other's company at the end of the motor racing season in America. From its stuttering start in 1954, through its halcyon days in the

late 1950s, to its demise in 1966, top drivers from America and Europe came to compete in the races.

Plastic Toy Cars of the 1950s and 1960s

The Collector's Guide

Veloce Publishing Ltd The history of Dinky Toys, Corgi Toys and other makers of diecast metal cars has been covered in great detail in many books and magazine articles; by contrast, information on plastic toy cars is much harder to come by. Yet collectors are taking an increasing interest in plastic cars, particularly as the rise in the value of early diecast and tinsplate models has put many of these out of reach of the average enthusiast. For the first time, this book aims to provide a systematic introduction to the vast number of plastic cars made during the 1950s and 1960s. Years of research have enabled the author to uncover many fascinating facts about the companies who made these toys. Some were major players in the toy industry, like Tri-ang and Brimtoy in the UK, Norev and Minialuxe in France, Gama and Siku in Germany and Ingap in Italy. Many others, though, were more obscure, and some only modeled one car before disappearing without trace. More than 250 photographs of these toys are included, with the emphasis being on the most colorful and realistic examples, all of them based on real vehicles of the period. In many cases, the toy is pictured alongside its original box, the presence of which can often double the value of the item to a collector. Readers will also find a handy glossary listing the names of many of the companies who were active in this field in the 1950s and 1960s, together with some evocative period advertisements and catalogue illustrations. If you thought that a model car had to be made of diecast metal to be worth collecting, this book might change your mind . . . With 250 color photos, extensive appendices and identification aids this is a must have for any collector or dealer.

Diecast Toy Cars of the 1950s & 1960s

The Collector's Guide

Veloce Publishing Ltd A guide for collectors discusses the history of die-cast toy cars of the 1950s and 1960s and surveys the companies that manufactured the toys around the world, including such major names as Dinky Toys, Corgi Toys, Solido, Tekno, and Tootsietoy.

British Lorries of the 1960s

Veloce Publishing Ltd British commercial manufacturers played a prime role in boosting Britain's economy during the 1960s, especially as many vehicles were exported worldwide. British lorries were, therefore, considered as being the workhorses of the world, performing a wide range of duties from heavy haulage to general goods delivery. This highly visual study of British lorries of the 1960s captures in 120 illustrations this often understated but very necessary work, which was undertaken day and night, 365 days a year. The comprehensive text reveals much about the marques that were everyday names, along with information about Britain's road haulage and commercial vehicle industries. This book will rekindle many memories and serve as a reminder of the important role British commercial vehicles played during the 1960s.

Motor Racing at Oulton Park in the 1960s

Veloce Publishing Ltd Oulton Park in the late 1960s was one of the last circuits to play host to non-championship Formula 1 races. Set in beautiful Cheshire parkland, it has always been a favorite with drivers who relish its challenging curves and with spectators who could watch their heroes compete on a true road circuit. Drivers such as Jim Clark, Jackie Stewart, Graham Hill, Surtees, Rindt and Brabham came to Oulton for the Gold Cup and spectators could see and even meet them in the open paddock atmosphere of the time. Major sports & GT races such as the RAC TT were also on the Oulton Park calendar with Lola T70s, GT40s, Ferraris, Lotii and, of course, Chevrons in the hands of Hulme, Redman, Bonnier and other top drivers. Club race meetings provided variety and plenty of action with the VSCC's Seaman Trophies meeting for vintage and historic racers being the highlight of the season for many racegoers.

Formula 5000 Motor Racing Back Then... And Back Now

Veloce Publishing Ltd This book is a trip down memory lane, recalling the days when Formula 5000 cars roared around the race tracks in Britain and Europe, creating a lot of noise and, occasionally, dust. The wail of a 5-litre engine was often more spine-tingling than ANY other racing car! Nowadays, many of the same cars show modern day spectators just what Formula 5000 was, back in the day. Few, if any, of the drivers are prima-donnas and many want to know what their car did before it came into their possession. This book answers those questions and many more.

The Beetle: Design and evolution, the story

The Commercial Motor

How to Illustrate and Design Concept Cars

Veloce Publishing Ltd The automobile seems to be as popular now as it ever was. Posters of cars still adorn many a child's bedroom wall, and school exercise books are full of doodles of cars. This book takes those notebook sketches and teaches you how to develop them into the car designs you see in magazines. Using simple to follow step-by-step drawings it guides you from pencil sketch to marker rendering, from doodle to highly visual computer generated artwork. Adrian Dewey has worked on designs as diverse as small sports cars to double decker buses, modified motors to concept Formula 1 cars, using various techniques and styles. In this book, he uses his knowledge of the different styles to guide the reader in creating great artwork and designs of their own. The book shows in detail how to use different materials

and how to get the most out of each one, whether it be a great pencil sketch or a photo realistic vector illustration. The book also features an easy to follow index for quick reference on different types of drawing.

How to Rebuild VW Air-Cooled Engines

1961-2003

CarTech Inc Covers rebuilding the VW Type 1, 2, and 3 engines beginning in the year 1961, when a significant redesign improved the reliability, durability, and horsepower of the basic initial design. For more than 70 years, automotive enthusiasts and the public in general have embraced the VW air-cooled engine for its simplicity, its capacity to be modified, and its bulletproof reliability. Offering beautiful color photos and insightful step-by-step captions for expertly rebuilding Volkswagen air-cooled engines, this book will provide in-depth hands-on information for disassembly, inspection, machining, parts selection, preassembly, final assembly, installation, and tuning. Not only are the procedures for rebuilding covered in depth but engine model types, identification codes, specifications, and details are also covered in a manner that allows the user to source a good later-model candidate for rebuilding and helps retrofit the modern engine designs into earlier chassis. One of the most widely used and versatile internal combustion engines in the world, this engine has powered VW Beetles, Buses, Porsche 914s, off-road buggies and rails, formula race cars, and many other machines both on and off-road. If you have any interest in reviving your old VW, or perhaps are researching purchasing one, this handy guide will cover all the bases in bringing that old air-cooled powerplant back to life.
