Interrogation in War and Conflict

A Comparative and Interdisciplinary Analysis

Routledge This edited volume offers a comparative and interdisciplinary analysis of interrogation and questioning in war and conflict in the twentieth century. Despite the current public interest and its military importance, interrogation and questioning in conflict is still a largely under-researched theme. This volume's methodological thrust is to select historical case studies ranging in time from the Great War to the conflicts in former Yugoslavia, and including the Second World War, decolonization, the Cold War, the 'Troubles' in Northern Ireland and international justice cases in The Hague, each of which raises interdisciplinary issues about the role of interrogation. These case-studies were selected because they resurface previously unexplored sources on the topic, or revisit known cases which allow us to analyse the role of interrogation and questioning in intelligence, security and military operations. Written by a group of experts from a range of disciplines including history, intelligence, psychology, law and human rights, *Interrogation in War and Conflict* provides a study of the main turning points in interrogation and questioning in twentieth-century conflicts, over a wide geographical area. The collection also looks at issues such as the extent of the use of harsh techniques, the value of interrogation to military intelligence, security and international justice, the development of interrogation as a separate profession in intelligence, as well as the relationship between interrogation and questioning and wider society. This book will be of much interest to students of intelligence studies, strategic studies, counter-terrorism, international justice, history and IR in general.

Most Likely to Succeed

Preparing Our Kids for the Innovation Era

Simon and Schuster The basis for a major documentary, two leading experts sound an urgent call for the radical reimagining of American education so we can equip students for the realities of the twenty-first-century economy. We prize academic achievement, pressuring our children to get into the "right" colleges, have the highest GPAs, and pursue advanced degrees. But while students may graduate with credentials, by and large they lack the competencies needed to be thoughtful, engaged citizens and to get good jobs in our rapidly evolving economy. Alarming, our methods of schooling crush the creativity and initiative young people really need to thrive in the twenty-first century. Now bestselling author and education expert Tony Wagner and venture capitalist Ted Dintersmith call for a complete overhaul of American schools, sharing insights and stories from the front lines. Their powerful, urgent message identifies the growing gap between credentials and competence--and offers a framework for change. Most Likely to Succeed presents a new vision of American education, one that puts wonder, creativity, and initiative at the very heart of the learning process and prepares students for today's economy.

Personal Participation in Criminal Proceedings

A Comparative Study of Participatory Safeguards and in absentia Trials in Europe

Springer This book presents a comprehensive analysis of personal participation in criminal proceedings and in absentia trials. Going beyond the accused-centred perspective of default proceedings, it not only examines the consequences of absence in various types of criminal proceedings, but also the fair trial safeguards allowing personal contributions during trials, as well as in pre-trial inquiries, higher instances and transborder procedures. By pursuing an interdisciplinary approach and employing comparative-law methodologies, the book presents a cross-section of twelve European criminal justice systems with regard to the requirements set forth by constitutional, international and EU law.

ACT Prep Black Book

The Most Effective ACT Strategies Ever Published

Click the "look inside" feature above to browse the Black Book and get a feel for how it approaches the ACT! The fully up-to-date ACT Prep Black Book, Second Edition gives you unique, effective ACT strategies from Mike Barrett, an ACT tutor with clients all over the globe who pay him hundreds of dollars an hour for phone tutoring. In addition to extensive and effective training on every aspect of the ACT, the ACT Prep Black Book gives you detailed, systematic, easy-to-follow walkthroughs for every question in all 3 official practice tests from the current Official ACT Prep Guide. The Black Book is a must-have in your ACT preparation, whether you need to make a perfect 36 to be competitive at an Ivy, score a 10 in each section to claim a sports scholarship, or anything in between. The Black Book works best when used with the authentic ACT questions in the "Red Book," which is the Official ACT Prep Guide, 2018, by ACT, Inc. The Black Book shows you how to beat the ACT, while the Red Book gives you real ACT questions to practice with. (The ACT Prep Black Book has no affiliation with ACT, Inc.) The Black Book and the Red Book are all you need to get your best possible ACT score. The Black Book is the ideal ACT book for 3 major reasons: It covers every aspect of the test with advice that actually works, making it unique in the ACT prep field. It doesn't just review material from your high school classes! Instead, you'll learn to exploit design flaws in the ACT, using its own "ACT tricks" against it. The Black Book contains 600+ detailed, systematic, easy-to-follow walkthroughs for real ACT questions from the Red Book, so you know that what you're learning actually works. You'll see every question from all 3 of the Red Book's official ACT Practice Tests attacked in a way that clearly demonstrates the ideal thought process on the ACT. (You'll need your own copies of those real ACT practice tests, which you can find in the Official ACT Prep Guide, 2018, by ACT, Inc.) The Black Book is a clear, concise roadmap to the ACT. (See the selected highlights below). It explains exactly how every ACT question works, and how to beat it in the least time possible. Selected Highlights from the ACT Prep Black Book: The important differences between the ACT and a normal high school test, and how they influence every aspect of the proper approach to ACT preparation... Why every ACT question can only have one valid answer, no matter how much it might seem otherwise sometimes... How to look at ACT questions the same way ACT, Inc. does when it writes them... Why it's so important to work with real test questions from ACT, Inc....and why you shouldn't pay much attention to the official written explanations for those questions... What you're actually supposed to do when the ACT asks you about an author's attitude... The important implications of viewing time as an investment on test day... Why focusing on the wrong answers can be just as important as finding the right one...and how to do it effectively... The simple formula that allows you to crank out a top-scoring essay (that is, if you even need to take the ACT Writing test in the first place)... The special grammatical rules tested on the ACT English section-which may differ from what's commonly accepted in a high school or college classroom... The unwritten rules for every kind of ACT question... The many ways to approach an ACT Math question, and which ones are likely to work best for you... Why every real ACT Math question can potentially be answered in under 30 seconds... And much, much more than we can fit in this space...

The Political Economy of Private Security

How European States Privatize, Regulate and Produce Domestic Security

LIT Verlag Münster The global growth of private security services signals a significant shift in the production of the most traditional good provided by modern nation states - security. This systematic mixed methods analysis, linking output- and process-oriented policy theories, shows patterns and mechanisms of how political factors - like party dominance - drive the development of private security policy and industry. Based in comparative policy analysis it asks, what accounts for the differences in the policies toward and the outcomes of private security between EU member states?
