# Regulating the Collaborative Economy in the European Union Digital Single Market

*Springer Nature* **This book critically assesses how the rise of the collaborative economy in the European Union Digital Single Market is disrupting consolidated legal acquisitions, such as classical internal market categories, as well as the applicability of consumer protection, data protection, and labour and competition law. It argues that the collaborative economy will, sooner or later, require some sort of regulatory intervention from the European Union. This regulatory intervention, far from stifling innovation, will benefit online platforms, service providers and users by providing them with a clearer and more predictable environment in which to conduct their business. Although primarily intended for academics, this book also appeals to a wider readership, including, but not limited to, national and international regulators, private firms and lobbies as well as online platforms, consumer associations and trade unions.**

## Soldiers of Germania - The European volunteers of the Waffen SS.

*Lulu.com* **They called themselves the "assault generation" and they had largely been born in the years during and after World War I. Coming from every nation of Europe, they had risen up against communism and banded together under one flag for a common cause. They joined the German Army in World War II, a volunteer army that was better known as the Waffen SS. And it was in the Waffen SS, the elite fighting force of Germany, where the first modern European army was born. A new society of front fighters emerged from many different European nations; it was a society that had been forged in the sacrifice, sweat, and blood on the battlefield. Maybe their heritage and culture was different but their uniforms and motto were one and the same: Meine Ehre Heisst Treue!**

## WHO Guidelines for Indoor Air Quality

### Selected Pollutants

*World Health Organization* **This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of environmental exposures, as well as specialists**

and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards.

# 14th International Conference on Computational Intelligence in Security for Information Systems and 12th International Conference on European Transnational Educational (CISIS 2021 and ICEUTE 2021)

*Springer Nature* This book of **Advances in Intelligent and Soft Computing** contains accepted papers presented at **CISIS 2021 and ICEUTE 2021**, all conferences held in the beautiful and historic city of Bilbao (Spain), in September 2021. The aim of the 14th CISIS 2021 conference is to offer a meeting opportunity for academic and industry-related researchers belonging to the various, vast communities of computational intelligence, information security, and data mining. The need for intelligent, flexible behavior by large, complex systems, especially in mission-critical domains, is intended to be the catalyst and the aggregation stimulus for the overall event. After a thorough peer-review process, the CISIS 2021 International Program Committee selected 23 papers which are published in these conference proceedings achieving an acceptance rate of 40%. In this relevant edition, a special emphasis was put on the organization of special sessions. One special session is organized related to relevant topics as follows: building trust in ecosystems and ecosystem components. In the case of 12th ICEUTE 2021, the International Program Committee selected 17 papers, which are published in these conference proceedings. One special session is organized related to relevant topics as follows: sustainable personal goals: engaging students in their learning process. The selection of papers is extremely rigorous in order to maintain the high quality of the conference, and we would like to thank the members of the program committees for their hard work in the reviewing process. This is a crucial process to the creation of a high standard conference, and the CISIS and ICEUTE conferences would not exist without their help.
