Higher Education Accessibility Behind and Beyond Prison Walls

IGI Global Numerous studies indicate that completing a college degree reduces an individual's likelihood of recidivating. However, there is little research available to inform best practices for running college programs inside jails or prisons or supporting returning citizens who want to complete a college degree. Higher Education Accessibility Behind and Beyond Prison Walls examines program development and pedagogical techniques in the area of higher education for students who are currently incarcerated or completing a degree post-incarceration. Drawing on the experiences of program administrators and professors from across the country, it offers best practices for (1) developing, running, and teaching in college programs offered inside jails and prisons and (2) providing

adequate support to returning citizens who wish to complete a college degree. This book is intended to be a resource for college administrators, staff, and professors running or teaching in programs inside jails or prisons or supporting returning citizens on traditional college campuses.

Social Theory and the Urban Question

Routledge *Social Theory and the Urban Question* offers a guide to, and a critical evaluation of key themes in contemporary urban social theory, as well as a re-examination of more traditional approaches in the light of recent developments and criticism. Dr Saunders discusses current theoretical positions in the context of the work of Marx, Weber and Durkheim. He suggests that later writers have often misunderstood or ignored the arguments of these 'founding fathers' of the urban question. Dr Saunders uses his final chapter to apply the lessons learned from a review of their work in order to develop a new.

Class

Critical Concepts

Taylor & Francis *Class and status* are both foundational themes in the study of sociology. John Scott brings together the central theoretical contributions to the debate on class and status as aspects of stratification. Using a selection of seminal pieces and commentaries on the classics, it raises central issues, for example the distinction between class and status, which are then examined by leading authorities.

The Writing Program Administrator's Resource

A Guide To Reflective Institutional Practice

Routledge *The role of the writing program administrator* is one of diverse activities and challenges, and preparation for the position has traditionally come through performing the job itself. As a result, uninitiated WPAs often find themselves struggling to manage the various requirements and demands of the position, and even experienced WPAs often encounter situations on which they need advice. *The Writing Program Administrator's Resource* has been developed to address the needs of all WPAs, regardless of background or experience. It provides practical, applicable tools to effectively address the differing and sometimes competing roles in which WPAs find themselves. Readers will find an invaluable collection of articles in this volume, addressing fundamental practices and issues encountered by WPAs in their workplace settings and focusing on the hows and whys of writing program administration. With formal preparation and training only now beginning to catch up to the very real needs of the WPA, this volume offers guidance and support from authoritative and experienced sources--educators who have established the definitions and standards of the position; who have run into obstacles and surmounted them; and who have not just survived but thrived in their roles as WPAs. Editors Stuart C. Brown and Theresa Enos contribute their own experience and bring together the voices of their colleagues to delineate the intellectual scope and practices of writing program administration as an emerging discipline. Established and esteemed leaders in the field offer insights, advice, and plans of action for the myriad scenarios encountered in the position, encouraging WPAs and helping them to realize that they often know more than they think they do. This resource is required reading for the new WPA, and an essential reference for all who serve in the WPA role. As a guidebook for WPAs, it is destined to become a fixture on the desk of every educator involved with or interested in administering writing programs, writing centers, and writing-across-the-curriculum efforts.

The American National State and the Early West

Cambridge University Press *This book challenges the widely held myth that the American national state was weak in the early days of the republic. William H. Bergmann reveals how the federal government used its fiscal and military powers, as well as bureaucratic authority, to enhance land acquisitions, promote infrastructure development and facilitate commerce and communication in the early trans-Appalachian West. Energetic federal state-building efforts prior to 1815 grew from national state security interests as Native Americans and British imperial designs threatened to unravel the republic. White Westerners and Western state governments partnered with the federal government to encourage commercial growth and emigration, to transform the borderland into a bordered land. Taking a regional approach, this work synthesizes the literatures of social history, political science and economic history to provide a new narrative of American expansionism, one that takes into account the unique historical circumstances in the Ohio Valley and the southern Great Lakes.*

Tubular Structures XI

11th International Symposium and IIW International Conference on Tubular Structures

Routledge *This topical book contains the latest scientific and engineering developments in the field of tubular steel structures, as presented at the "11th International Symposium and IIW International Conference on Tubular Structures". The International Symposium on Tubular Structures (ISTS) has a long-standing reputation for being the principal showcase for manufactured tubing and the prime international forum for discussion of research, developments and applications in this field. Various key and emerging subjects in the field of hollow structural sections are covered, such as: novel applications and case studies, static and fatigue behaviour of connections/joints, concrete-filled and composite tubular members, earthquake resistance, specification and code developments, material properties and structural reliability, impact resistance and brittle fracture, fire resistance, casting and fabrication innovations. Research and development issues presented in this book are applicable to buildings, bridges, offshore structures, entertainment rides, cranes, towers and various mechanical and agricultural equipment. This book is thus a pertinent reference source for architects, civil and mechanical engineers, designers, steel fabricators and contractors, manufacturers of hollow sections or related construction products, trade associations involved with tubing, owners or developers of tubular structures, steel specification committees, academics and research students. The conference presentations herein include two keynote lectures (the International Institute of Welding Houdremont Lecture and the ISTS Kurobane Lecture), plus finalists in the CIDECT Student Papers Competition. The 11th International Symposium and IIW International Conference on Tubular Structures - ISTS11 - took place in Québec City, Canada from August 31 to September 2, 2006.*

Horace Holley

Transylvania University and the Making of Liberal Education in the Early American Republic

[University Press of Kentucky](#) *Outspoken New England urbanite Horace Holley (1781--1827) was an unlikely choice to become the president of Transylvania University -- the first college established west of the Allegheny Mountains. Many Kentuckians doubted his leadership abilities, some questioned his Unitarian beliefs, and others simply found him arrogant and elitist. Nevertheless, Holley ushered in a period of sustained educational and cultural growth at Transylvania, and the university received national attention for its scientifically progressive and liberal curriculum. The resulting influx of wealthy students and celebrated faculty -- including Constantine Samuel Rafinesque -- lent Lexington, Kentucky, a distinguished atmosphere and gave rise to the city's image as the*

"Athens of the West." In this definitive biography, James P. Cousins offers fresh perspectives on a seminal yet controversial figure in American religious history and educational life. The son of a prosperous New England merchant family, Holley studied at Yale University before serving as a minister. He achieved national acclaim as an intellectual and self-appointed critic of higher education before accepting the position at Transylvania. His clashes with political and community leaders, however, ultimately led him to resign in 1827, and his untimely death later that year cut short a promising career. Drawing upon a wealth of previously used and newly uncovered primary sources, Cousins analyzes the profound influence of westward expansion on social progress and education that transpired during Holley's tenure. This engaging book not only illuminates the life and work of an important yet overlooked figure, but makes a valuable contribution to the history of education in the early American Republic.

Dictionary of Labour Biography

Volume XI

Springer Volume XI of the Dictionary of Labour Biography maintains the strengths of earlier contributions to this well established and authoritative series. It incorporates many scholarly and original studies of Labour movement figures from a variety of periods and backgrounds together with special notes on related and neglected topics. Volume XI pays particular attention to the role and contributions of women and the multi-nationality of the British Labour movement. Each entry is accompanied by a thorough bibliography and incorporates the most recent historical scholarship in the field.
