THE PUBLISHERS' TRADE LIST ANNUAL

NCERT EXEMPLAR PROBLEMS-SOLUTIONS SCIENCE CLASS 8TH

Arihant Publications India limited **Questions are the root cause of success. The more new & authentic questions you will have, the more new & authentic knowledge you will have. Considering this fact, the Department of Education in Science & Mathematics (DESM) with an aim to improve the quality of teaching/learning process in schools has made an attempt to develop resource books of Exemplar Problems in different subjects at secondary and higher-secondary stage. These specialized resource books named NCERT Exemplars are not meant to serve merely as question banks for examinations but are primarily meant to discourage rote learning. The first and the only books of its kind by Arihant Publications is an attempt at providing comprehensive guide to NCERT Exemplar Problems-Solutions for Class 6th to 12th. The present book for Class 8th Science contains different types of questions of varying difficulty level. Also detailed explanation for comprehensive understanding has been given for all objective and subjective problems. The present book has been divided into 18 chapters namely Crop Production & Management, Microorganisms: Friend & Foe, Synthetic Fibres & Plastics, Materials: Metals & Non-Metals, Coal & Petroleum, Combustion & Flame, Conservation of Plants & Animals, Cell: Structure & Functions, Reproduction in Animals, Reaching the Age of Adolescence, Force & Pressure, Friction, Sound, Chemical Effects of Electric Current, Some Natural Phenomena, Light, Stars & Solar System and Pollution of Air & Water. The problems provided in the book will test comprehension, information recall, analytical thinking and problem-solving ability, creativity and speculative ability. Detailed explanation has been provided for all objective and subjective problems covered in the book. The book will also be highly useful for school examinations and to build foundation for entrance examinations. As the book contains detailed and comprehensive solutions for NCERT Exemplar problems for Class 8th Science, it for sure will act as a catalyst in helping discourage rote learning.**

AWARENESS SOCIAL SCIENCES FOR CLASS SEVEN

S. Chand Publishing **The series, Awareness Social Sciences for classes VI, VII and VIII is based on the syllabus as specified by NCERT for the latest sessions. The syllabus has tried to link the academic curriculum with real life and, thus, dwelled on connecting the students' understanding with the real world around them. Accordingly, this book has incorporated real life examples , case studies, story lines and narratives which could be immensely helpful in assimilation and to inculcate interests among the students significantly.**

HISTORY, GEOGRAPHY AND CIVICS

TEACHING AND LEARNING IN THE PRIMARY YEARS

Cambridge University Press **History, Geography and Civics provides an in-depth and engaging introduction to teaching and learning socio-environmental education from F-6 in Australia and New Zealand. It explores the centrality of socio-environmental issues to all aspects of life and education and makes explicit links between pedagogical theories and classroom activities. Part I introduces readers to teaching and learning history, geography and environmental studies, and civics and citizenship, as well as issues in intercultural and global education. Part II explores the use of media and**

sources, values and attitudes, assessment and creative teaching. Each chapter provides links to the Australian Curriculum, including cross-curriculum priorities: sustainability, Aboriginal and Torres Strait Islander education, and Asia and Australia's engagement with Asia. History, Geography and Civics encourages the reader to consider their own beliefs, values and attitudes in relation to their teaching and includes provocations and reflective questions to foster discussion and engagement.

TOPI SHUKLA

Oxford University Press, USA **A sensitive, humorous novel on Hindu-Muslim relations, set in post-Independence India, by an eminent Hindi writer.**

SCIENCE, EVOLUTION, AND CREATIONISM

National Academies Press **How did life evolve on Earth? The answer to this question can help us understand our past and prepare for our future. Although evolution provides credible and reliable answers, polls show that many people turn**

away from science, seeking other explanations with which they are more comfortable. In the book *Science, Evolution, and Creationism*, a group of experts assembled by the National Academy of Sciences and the Institute of Medicine explain the fundamental methods of science, document the overwhelming evidence in support of biological evolution, and evaluate the alternative perspectives offered by advocates of various kinds of creationism, including "intelligent design." The book explores the many fascinating inquiries being pursued that put the science of evolution to work in preventing and treating human disease, developing new agricultural products, and fostering industrial innovations. The book also presents the scientific and legal reasons for not teaching creationist ideas in public school science classes. Mindful of school board battles and recent court decisions, *Science, Evolution, and Creationism* shows that science and religion should be viewed as different ways of understanding the world rather than as frameworks that are in conflict with each other and that the evidence for evolution can be fully compatible with religious faith. For educators, students, teachers, community leaders, legislators, policy makers, and parents who seek to understand the basis of evolutionary science, this publication will be an essential resource.

ADAPTIVE BLIND SIGNAL AND IMAGE PROCESSING

LEARNING ALGORITHMS AND APPLICATIONS

John Wiley & Sons With solid theoretical foundations and numerous potential applications, *Blind Signal Processing (BSP)* is one of the hottest emerging areas in Signal Processing. This volume unifies and extends the theories of adaptive blind signal and image processing and provides practical and efficient algorithms for blind source separation: Independent, Principal, Minor Component Analysis, and Multichannel Blind Deconvolution (MBD) and Equalization.

Containing over 1400 references and mathematical expressions Adaptive Blind Signal and Image Processing delivers an unprecedented collection of useful techniques for adaptive blind signal/image separation, extraction, decomposition and filtering of multi-variable signals and data. Offers a broad coverage of blind signal processing techniques and algorithms both from a theoretical and practical point of view Presents more than 50 simple algorithms that can be easily modified to suit the reader's specific real world problems Provides a guide to fundamental mathematics of multi-input, multi-output and multi-sensory systems Includes illustrative worked examples, computer simulations, tables, detailed graphs and conceptual models within self contained chapters to assist self study Accompanying CD-ROM features an electronic, interactive version of the book with fully coloured figures and text. C and MATLAB user-friendly software packages are also provided MATLAB is a registered trademark of The MathWorks, Inc. By providing a detailed introduction to BSP, as well as presenting new results and recent developments, this informative and inspiring work will appeal to researchers, postgraduate students, engineers and scientists working in biomedical engineering, communications, electronics, computer science, optimisations, finance, geophysics and neural networks.
