The Signers of the Declaration of Independence

A Biographical and Genealogical Reference

[McFarland](#) None of the 56 men who signed the Declaration of Independence in 1776 could have imagined a few years earlier that they would be part of such an event. All had been loyal British subjects earlier in their lives, and several had held British government posts in their home colonies. In 1743, Samuel Adams became one of the first to advocate for independence and he was gradually joined by others as English control became increasingly oppressive. A biography and genealogical history of the 56 signers, and of Secretary Charles Thomson who attended all meetings and witnessed the original broadside with John Hancock but did not actually sign it, are presented in this unique reference work. Each of the 57 entries open with a biography of the man, focusing on his education, political career and the events that led him to advocate for independence, based in large part on contemporary sources. This is followed by a narrative genealogical history, providing names, birth and death dates, marriages, children and other details of the signer's ancestors. Photographs of the men are included.

Brave New Worlds

[Night Shade](#) You are being watched. Your every movement is being tracked, your every word recorded. Your spouse may be an informer, your children may be listening at your door, your best friend may be a member of the secret police. You are alone among thousands, among great crowds of the brainwashed, the well-behaved, the loyal. Productivity has never been higher, the media blares, and the army is ever triumphant. One wrong move, one slip-up, and you may find yourself disappeared -- swallowed up by a monstrous bureaucracy, vanished into a shadowy labyrinth of interrogation chambers, show trials, and secret prisons from which no one ever escapes. Welcome to the world of the dystopia, a world of government and society gone horribly, nightmarishly wrong. What happens when civilization invades and dictates every aspect of your life? From 1984 to *The Handmaid's Tale*, from *Children of Men* to *Bioshock*, the dystopian imagination has been a vital and gripping cautionary force. *Brave New Worlds* collects the best tales of totalitarian menace by some of today's most visionary writers, including Neil Gaiman, Paolo Bacigalupi, Orson Scott Card, Kim Stanley Robinson, and Ursula K. Le Guin. When the government wields its power against its own people, every citizen becomes an enemy of the state. Will you fight the system, or be ground to dust beneath the boot of tyranny? Skyhorse Publishing, under our *Night Shade* and *Talos* imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a *New York Times* bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.

Other Worlds Than These

[Skyhorse Publishing, Inc.](#) What if you could not only travel any location in the world, but to any possible world? We can all imagine such "other worlds"—be they worlds just slightly different than our own or worlds full of magic and wonder—but it is only in fiction that we can travel to them. From *The Wizard of Oz* to *The Dark Tower*, from Philip Pullman's *The Golden Compass* to C. S. Lewis's *The Chronicles of Narnia*, there is a rich tradition of this kind of fiction, but never before have the best parallel world stories and portal fantasies been collected in a single volume—until now.

Loosed Upon the World

The Saga Anthology of Climate Fiction

[Simon and Schuster](#) Collected by the editor of the award-winning *Lightspeed* magazine, the first, definitive anthology of climate fiction—a cutting-edge genre made popular by Margaret Atwood. Is it the end of the world as we know it? Climate Fiction, or Cli-Fi, is exploring the world we live in now—and in the very near future—as the effects of global

warming become more evident. Join bestselling, award-winning writers like Margaret Atwood, Paolo Bacigalupi, Kim Stanley Robinson, Seanan McGuire, and many others at the brink of tomorrow. Loosed Upon the World is so believable, it's frightening.

## Oz Reimagined

## New Tales from the Emerald City and Beyond

47 North **FOREWORD BY GREGORY MAGUIRE, NEW YORK TIMES BESTSELLING AUTHOR OF WICKED**When L. Frank Baum introduced Dorothy and friends to the American public in 1900, "The Wonderful Wizard of Oz" became an instant, bestselling hit. Today the whimsical tale remains a cultural phenomenon that continues to spawn wildly popular books, movies, and musicals. Now, editors John Joseph Adams and Douglas Cohen have brought together leading fantasy writers such as Orson Scott Card and Seanan McGuire to create the ultimate anthology for Oz fans - and, really, any reader with an appetite for richly imagined worlds. Stories include: Frank Baum's son has the real experiences that his father later fictionalized in Orson Scott Card's "Off to See the Emperor." Seanan McGuire's "Emeralds to Emeralds, Dust to Dust" finds Dorothy grown up, bitter, and still living in Oz. And she has a murder to solve - assuming Ozma will stop interfering with her life long enough to let her do her job. In "Blown Away," Jane Yolen asks: What if Toto was dead and stuffed, Ozma was a circus freak, and everything you thought you knew as Oz was really right here in Kansas? "The Cobbler of Oz" by Jonathan Maberry explores a Winged Monkey with wings too small to let her fly. Her only chance to change that rests with the Silver Slippers. In Tad Williams's futuristic "The Boy Detective of Oz," Orlando investigates the corrupt Oz simulation of the Otherland network. And more...Some stories are dystopian...Some are dreamlike...All are undeniably Oz. Includes stories by these authors: Dale Bailey, Orson Scott Card, Rae Carson, David Farland, C.C. Finlay, Jeffrey Ford, Theodora Goss, Simon R. Green, Kat Howard, Ken Liu, Seanan McGuire, Jonathan Maberry, Rachel Swirsky, Robin Wasserman, Tad Williams, Jane Yolen. **A Note On Suggested Reading Age:** L. Frank Baum's original Oz books were works of children's fiction--albeit ones that have been known and loved by "children of all ages" throughout their existence. Though many of the stories contained in this anthology are also suitable for the aforementioned children of all ages, Oz Reimagined is intended for ages 13 and up, and as such, some of the stories deal with mature themes, so parental guidance is suggested.
