Di Bawah Naungan Khittah Perjuangan HMI

Istana Media Sejarah mencatat bahwa para intelektual besar tidak lahir dari kerumunan orang, melainkan dari komunitas-komunitas kecil yang kreatif, dan HMI menjadi salah satu representasi dari komunitas kecil tersebut. Sebagai salah satu organisasi mahasiswa yang telah menorehkan tinta sejarah di pentas nasional selama lebih dari 60 tahun, eksistensi dan kiprah Himpunan Mahasiswa Islam (HMI) tidak bisa dipandang sebelah mata. Atas dasar itu, para Kader HMI dituntut--terlebih di era demokratisasi seperti saat ini--untuk semakin jeli dalam mengisi dan memenuhi ruang publik dengan beragam debat ilmu dan gagasan yang diharapkan mampu membawa bangsa ini menuju arah yang lebih baik. Buku yang dihadapan pembaca ini adalah salah satu wujud ikhtiar dari penulis selaku Kader HMI untuk memenuhi tuntutan di atas. Seperti kita ketahui, Nilai Dasar Perjuangan HMI yang digagas Nurcholis Madjid dan kawan-kawan di akhir tahun 1960-an telah mendapat kritik sejak akhir 1970-an. Kader-kader HMI menjawab beragam kritik tersebut dengan melakukan beberapa perubahan dan salah satu hasilnya adalah Khittah Perjuangan. Menilik urgensi tersebut, pemahaman terkait Khittah Perjuangan--yang merupakan paradigma gerakan atau manhaj yang memuat penjelasan utuh tentang pilihan ideologis yang dianut oleh HMI--mau tidak mau harus selalu didaras dan dipancang sebagai pedoman dalam ber-HMI. Di tengah minimnya buku yang menyinggung tentang Khittah Perjuangan HMI, buku ini mengajak Anda untuk 'menguliti' HMI berikut Khittah Perjuangan-nya dari dimensi kesejarahan. Melalui buku ini, diharapkan diskursus mengenai Khittah Perjuangan HMI dapat lebih terbuka dan mendalam. Karena sebagai sebuah teks, Khittah Perjuangan HMI merupakan karya pada zamannya yang mesti dikontekstualisasikan sesuai dengan kebutuhan.

Teach Like Finland: 33 Simple Strategies for Joyful Classrooms

W. W. Norton & Company Easy-to-implement classroom lessons from the world's premier educational system. Finland shocked the world when its fifteen-year-olds scored highest on the first Programme for International Student Assessment (PISA), a set of tests touted for evaluating critical-thinking skills in math, science, and reading. That was in 2001; but even today, this tiny Nordic nation continues to amaze. How does Finnish education—with short school days, light homework loads, and little standardized testing—produce students who match the PISA scores of high-powered, stressed-out kids in Asia? When Timothy D. Walker started teaching fifth graders at a Helsinki public school, he began a search for the secrets behind the successes of Finland's schools. Walker wrote about several of those discoveries, and his Atlantic articles on this subject became hot topics of conversation. Here, he gathers all he learned and reveals how any teacher can implement many of Finland's best practices. Remarkably, Finland is prioritizing the joy of learning in its newest core curricula and Walker carefully highlights specific strategies that support joyful K-12 classrooms and integrate seamlessly with educational standards in the United States. From incorporating brain breaks to offering a peaceful learning environment, this book pulls back the curtain on the joyful teaching practices of the world's most lauded school system. His message is simple but profound: these Finland-inspired strategies can be used in the U.S. and other countries. No educator—or parent of a school-aged child—will want to miss

out on the message of joy and change conveyed in this book.

On God and Unfinished Things (Ed. Bahasa Inggris)

Gramedia Pustaka Utama On God and Other Unfinished Things is a poetry collection and also “scraps of thought” from Goenawan Mohamad. A word “scraps” is apt for the task at hand because this is hardly a full script. Each of its parts was written with something close to brevity a cut or a remnant of sorts of a larger piece, or notes taken while traveling. All 99 of these “scraps” can be read sometimes as parts that support or refute one another, and at other times as pieces that stand on their own. All were written in times when God seemed to be irrefutable and Religion & Spirituality gained ever more currency in the lives of many: dispensing strength and illuminating the path ahead, but times which were at the same time threatening.

Double Blessing

Don't Settle for Less Than You're Called to Bless

Multnomah God doesn't bless us to raise our standard of living. God blesses us to raise our standard of giving, and that's where true joy is found. The New York Times bestselling author of Chase the Lion challenges us not to settle for half of what God offers when it comes to blessings—we are BLESSED to BLESS. His discovery started with a simple experiment. Whenever Batterson received a blessing, he would give a similar blessing away. If someone paid him a compliment or gave him a gift or went out of their way to help him, he would return the favor by doing something similar for someone else. We flip the blessing by blessing others in the way God has blessed us. That’s how the blessing becomes a double blessing. It turns giving into a game—one we can’t win because God will always outgive us! It’s an ancient truth found within the Abrahamic covenant: “I will bless you . . . and you will be a blessing.” In other words, we are blessed to bless. The first blessing is receiving, but it doesn’t end there. The second blessing is giving it away! That’s the double blessing. And that’s where double joy is found. In a day and age where the idea of blessing has been reduced to a hashtag (#blessed), Batterson challenges readers to pursue true, God-glorifying blessing and experience an exponential impact by participating in the double blessing. Don’t settle for half of what God offers. Discover how you can both get it and give it . . . in Double Blessing.

Sudden Genius?

The Gradual Path to Creative Breakthroughs

OUP Oxford The highly admired scientist Linus Pauling, a double Nobel laureate in chemistry and peace, was once asked by a student. 'Dr Pauling, how do you have so many good ideas?' Pauling thought for a moment and replied: 'Well, David, I have a lot of ideas and throw away the bad ones.' Where do ideas come from? Why do some people have many more of them than others? How do you distinguish the good ideas from the bad? Most intriguing of all, perhaps, why do the best ideas sometimes strike in a flash of 'sudden genius'? These questions are the subject of this book. Andrew Robinson explores the exceptional creativity in both scientists and artists by following the trail that led ten individuals from childhood to the achievement of a famous creative breakthrough as an adult, in archaeology, architecture, art, biology, chemistry, cinema, music, literature, photography, and physics. Broken into three parts, the book begins with the scientific study of creativity, covering talent, genius, intelligence, memory, dreams, the unconscious, savant syndrome, synaesthesia, and mental illness. The second part tells the stories of five breakthroughs by scientists and five by artists, ranging from Curie's discovery of radium and Einstein's theory of special relativity to Mozart's composing of *The Marriage of Figaro* and Virginia Woolf's writing of *Mrs Dalloway*. Robinson concludes by considering what highly creative people who achieve breakthroughs have in common; whether breakthroughs in science and art follow patterns; and whether they always involve imaginative leaps and even 'genius'.

Life Full of Reading

A Collection of Book Reviews

The Independent Insight A quiet afternoon, a cozy chair, a warm cup of coffee, and a good book—these are the perfect description of moments that should be cherished in this short life. Carl Sagan once said that reading is magical, that it enables humans from different epoch to talk to each other; it is more than that. Reading is a gateway to imagination, a world without limit, a safe space to escape from enduring reality. Sometimes it is a space where you socialize without having to meet people. This book is a compilation of book reviews written over the years. The book was broken into two parts, the first part is the long reviews, the second part is the short reviews, which covered a wide range of genre from economics, self-help, novels, comic book to political philosophy and parenting.

The 8th Habit

From Effectiveness to Greatness

Simon and Schuster In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

Islamic Education and Indoctrination

The Case in Indonesia

Routledge Islamic schools, especially madrasahs, have been viewed as sites of indoctrination for Muslim students and militants. Some educators and parents in the United States have also regarded introductory courses on Islam in some public schools as indoctrinatory. But what do we mean by "indoctrination"? And is Islamic education indoctrinatory? This book critically discusses the concept of indoctrination in the context of Islamic education. It explains that indoctrination occurs when a person holds to a type of beliefs known as control beliefs that result in ideological totalism. Using Indonesia as an illustrative case study, the book expounds on the conditions for an indoctrinatory tradition to exist and thrive. Examples include the Islamic school co-founded by Abu Bakar Ba'asyir and the militant organisation Jemaah Islamiyah. The book further proposes ways to counter and avoid indoctrination through formal, non-formal, and informal education. It argues for the creation and promotion of educative traditions that are underpinned by religious pluralism, strong rationality, and strong autonomy. Examples of such educative Muslim traditions in Indonesia will be highlighted. Combining philosophical inquiry with empirical research, this book is a timely contribution to the study of contemporary and often controversial issues in Islamic education.

A Guide to Writing Competency Based Training Materials

Modern Perspectives on Islamic Law

Edward Elgar Publishing 'This book presents an invaluable contribution to the debate on the compatibility of Islam and modernity. It is full of arguments and examples showing how Islam can be understood in line with modern life, human rights, democracy, the rule of law, civil society and pluralism. The three authors come from different countries, represent different gender perspectives and have a Shia, a Sunni and a non-Muslim background respectively which makes the book a unique source of information and inspiration.' Irmgard Marboe, University of Vienna, Austria This well-informed book explains, reflects on and analyses Islamic law, not only in the classical legal tradition of Sharia, but also its modern, contemporary context. The book explores the role of Islamic law in secular Western nations and reflects on the legal system of Islam in its classical context as applied in its traditional homeland of the Middle East and also in South East Asia. Written by three leading scholars from three different backgrounds: a Muslim in the Sunni tradition, a Muslim in the Shia tradition, and a non-Muslim woman the book is not only unique, but also enriched by differing insights into Islamic law. Sir William Blair provides the foreword to a book which acknowledges that Islam continues to play a vital role not just in the Middle East but across the wider world, the discussion on which the authors embark is a crucial one. The book starts with an analysis of the nature of Islamic law, its concepts, meaning and sources, as well as its development in different stages of Islamic history. This is followed by accounts of how Islamic law is being practised today. Key modern institutions are discussed, such as the parliament, judiciary, dar al-ifta, political parties, and other important organizations. It continues by analysing some key concepts in our modern times: nation-state, citizenship, ummah, dhimmah (recognition of the status of certain non-Muslims in Islamic states), and the rule of law. The book investigates how in recent times, more and more fatwas are issued collectively rather than emanating from an individual scholar. The authors then evaluate how Islamic law deals with family matters, economics, crime, property and alternative dispute resolution. Lastly, the book revisits certain contemporary issues of debate in Islamic law such as the burqa, halal food, riba (interest) and apostasy. Modern Perspectives on Islamic Law will become a standard scholarly text on Islamic law. Its wide-ranging coverage will appeal to researchers and students of Islamic law, or Islamic studies in general. Legal practitioners will also be interested in the comparative aspects of Islamic law presented in this book.

The Sociology of Islam

Knowledge, Power and Civility

John Wiley & Sons The Sociology of Islam provides an accessible introduction to this emerging field of inquiry, teaching and debate. The study is located at the crucial intersection between a variety of disciplines in the social sciences and the humanities. It discusses the long-term dynamics of Islam as both a religion and as a social, political and cultural force. The volume focuses on ideas of knowledge, power and civility to provide students and readers with analytic and critical thinking frameworks for understanding the complex social facets of Islamic traditions and institutions. The study of the sociology of Islam improves the understanding of Islam as a diverse force that drives a variety of social and political arrangements. Delving into both conceptual questions and historical interpretations, The Sociology of Islam is a transdisciplinary, comparative resource for students, scholars, and policy makers seeking to understand Islam's complex changes throughout history and its impact on the modern world.

The Leadership Challenge

Improving Learning in Schools

Acer Press This review aims to demonstrate that a great deal of a school's success depends on which areas of school life the educational leader chooses to spend time and attention. Section 1 describes the three interrelated, or nested, elements of leadership. Beginning from the outside and moving inward to the core these are: school context, school organisation, and the school leader. Section 2 focuses on the school context, with reference to the forces that are currently pressing on schools, and the implications these have for schools and their leaders. Section 3 examines school organisations and looks at evolving models such as communities of professional learners. Section 4 concentrates on the school leader, questioning whether one type of leader fits all and what it means to be a successful leader. It also examines issues of leader recruitment and retention; leadership in pre-retirement, or small schools, or high-poverty communities; leader autonomy and responsibility; and new shared models of leadership. Section 5 provides a range of recommendations and the challenge to school leaders that they move beyond mere technical competence and be contextually literate, organisationally savvy and leadership smart. Self-Help, Inc.

Makeover Culture in American Life

Oxford University Press on Demand Why doesn't self-help help? Millions of people turn to self-improvement when they find that their lives aren't working out quite as they had imagined. The market for self-improvement products - books, audiotapes, life-makeover seminars and regimens of all kinds - is exploding, and there seems to be no end in sight for this trend. In "Self-Help, Inc.: Makeover Culture in American Life", cultural critic Micki McGee asks what our seemingly insatiable demand for self-help can tell us about ourselves at the outset of this new century. The answers are surprising. Rather than finding an America that is narcissistic or self-involved, as others have contended, McGee sees a nation relying on self-help culture for advice on how to cope in an increasingly volatile and competitive work world. For Americans today, a central component of working has become working on themselves. "Be all one can be," they are told. Build your own personal brand. As women have entered the paid labor force in growing numbers, the Protestant work ethic has been augmented by a Romantic imperative that one create a vision - a script - for one's life.; More and more, Americans are compelled to regard themselves in effect as "human capital." No longer simply an enterprising or entrepreneurial individual, the new worker is the artist and the artwork, the "CEO of Me, Inc.," in Tom Peters' memorable phrase, and the central product line. "Self-Help, Inc." reveals how makeover culture traps Americans in endless cycles of self-invention and overwork as they struggle to stay ahead of a rapidly restructuring economic order. A lucid and fascinating treatment of the modern obsession with work and self-improvement, this book will strike a chord with its diagnosis of the self-help trap and with its suggestions for how we can address the alienating conditions of modern work and family life.
