Analysis of Chick Lit in Relation to Post-Feminism and the Market** *GRIN Verlag* Essay from the year 2014 in the subject English Language and Literature Studies - Literature, grade: 1,0, Free University of Berlin (Englische Philologie), language: English, abstract: The twenty-first century heroine fights in a Prada dress, in the jungle of big cities, not for world peace but for bargain buys. Today's heroines also have to be versatile to meet the requirements of post-feminism, popular culture and neo-liberalism: they work, they care for friends, they have to fight for Mr.Right (so they don't end up as a spinster eaten by cats), they do Brazilian Waxing and most importantly, they shop. When Helen Fielding's Bridget Jones stated that she had decided to "go shopping and stop obsessing" (Fielding 80) it seemed as if a wall was pulled down and women in "Chick Lit" went shopping as if there was no tomorrow. Thanks to credit cards, there is indeed no limit. On the one hand, those women are mostly educated and independent with a solid income, but on the other hand they get into debt for the newest Hermes scarf to achieve an ideal which is propagated in popular culture. Here the question emerges: What significance does the fashion and beauty industry have for women in the 21st century? This essay will answer that question, proving that while the fashion and beauty industry as well as post-feminism propagates the economic independence of women and, in connection, massive consumerism as a symbol for the liberation of women, shopping instead reflects the subliminal oppression of women by the market. The background and theoretical framework for this thesis is provided by Angela McRobbie, one of the leading feminist theorists of the 21st century, who states that the fashion and beauty industry "appears to displace traditional modes of patriarchal authority" (McRobbie 61). My object of analysis is Sophie Kinsella's "Chick Lit" novel "Confessions of a Shopaholic," as to the heroines in "Chick Lit" shopping is a central and essential part of their lives and is **Jungle How Tropical Forests Shaped the World—and Us** *Hachette UK* "A bold, ambitious and truly wonderful history of the world"—Peter Wohlleben, author of *The Hidden Life of Trees* From the age of dinosaurs to the first human cities, a groundbreaking new history of the planet that tropical forests made. To many of us, tropical forests are the domain of movies and novels. These dense, primordial wildernesses are beautiful to picture, but irrelevant to our lives. Jungle tells a different story. Archaeologist Patrick Roberts argues that tropical forests have shaped nearly every aspect of life on earth. They made the planet habitable, enabled the rise of dinosaurs and mammals, and spread flowering plants around the globe. New evidence also shows that humans evolved in jungles, developing agriculture and infrastructure unlike anything found elsewhere. Humanity's fate is tied to the fate of tropical forests, and by understanding how earlier societies managed these habitats, we can learn to live more sustainably and equitably today. Blending cutting-edge research and incisive social commentary, Jungle is a bold new vision of who we are and where we come from. **I Am the Jungle A Yoga Adventure** *Sounds True* I Am the Jungle: A Yoga Adventure takes kids through a yoga flow of poses inspired by the natural world, including Mountain, River, Elephant, and Python.
