THE TEST

WHY OUR SCHOOLS ARE OBSESSED WITH STANDARDIZED TESTING-BUT YOU DON'T HAVE TO BE

PublicAffairs "[The anti-testing] movement now has a guidebook. . . . Kamenetz shows how fundamentally American it would be to move toward a more holistic system." -New York Times Book Review The Test is an essential and critically acclaimed book for any parent confounded by our national obsession with standardized testing. It recounts the shocking history and tempestuous politics of testing and borrows strategies from fields as diverse as games, neuroscience, and ancient philosophy to help children cope. It presents the stories of families, teachers, and schools maneuvering within and beyond the existing educational system, playing and winning the testing game. And it points the way toward a hopeful future of better tests and happier kids.

FACTS AND FIGURES OF THE BELFAST POGROM, 1920-22

G.B. Kenna was the pseudonym of Fr John Hassan and Facts and Figures of the Belfast Pogrom 1920-1922 was his compilation of reports to the Provisional Irish government in Dublin on sectarian violence in Belfast during the Irish War of Independence, Truce period and the start of the Civil War. Originally published by O'Connell Publishers in 1922, only 18 copies were bound and distributed with the remainder seemingly withdrawn on the direction of Michael Collins just prior to Collins' death. This reprint reproduces the text as it appeared in the original. While the record of fatalities appears incomplete, the book provides a contemporary insight into the violence experienced in Belfast at the time.

A HISTORY OF MORAVIAN MISSIONS

THE EIGHTEENTH CENTURY PIONEERS

Createspace Independent Publishing Platform This is an original reprinting of the official Moravian missions history with new maps detailing their numerous missionary journeys. This printing is the first of three volumes, and covers the initial years of Moravian missions. Get beyond the myth and pulpit folklore about the Moravians and see what God really did in using this group of believers to bring the Gospel to unreached people groups around the world in the 17th and 18th centuries. This band of refugees, displaced by Catholic persecutions in their own land, found safety with the benevolent Count Zinzendorf in Herrnhut, Germany. After the group experienced a true Holy Spirit revival, Count Zinzendorf found in them a zealous band of dedicated missionaries that carried the Gospel across the world while those back home maintained an unbroken, 24/7 prayer meeting for a hundred years. Just as remarkable is that the Moravians went out with no steady financial support. They were 'tentmakers' in most places they went to enable the rapid spread of workers without reliance on a large home financial support network. The Moravians are among the most significant, and least known, influencers of the modern missions movement that began in the 1700s and continues to today. John Wesley, founder of the Methodist church, witnessed the Moravians during his fateful voyage across the Atlantic, later attributing Moravian influence to his own conversion. William Carey, considered the father of modern missions and a pioneer in bringing the Gospel to India, attributed his

initial impetus for missions after reading about the activity of the Moravians. How did God use a band of largely uneducated craftsman and farmers to reach the world? You should read this definitive history of the Moravians to find out!

STUDIES ON SLAVERY

THE RISE OF WOMEN ENTREPRENEURS

PEOPLE, PROCESSES, AND GLOBAL TRENDS

Greenwood Publishing Group *Nearly 40% of all U.S. businesses are women-owned, and by 2025 the Census Bureau projects it will rise to 55%. The trend is new, dating back just to the 1980s, but its impact is already felt. Not only are women achieving empowerment and bettering their lives in many different ways, but the beneficial affect on the economic well-being of the entire country is also clear. Coughlin examines the fundamental problems that face women entrepreneurs globally; identifies, documents, and explains how they cope with and solve them; profiles the more successful entrepreneurs today and explains how they got where they are; and delineates the traits of the successful entrepreneur. Research-based, well written, with a useful list of organizations that offer help to owners and prospective owners of new businesses, plus real life accounts that get to the heart of what it takes to succeed as an entrepreneur, Coughlin's book is welcome, necessary reading for anyone fascinated by business--and eager to create a business of one's own.*

BEYOND THE TEAM

Routledge An internationally renowned author offers an overview of how people and jobs can best be connected in a new era. 'Beyond the Team' draws on Meredith Belbin's extensive work with organizations worldwide to give further insights into the workings of teams and groups. The modern job needs to be actively interpreted and constantly revised in terms of the balance between a team role, a work role and a professional role. The increasingly complex demands of modern jobs can be aided by a colour system as tested in international trials. A colour based top down, bottom up form of communication creates sensitive feedback with a special value where members of a workforce do not share common language. The socially complex nature of communication about work in a new era offers parallels with the intricacies of the social insect world. Information technology is extending human networking with the potential of creating a form of organization closer to what can be achieved in superorganisms. 'Beyond the Team' shows how eventually, the mature team can learn to distribute work between its own members by giving a comprehensive understanding of how to manage both team roles and work roles.

URBAN DESIGN: GREEN DIMENSIONS

Routledge In Green Dimensions, Cliff Moughtin relates sustainable development and green design to the realm of urban design and development. Examining regional and local frameworks for design and planning, this book shows how sustainable urban design can be implemented on every scale. Working from a strong theoretical base, the author uses case studies and discusses policy developments, in order to challenge the conventional wisdom on sustainable design. The book provides a rounded discussion of the application and suitability of current practice, and predicts future design needs. Updating the reader on topics such as energy efficiency, sustainable city forms and the culture of new urbanism, this completely revised and restructured second edition also includes brand new chapters on the Urban Park and Bio-diversity.

THE HISTORY OF PRESTON GUILD

800 YEARS OF ENGLAND'S GREATEST CARNIVAL

"Originally the Guild controlled trade in what was an important market town. And to keep the membership of this exclusive merchant's club up to date the town's burgesses met once every twenty years to have their names listed in the Guild Roll. By the time Preston began to grow into an important industrial town at the end of the eighteenth century the Guild had lost most of its old role in regulating trade ...Unlike practically every other guild in the country, Preston Guild survived and prospered."--Jacket.

CONSERVATION OF BUILDING AND DECORATIVE STONE

Routledge One of the problems which beset the practical conservation of stone buildings is the fragmentation of the disciplines involved. This book, with both volumes now available as one invaluable paperback, brings these disciplines together by the involvement of contributors with different experiences and approaches to the same material. Part one is an introduction to the complexities and background history of stone conservation followed by the most comprehensive description yet produced of the building and decorative stones used in the British Isles. In part two, practitioners involved in stone conservation describe ways in which major structural masonry problems, secondary building problems and different stone surface conditions may be treated. A variety of building types and environments has been used to ensure that the broad scope of common problems is covered. This second part of the book will be of practical value to art historians, archaeologists, architects, surveyors and engineers, masonry contractors and sculpture conservators in solving problems and in learning to use each other's skills and experience.

THE CO-PRODUCTION IMPERATIVE

Edgar Cahn "Co-production is a bold, pragmatic strategy that shatters limits on social change. This book exposes the Dark Side of money and market. It redefines economics by treating households and community as a separate economy. Placing that economy on a par with market generates a new exchange dynamic the empowers us all to become change agents who can shape the future; convert failing social programs into catalysts for social justice; enlist Throw-Away People as partners in a shared mission; and create the world we want for our children."--Publisher's description.

THE ART OF SCREEN TIME

HOW YOUR FAMILY CAN BALANCE DIGITAL MEDIA AND REAL LIFE

Hachette UK Finally: an evidence-based, reassuring guide to what to do about kids and screens, from video games to social media. Today's babies often make their debut on social media with the very first sonogram. They begin interacting with screens at around four months old. But is this good news or bad news? A wonderful opportunity to connect around the world? Or the first step in creating a generation of addled screen zombies? Many have been quick to declare this the dawn of a neurological and emotional crisis, but solid science on the subject is surprisingly hard to come by. In The Art of Screen Time, Anya Kamenetz -- an expert on education and technology, as well as a mother of two young children -- takes a refreshingly practical look at the subject. Surveying hundreds of fellow parents on their practices and ideas, and cutting through a thicket of inconclusive studies and overblown claims, she hones a simple message, a riff on Michael Pollan's well-known "food rules": Enjoy Screens. Not too much. Mostly with others. This brief but powerful dictum forms the backbone of a philosophy that will help parents moderate technology in their children's lives, curb their own anxiety, and create room for a happy, healthy family life with and without screens.
