Internet Privacy

Eine multidisziplinäre Bestandsaufnahme/ A multidisciplinary analysis

Springer-Verlag Das Internet ist eine der bedeutendsten technologischen Errungenschaften der Geschichte. Es erlaubt Menschen in aller Welt Zugang zu umfassenden Informationen, unterstützt die weltweite Kommunikation und Vernetzung und fungiert als globaler Marktplatz. Dabei bieten die vielfältigen Angebote im Internet jedoch nicht nur Chancen; sie werfen auch Fragen des Datenschutzes, der Persönlichkeitsentfaltung und der Privatsphäre auf. Dieses Phänomen wird gemeinhin als das Privatheitsparadoxon bezeichnet. Aufgrund der großen Bedeutung von Privatheit im Internet hat acatech 2011 ein Projekt initiiert, das sich mit dem Privatheitsparadoxon wissenschaftlich auseinandersetzt. Dieser Band ist der erste Teil einer acatech STUDIE zum Projekt „Internet Privacy - Eine Kultur der Privatsphäre und des Vertrauens im Internet“. Die Autoren leisten eine Bestandsaufnahme der existierenden individuellen

und gesellschaftlichen Vorstellungen von Privatsphäre im Internet sowie der entsprechenden rechtlichen, technischen, ökonomischen und ethischen Rahmenbedingungen.

The Vertical Plane

HarperThorsons A unique supernatural detective story. For a period of two years, Ken Webster found himself in the extraordinary position of corresponding directly with an individual who had lived on the site of his own cottage four centuries earlier. The correspondence began with messages left on his home computer on the kitchen table, and ended with communications scrawled directly onto paper. Fully prepared for some form of elaborate hoax, Webster found to his consternation that the language of the messages tallied precisely with 16th century English usage. **The Vertical Plane** is a riveting personal experience of an inexplicable fault in the fabric of time - and a moving account of a relationship mediated across four hundred years.

The Future of Finance

The Impact of FinTech, AI, and Crypto on Financial Services

Springer This book, written jointly by an engineer and artificial intelligence expert along with a lawyer and banker, is a glimpse on what the future of the financial services will look like and the impact it will have on society. The first half of the book provides a detailed yet easy to understand educational and technical overview of FinTech, artificial intelligence and cryptocurrencies including the existing industry pain points and the new technological enablers. The second half provides a practical, concise and engaging overview of their latest trends and their impact on the future of the financial services industry including numerous use cases and practical examples. The book is a must read for any professional currently working in finance, any student studying the topic or anyone curious on how the future of finance will look like.

Coronavirus: A Book for Children

Nosy Crow What is the coronavirus, and why is everyone talking about it? Engagingly illustrated by Axel Scheffler, this approachable and timely book helps answer these questions and many more, providing children aged 5-10 and their parents with clear and accessible explanations about the coronavirus and its effects - both from a health perspective and the impact it has on a family's day-to-day life. With input from expert consultant

Professor Graham Medley of the London School of Hygiene & Tropical Medicine, as well as advice from teachers and child psychologists, this is a practical and informative resource to help explain the changes we are currently all experiencing. The book is free to read and download, but Nosy Crow would like to encourage readers, should they feel in a position to, to make a donation to: <https://www.nhscharitiestogether.co.uk/>

The Rough Guide to the Internet

An introduction to the Internet provides information on getting connected, e-mail and file transfer, newsgroups, websites, and netiquette.

Contemporary Strategy Analysis

John Wiley & Sons Ideal for MBA and advanced undergraduate students, Contemporary Strategy Analysis, 11th Edition delivers an accessible and insightful exploration of the fundamentals of strategic value creation. With a strong focus on practical strategies proven to work in the real-world, the text includes a multitude of case studies based on recognizable companies that illustrate the implementation of the concepts discussed within.

The Economist

ValueWeb

How fintech firms are using bitcoin blockchain and mobile technologies to create the Internet of value

Marshall Cavendish International Asia Pte Ltd

Big Data and Global Trade Law

Cambridge University Press An exploration of the current state of global trade law in the era of Big Data and AI. This title is also available as Open Access on Cambridge Core.

Doing Digital: Lessons from Leaders

Marshall Cavendish International Asia Pte Ltd There has been lots of discussion of digital and open banking, banking-as-a-service, banking platforms, FinTech and TechFin and more over the past decade. This all

indicates that we are in a decade of rapid cycle change that presents huge challenges and huge opportunities. Billion dollar unicorns appear rapidly, whilst internet giants achieve global domination. How are banks dealing with these changes and are any banks showing leadership? Well yes, a few are. With all the gloom merchants saying that traditional banking is doomed, a few banks have made radical moves to adapt and survive. Chris Skinner, world-leading commentator on banking and technology, has selected five of those banks—JPMorgan Chase (USA), BBVA and ING (Europe), and DBS and CMB (Asia)—to share their experiences. In detailed interviews, and with wide-ranging commentary, he has discovered the secrets of how not just adapt and survive, but how to thrive in this sea change of finance and technology. Learn the lessons of the leaders, and learn how to become a successful digital bank, by *Doing Digital*.

Paradise Lost

A Poem, In Twelve Books. 1

Change

19 Key Essays on How Internet Is Changing Our Lives

Turner The Internet has so entirely transformed virtually all aspects of everyday life that it seems almost impossible to assess its impact. Here, 19 esteemed scholars from around the world tackle the topic from different angles. Manuel Castells, David Gelernter, Juan Ignacio Vazquez, Evgeni Morozov, Mikko Hypponen, Yochai Benkler, Federico Casalegno, David Crystal, Lucien Engelen, Patrik Wikstrom, Peter Hirshberg, Paul DiMaggio and Edward Castronova address such matters as the "Internet of things"; the sociology of the Internet; cybercrime and Internet security; the future of work; the Internet and urban-rural sustainability; the "Worldstream and the Cybersphere"; gaming and society; the Internet's influence on languages and new economic systems; the massive changes wrought by the net in the music industry; and other aspects of its many cultural, social and political ramifications.

The New York Times Index

Strategic Analysis of the BBC

GRIN Verlag Seminar paper from the year 2011 in the subject Business economics - Operations Research, grade: 1,2, University of Sunderland, language: English, abstract: The following report presents a strategic analysis of the British Broadcasting Corporation (BBC). In order to analyse the external environment and potential advantages and disadvantages, the BBC faces, a PESTEL analysis was conducted. Porter's Five Forces analysis was applied, so that the competitive environment can be illustrated. The generation of value will be evaluated with a value chain analysis. Concluding, a SWOT analysis is exploiting the BBC's strength, weaknesses, opportunities and threats.

The Next Step

Exponential Life

Bbva-Open Mind The Next Step: Exponential Life presents essays on the potential of what are known as "exponential technologies"--those whose development is accelerating rapidly, such as robotics, artificial intelligence or industrial biology--considering their economic, social, environmental, ethical and even ontological implications. This book's premise is that humanity is at the beginning of a technological revolution that is evolving at a much faster pace than earlier ones--a revolution is so far-reaching it is destined to generate transformations we can only begin to imagine. Contributors include Aubrey D.N.J. de Grey, Jonathan Rossiter, Joseph A. Paradiso, Kevin Warwick, Huma Shah, Ramón López de Mántaras, Helen Papagiannis, Jay David Bolter, Maria Engberg, Robin Hanson, Stuart Russell, Darrell M. West, Francisco González, Chris Skinner, Steven Monroe Lipkin, S. Matthew Liao, James Giordano, Luciano Floridi, Seán Ó Héigeartaigh and Martin Rees.

The Educational Intelligent Economy

Big Data, Artificial Intelligence, Machine Learning and the Internet

of Things in Education

Emerald Group Publishing This book examines, from a comparative perspective, the impact of the movement from the so-called knowledge-based economy towards the Intelligent Economy, which is premised upon the application of knowledge. This volume links the advent of this new technological revolution to the world of governance and policy formulation in education.

Perspectives on Digital Humanism

Springer Nature This open access book aims to set an agenda for research and action in the field of Digital Humanism through short essays written by selected thinkers from a variety of disciplines, including computer science, philosophy, education, law, economics, history, anthropology, political science, and sociology. This initiative emerged from the Vienna Manifesto on Digital Humanism and the associated lecture series. Digital Humanism deals with the complex relationships between people and machines in digital times. It acknowledges the potential of information technology. At the same time, it points to societal threats such as privacy violations and ethical concerns around artificial intelligence, automation and loss of jobs, ongoing monopolization on the Web, and sovereignty. Digital Humanism aims to address these topics with a sense of urgency but with a constructive mindset. The book argues for a Digital Humanism that analyses and, most importantly, influences the complex interplay of technology and humankind toward a better society and life while fully respecting universal human rights. It is a call to shaping technologies in accordance with human values and needs.

Digital Bank: Strategies to launch or become a digital bank

Marshall Cavendish International Asia Pte Ltd Digital Bank tracks the innovations in banking and how the mobile internet is changing the dynamics of consumer and corporate relationships with their banks. The implication is that banks must become digitised, and that is a challenge as becoming a Digital Bank demands new services focused upon 21st-century technologies. Digital Bank not only includes extensive guidance and background on the digital revolution in banking, but also in-depth analysis of the activities of incumbent banks such as Barclays in the UK and mBank in Poland, as well as new start-ups such as Metro Bank and disruptive new models of banking such as FIDOR Bank in Germany. Add on to these a comprehensive sprinkling of completely new models of finance, such as Zopa and Bitcoin, and you can see that this book is a must-have for anyone

involved in the future of business, commerce and banking. Chris Skinner is best known as an independent commentator on the financial markets through the Finanser (www.thefinanser.com) and Chair of the European networking forum The Financial Services Club, which he founded in 2004. He is the author of ten books covering everything from European regulations in banking through the credit crisis to the future of banking, and is a regular commentator on BBC News, Sky News and Bloomberg about banking issues. More can be discovered about Chris here: <http://thefinanser.co.uk/fsclub/chris-skinner/>

Bank 2.0

How Customer Behaviour and Technology Will Change the Future of Financial Services

Brett King The financial crisis is just beginning for retail institutions. Ninety to ninety-five per cent of bank transactions are executed electronically today. The Internet, ATMs, call centres and smartphones have become mainstream for customers. But banks still classify these as alternative channels and maintain an organisation structure where Branch dominates thinking. Continued technology innovations, Web 2.0, social networking, app phones and mobility are also stretching traditional banking models to the limit. **BANK 2.0** reveals why customer behaviour is so rapidly changing, how branches will evolve, why cheques are disappearing, and why your mobile phone will replace your wallet all within the next 10 years.

Captain Cake: Meet The Candy Crew

Marshall Cavendish International Asia Pte Ltd General Rock needs a crew for his new spaceship, The Sweet Candy. He calls upon Captain Cake, Lieutenant Chocolate, Sergeant Jelly and Private Potato to team up and venture where no sweet has gone before. Will the Candy Crew know how to work together? The Series Join Captain Cake and his friends Lieutenant Chocolate, Sergeant Jelly and Private Potato as they journey through space. The Captain Cake stories will entertain young readers and explore themes such as friendship, teamwork and bravery. Captain Cake is a recipient of the prestigious Mom's Choice Award. The Mom's Choice Awards® (MCA) evaluates products and services created for parents and educators and is globally recognized for establishing the benchmark of

excellence in family-friendly media, products and services. Using a rigorous evaluation process, entries are scored on a number of elements including production quality, design, educational value, entertainment value, originality, appeal and cost. Around the world, parents, educators, retailers and members of the media trust the MCA Honoring Excellence seal when selecting quality products and services for families and children.

The Times Index

Indexes the Times, Sunday times and magazine, Times literary supplement, Times educational supplement, Times educational supplement Scotland, and the Times higher education supplement.

The Precariat

The New Dangerous Class

A&C Black This book presents the Precariat - an emerging class, comprising the rapidly growing number of people facing lives of insecurity, moving in and out of jobs that give little meaning to their lives. Guy Standing argues that this class is producing instabilities in society. Although it would be wrong to characterise members of the Precariat as victims, many are frustrated and angry. The Precariat is dangerous because it is internally divided, leading to the villainisation of migrants and other vulnerable groups. Lacking agency, its members may be susceptible to the siren calls of political extremism. To prevent a 'politics of inferno', Guy Standing argues for a 'politics of paradise', in which redistribution and income security are reconfigured in a new kind of Good Society, and in which the fears and aspirations of the Precariat are made central to a progressive strategy.

Reinventing the Company for the Digital Age

The seventh edition of Spanish banking group BBVA's annual series is dedicated to unveiling the new digital business models for twenty-first century companies. Esteemed experts from BBVA, "The Economist," Harvard University, Columbia Business School, Geoffrey Moore Consulting and more, contribute texts in accessible language.

The Master Algorithm

How the Quest for the Ultimate Learning Machine Will Remake Our World

Penguin UK A spell-binding quest for the one algorithm capable of deriving all knowledge from data, including a cure for cancer. Society is changing, one learning algorithm at a time, from search engines to online dating, personalized medicine to predicting the stock market. But learning algorithms are not just about Big Data - these algorithms take raw data and make it useful by creating more algorithms. This is something new under the sun: a technology that builds itself. In *The Master Algorithm*, Pedro Domingos reveals how machine learning is remaking business, politics, science and war. And he takes us on an awe-inspiring quest to find 'The Master Algorithm' - a universal learner capable of deriving all knowledge from data.

The Wall Street Journal

Poor Economics

A Radical Rethinking of the Way to Fight Global Poverty

Hachette UK The winners of the Nobel Prize in Economics upend the most common assumptions about how economics works in this gripping and disruptive portrait of how poor people actually live. Why do the poor borrow to save? Why do they miss out on free life-saving immunizations, but pay for unnecessary drugs? In *Poor Economics*, Abhijit V. Banerjee and Esther Duflo, two award-winning MIT professors, answer these questions based on years of field research from around the world. Called "marvelous, rewarding" by the Wall Street Journal, the book offers a radical rethinking of the economics of poverty and an intimate view of life on 99 cents a day. *Poor Economics* shows that creating a world without poverty begins with understanding the daily decisions facing the poor.

TOTAL DESIGN OVER TIME

Arup Design Book

Harriman House Limited Since it was established by Ove Arup in 1946, Arup has been the design, architectural and engineering genius behind many of the world's leading buildings and urban areas. The team has been pivotal in creating some of the world's best-known developments: from the groundbreaking Sydney Opera House to the unconventional Centre Pompidou in Paris and Crossrail, the largest construction project in Europe today. Beyond iconic buildings, Arup's influence is also in evidence behind the scenes. The hidden hand of the engineer has transformed many of our everyday experiences - often without us knowing. Arup has developed leading fire-safety systems in airports, cooling systems in museums to protect priceless artworks, and its experience with acoustics ensures every note is heard in the world's leading opera houses. The book focuses on some of the biggest global issues to arise over the past 70 years. They include the population explosion and subsequent increase in city living, as well as changes in transport patterns that have fuelled the construction of airports, roads, rail and bridges, and even the democratisation of sporting events. Looking at Arup's work under the lens of these world-shaping events, we show how this is a firm that has not just responded to a changing world, but has anticipated and led many of those changes. Arup takes its place in society seriously. Collaborations such as the partnership with C40 to tackle climate change are impacting the way future generations will live. Looking to the future, this is a firm that will continue on its mission to shape a better world.

The Trend Management Toolkit

A Practical Guide to the Future

Springer In a fast moving world, businesses need to keep up with data analysis and pattern spotting to identify future opportunities. Anne Lise Kjaer presents a unique methodology for global trend spotting along with practical tools and approaches to help companies and organizations analyse market changes and determine the way ahead.

Digital Human

The Fourth Revolution of Humanity

Includes Everyone

John Wiley & Sons Digital is far-reaching and ubiquitous - everything you know is about to change. We are living in the fourth age of humanity. First, we became human. Then we became civilized. The third age saw the creation of commerce. Now, we are becoming digital. Technology has changed the way we communicate, trade, and transact, with repercussions extending far beyond our personal spheres. Digital Human is a visionary roadmap for the future, a timely guide on how to navigate the world of finance as we create the next generation of humanity. It explores the digital evolution's impact and offers clear insights on thriving in this new era. Human and business relationships are evolving, and existing businesses must undergo substantial transformative changes to compete with the smaller, "lighter," and more agile companies that are able to quickly maneuver to match shifting consumer demands. A lack of online presence has become unthinkable, as consumer preferences continue to trend heavily toward online business and transactions—is your company equipped to thrive in this new era? While there is no definitive guide to this new reality, this insightful resource provides the starting point and roadmap to digital success in the financial services arena, covering aspects such as: Digital is not merely a "bolting on" of technology to produce results faster and cheaper, but a complete rethinking of common business practices and notions of efficiency and customer engagement Rethinking business starts with the customer - new business models are constructed entirely around this single, guiding principle A digital business model is all about connectivity, with front-office apps tied in to both back-office analytics and marketplaces with many players and segments Businesses must open their operations to this marketplace of players through APIs, necessitating a conversion of many core systems Central business and technology systems must change to adapt to new market entrants and new technologies that range from AI for back-office analytics to Distributed Ledger Technology (DLT) for global operations Leaders must rethink their businesses to be fit for the future digital age, and this comprehensive resource shines a spotlight on the key elements to this transformation.

The Search for Europe

Contrasting Approaches

La fabrica The eighth volume in the annual series sponsored by BBVA as part of its OpenMind initiative devoted to disseminating knowledge on key issues of our time, The Search for Europe analyses the present and future of the old continent and its integration project, which is certainly the most ambitious political and economic integration project ever attempted in

history, and a benchmark for similar processes in other regions.

Whedonistas!

A Celebration of the Worlds of Joss Whedon by the Women Who Love Them

In *Whedonistas*, a host of award-winning female writers and fans come together to celebrate the works of Joss Whedon (*Buffy the Vampire Slayer*, *Angel*, *Firefly*, *Dollhouse*, *Doctor Horrible's Sing-Along Blog*). By discussing the impact of Whedon's work, their involvement with his shows' fandoms and why they adore the worlds he's created, these essayists aim to misbehave in Whedon's rich, fantastical worlds. Essay topics include Sharon Shinn (*Samaria* series) and Emma Bull (*Territory*) elaborating on the perfection of *Firefly*, Jeanne Stein (*the Anna Strong Chronicles*) revealing *Buffy's* influence on *Anna Strong*, and Nancy Holder (*October Rain*, *The Watcher's Guide*) relating on-the-set tales of Spike menacing her baby daughter while Riley made her hot chocolate. Other contributors include Seanan McGuire (*October Daye* series), Elizabeth Bear (*Chill*), Catherynne M. Valente (*Palimpsest*), Maria Lima (*Blood Lines*), Jackie Kessler (*Black and White*), Mariah Huehner (*IDW Comics*), Sarah Monette (*Corambis*), and Lyda Morehouse (*AngeLINK Series*). Also featured is an exclusive interview with television writer and producer Jane Espenson.

Advances in Crowdfunding

Springer Nature This open access book presents a comprehensive and up-to-date collection of knowledge on the state of crowdfunding research and practice. It considers crowdfunding models and their different manifestations across a variety of geographies and sectors, and explores the perspectives of fundraisers, backers, platforms, and regulators. Gathering insights from a wide range of influential researchers in the field, the book balances concepts, theory, and case studies. Going beyond previous research on crowdfunding, the contributors also investigate issues of community, sustainability, education, and ethics. A vital resource for anyone researching crowdfunding, this book offers readers a deep understanding of the characteristics, business models, user-relations, and behavioural patterns of crowdfunding.

Information Systems Today

Managing in the Digital World

Pearson College Division ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Information Systems Today shows readers how information technology and systems are continuing to expand within all aspects of today's organizations and society. The fifth edition focuses on how information systems are fueling globalization--making the world smaller and more competitive--in virtually every industry and at an ever-increasing pace.

A Life on Our Planet

My Witness Statement and a Vision for the Future

Random House With a new afterword, Why You Are Here: A speech on the opening of the COP26 climate summit As a young man, I felt I was out there in the wild, experiencing the untouched natural world - but it was an illusion. The tragedy of our time has been happening all around us, barely noticeable from day to day - the loss of our planet's wild places, its biodiversity. I have been witness to this decline. A Life on Our Planet contains my witness statement, and my vision for the future - the story of how we came to make this, our greatest mistake, and how, if we act now, we can yet put it right. We have the opportunity to create the perfect home for ourselves and restore the wonderful world we inherited. All we need is the will do so.

World Business Directory

Computational Intelligence Methods in COVID-19: Surveillance, Prevention, Prediction and Diagnosis

Springer Nature The novel coronavirus disease 2019 (COVID-19) pandemic has posed a major threat to human life and health. This book is beneficial for interdisciplinary students, researchers, and professionals to understand COVID-19 and how computational intelligence can be used for the purpose of surveillance, control, prevention, prediction, diagnosis, and potential treatment of the disease. The book contains different aspects of COVID-19 that includes fundamental knowledge, epidemic forecast models, surveillance and tracking systems, IoT- and IoMT-based integrated systems for COVID-19, social network analysis systems for COVID-19, radiological images (CT, X-ray) based diagnosis system, and computational intelligence and in silico drug design and drug repurposing methods against COVID-19 patients. The contributing authors of this volume are experts in their fields and they are from various reputed universities and institutions across the world. This volume is a valuable and comprehensive resource for computer and data scientists, epidemiologists, radiologists, doctors, clinicians, pharmaceutical professionals, along with graduate and research students of interdisciplinary and multidisciplinary sciences.

Rockonomics

What the Music Industry Can Teach Us About Economics (and Our Future)

Hachette UK 'An entertaining guide to economics by a former adviser to Barack Obama that uses the lessons of the music business to explain what is happening in the rest of the world' The Times, Books of the Year 'A key voice on a vast array of economic issues for more than two decades' Barack Obama 'An absolutely brilliant mind. The definition of left and right brain balance' Quincy Jones 'The music business keeps re-inventing itself (from records, to tape, to CDs to streaming) and Alan Krueger covers all the bases. As one former LSE student once sang: 'its only rock and roll but I like it, like it, yes I do.' That applies to this book too' Richard Thaler, Nobel Prize Recipient and author of 'Nudge' 'Rockonomics is entertaining, educational and enlightening. Alan Krueger gives us a backstage tour of the music industry - and in doing so, he creates a brilliant metaphor for our entire economy. Highly recommended' Harlan Coben Alan Krueger, the former chairman of the president's Council of Economic Advisers, uses the music industry, from rock artists to music executives, from managers to promoters, as a way in to explain the principles of economics, and the forces shaping our economic lives. The music industry is often a leading indicator of today's economy; it is among the first to be disrupted by the latest wave of technology, and examining the ins and outs of how musicians create and sell new songs and plan concert tours offers valuable lessons for what is in store for businesses and employees in other industries that are struggling to adapt. Drawing on interviews with leading band members, music executives, managers, promoters, and using the latest data on revenues, royalties, tour dates, and merchandise,

Rockonomics takes readers backstage to show how the music industry really works - who makes money, how the economics of the music industry has undergone a radical transformation during the last twenty years, and what this tells us about our wider economy today.

Peter Pan Goes Wrong

A&C Black Tonight Neverland is fleshed out with plenty of plant life, certainly bettering 2011's production of Jack and the Bean-Cactus. So, with no further ado, please put your hands together for J.M. Barrie's Christmas classic: Peter Pan! The inept and accident-prone Cornley Polytechnic Drama Society set out to present J.M. Barrie's classic tale of Peter Pan, their most audacious production to date. Flying? Pyrotechnics? Sharp hooks? What ensues is two acts of hysterical disaster. You'll laugh, they'll cry. Something so wrong has never been so right. From the mischievous minds of the West End and Edinburgh hit The Play That Goes Wrong comes this highly original, chaos-filled re-telling of J.M. Barrie's much-loved classic. Peter Pan Goes Wrong received its world premiere at the Pleasance Theatre, London, on 10 December 2013.
