Authoring a PhD

How to Plan, Draft, Write and Finish a Doctoral Thesis or

Dissertation

Bloomsbury Publishing *This engaging and highly regarded book takes readers through the key stages of their PhD research journey, from the initial ideas through to successful completion and publication. It gives helpful guidance on forming research questions, organising ideas, pulling together a final draft, handling the viva and getting published. Each chapter contains a wealth of practical suggestions and tips for readers to try out and adapt to their own research needs and disciplinary style. This text will be essential reading for PhD students and their supervisors in humanities, arts, social sciences, business, law, health and related disciplines.*

The Analytical Writer

A College Rhetoric

Rowman & Littlefield *In The Analytical Writing Adrienne Robins explains college writing as a process of discovery, as a series of strategies that any college student can learn to apply. All strategies explained in this text are based on sound theories of teaching writing and on the patterns of successful writers. Writing and thinking should not be separated, and presenting only the steps without the accompanying explanation of how they influence thinking would be of little more help than having no method at all. By using this text the students will see as they plan, draft, and revise how their writing helps clarify their thoughts. This clearly written and engaging textbook is illustrated by real examples of student writing and appropriate cartoons. The second edition was revised and updated based on the large-scale evaluation of the first edition completed by professors and students. The new edition reflects four essential values: recognizing the diversity of writing processes, the necessity of peer and teacher interaction with the writer on drafts, the integration of writing and reading, and the appropriate uses of technology. Specific features of this second edition include: -new*

writing samples -electronic citation formats -updated library use chapter with technological guidance -concise paragraph chapter - revised introduction and conclusion chapter -rhetorical as well as grammatical explanations for punctuation usage -new cartoons - exercises drawn from students' papers -a condensed chapter on research papers -and an expanded, and clearer, chapter on special assignments and other writing tasks A Collegiate Press book

Long Term Economic Development

Demand, Finance, Organization, Policy and Innovation in a Schumpeterian Perspective

Springer Science & Business Media *The book gives an overview of important research topics recently addressed in evolutionary Neo-Schumpeterian Economics. The list of research questions and applications of Neo-Schumpeterian reasoning impressively demonstrates the rich possibilities ranging from theoretical issues addressing human behaviour to applied areas like the emergence of*

biotechnology in developing countries, the role of innovation on financial markets and the R&D strategies of multinational enterprises. The chapters in this book bring together a rich set of new analytical and empirical methodologies which allow for new relevant and rigorous insights in innovation processes which are responsible for economic development and structural change.

2014 International Conference on Computer, Network

DEStech Publications, Inc *The objective of the 2014 International Conference on Computer, Network Security and Communication Engineering (CNSCE2014) is to provide a platform for all researchers in the field of Computer, Network Security and Communication Engineering to share the most advanced knowledge from both academic and industrial world, to communicate with each other about their experience and most up-to-date research achievements, and to discuss issues and future prospects in these fields. As an international conference mixed with academia and industry, CNSCE2014 provides attendees not only the free exchange of ideas and challenges faced by these two key stakeholders and encourage future collaboration between members of these groups but also a good opportunity to make friends with scholars around the world. As the first session of the international conference on CNSCE, it covers topics related to Computer, Network Security and Communication Engineering. CNSCE2014 has attracted many scholars, researchers and practitioners in these fields from various countries. They take this chance to get together, sharing their latest research achievements with each other. It has also achieved great success by its unique characteristics and strong academic atmosphere as well as its authority.*
