Lesser Feasts and Fasts 2018

Church Publishing Lesser Feasts and Fasts has not been updated since 2006. This new edition, adopted at the 79th General Convention (resolution A065), fills that need. Biographies and collects associated with those included within the volume have been updated; a deliberate effort has been made to more closely balance the men and women represented within its pages.

My Emily Dickinson

New Directions Publishing With exacting rigor and wit, Howe pulls Dickinson free of all the sterile and stuffy belle-of-Amherst cotton wool and shows the poet in touch with elemental forces of nature, and as a prophet in all her radical zealotry and poetic glory. Her Emily Dickinson is a unique American genius, a demon lover of poetry—no neurasthenic spider artist. Howe draws into her discussion Browning, Wuthering Heights, the Civil War, "Master," the great Puritan preachers, captivity narratives, Shakespeare, and phantom lovers. As she chases away narrow and reductive feminist readings of the poet, Howe finds instead a radically powerful and true feminism at work in Dickinson, focusing the whole on that heart-stopping poem "My Life had stood—a Loaded Gun." A remarkable and passionate poet-on-poet engagement, My Emily Dickinson frees a great poet from the fetters of being read as a special female neurotic, and sets her against a fiery open sky where "Perception of an object means loosing and losing it...only Mutability certain." My Emily Dickinson won The Before Columbus Foundation Book Award.

Adaptation and Fitness in Animal Populations

Evolutionary and Breeding Perspectives on Genetic Resource Management

[Springer Science & Business Media](#) Fitness and adaptation are fundamental characteristics of plant and animal species, enabling them to survive in their environment and to adapt to the inevitable changes in this environment. This is true for both the genetic resources of natural ecosystems as well as those used in agricultural production. Extensive genetic variation exists between varieties/breeds in a species and amongst individuals within breeds. This variation has developed over very long periods of time. A major ongoing challenge is how to best utilize this variation to meet short-term demands whilst also conserving it for longer-term possible use. Many animal breeding programs have led to increased performance for production traits but this has often been accompanied by reduced fitness. In addition, the global use of genetic resources prompts the question whether introduced genotypes are adapted to local production systems. Understanding the genetic nature of fitness and adaptation will enable us to better manage genetic resources allowing us to make efficient and sustainable decisions for the improvement or breeding of these resources. This book had an ambitious goal in bringing together a sample of the world's leading scientists in animal breeding and evolutionary genetics to exchange knowledge to advance our understanding of these vital issues.

Debths

New Directions Publishing The newest collection by one of America's most exciting poets A collection in five parts, Susan Howe's electrifying new book opens with a preface by the poet that lays out some of Debths' inspirations: the art of Paul Thek, the Isabella Stewart Gardner collection, and early American writings; and in it she also addresses memory's threads and galaxies, "the rule of remoteness," and "the luminous story surrounding all things noumenal." Following the preface are four sections of poetry: "Titian Air Vent," "Tom Tit Tot" (her newest collage poems), "Periscope," and "Debths." As always with Howe, Debths brings "a not-being-in-the-no."

Estimating Market Value and Establishing Market Rent at Small Airports

"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.
