Recommendations and Reports Chinese Student Migration and Selective Citizenship Mobility, Community and Identity Between China and the United States *Routledge* Since China began its open-door and reform policies in 1978, more than three million Chinese students have migrated to study abroad, and the United States has been their top destination. The recent surge of students following this pattern, along with the rising tide of Chinese middle- and upper-classes' emigration out of China, have aroused wide public and scholarly attention in both China and the US. This book examines the four waves of Chinese student migration to the US since the late 1970s, showing how they were shaped by the profound changes in both nations and by US-China relations. It discusses how student migrants with high socioeconomic status transformed Chinese American communities and challenged American immigration laws and race relations. The book suggests that the rise of China has not negated the deeply rooted "American dream" that has been constantly reinvented in contemporary China. It also addresses the theme of "selective citizenship" - a way in which migrants seek to claim their autonomy - proposing that this notion captures the selective nature on both ends of the negotiations between nation-states and migrants. It cautions against a universal or idealized "dual citizenship" model, which has often been celebrated as a reflection of eroding national boundaries under globalization. This book draws on a wide variety of sources in Chinese and English, as well as extensive fieldwork in both China and the US, and its historical perspective sheds new light on contemporary

Chinese student migration and post-1965 Chinese American community. Bridging the gap between Asian and Asian American studies, the book also integrates the studies of migration, education, and international relations. Therefore, it will be of interest to students of these fields, as well as Chinese history and Asian American history more generally. **Federal Register Prologue The Journal of the National Archives The AILA Immigration Practice Toolbox Nuts and Bolts for the General Immigration Lawyer AILA Publications A Nuts and Bolts Law Office Management Tool for the General Immigration Lawyer The Immigration Practice Toolbox** gives you essential information at your fingertips! Libraries and the Internet have made finding information on a wide range of topics faster and easier, but not all information—particularly from primary sources—is available via local library branches or online resources. Using archival information presents its own challenges. Materials are often located in many different places: public or academic libraries, government agencies, historical societies, or museums. They are usually kept in secured areas where the public is restricted from browsing. This definitive guide shows novice and experienced researchers how to find archival information. It provides tips on how to use archival materials effectively and efficiently. Topics covered include government archives, science and technology collections, military archives, genealogical records, business and corporate archives, performing arts archives, and sports collections. Also provided is an overview of the world of archives, including archival terminology, how to contact archives, and archival etiquette. Whether searching for a noted author's original manuscripts, trying to locate presidential papers, or tracking down a repository of oral histories, Archival Information is an indispensable reference. **California Business Law Practitioner A Guide to Current Practice An Administrative Manual for Midwifery Practices House documents American Foreign Policy, Current Documents***
