How to Get What You Want from a Man iUniverse “Love is a choice that creates feelings, not feelings that makes you choose.” Dc This book is created from an account of how I experienced a time in my life. Were a woman knowing how to get along with a man. It is not normal today for relationships to just work out without working it out. Most women are told even before their teenager to enjoy their singlehood focus on their career, spend money, travel and enjoy hanging out with their friends, before getting serious with a man. Many women are told not to focus on a man just their 5-year plan. This book is for the woman who choose to find her way back to her true femininity and self-love thru her expression of self. This type of journey is with the interaction with others showing yourself separate from a man. As men and women, we have an innate fundamental desire for connecting with one another by design. My experience has awarded me the privilege to share with a woman in her natural state as she brought me to mine. I experienced a proud woman embracing her femininity her softness and kind nature. Always expressing

her feminine energy thru her words, touch and environment. She didn't find her feminine nature in things but in her enter self. When she expressed, I made her feel safe and secure? She respected and accepted me. I made her comfortable and feel cherished. She was loyal and presented herself with kindness and grace among the public. Which made me want to carry myself to be responsible in my actions so she would have the emotional security she needed. And she regularly expressed acts of service to show her appreciation and need for me. While all the time never exchanging hurtful words or injuring one another's feeling. I would naturally give to her and give to her. This is when I knew a woman can get what she wants from a man. The time we spend here on earth means very little without an experience such as this. Once you have experienced this type of experience it will become a lifelong yearning. He can only imagine it to be like a drug attic experience that first high and forever chasing that high time and time again. The author believes because of this experience he has become an author given a voice with something to say. I say thank you. Bulletin Sight Unseen Science, UFO Invisibility, and Transgenic Beings Simon and Schuster The New York Times bestselling author of Witnessed, Intruders, and Missing Time -- three groundbreaking books on the UFO phenomenon - - returns with astonishing evidence that other-worldly beings are a very real -- and growing -- part of our lives. In Sight Unseen, Budd Hopkins and coauthor Carol Rainey show how fascinating discoveries in modern science support the plausibility of the UFO phenomenon. Featuring sixteen never-before-published cases, Sight Unseen probes two newly uncovered patterns in alien abduction: cases of UFO "invisibility" and reports of genetically altered alien beings who interact with humans during their routine lives. The "invisibility" accounts detailed by Hopkins include numerous daylight abductions in densely populated urban areas -- all apparently unseen and accomplished through a technology of invisibility. Two air force non-coms are snatched from the tarmac of a busy military airfield. An Australian family is levitated up into a hovering craft while the father remains paralyzed on the ground with a camera to his eye. The resulting evidence on film is discussed in terms of our own scientific advances. In the second series of cases, abductees report encounters with beings who appear human but apparently possess paranormal powers and stunted emotional ranges. Three young women, unknown to each other, are mysteriously summoned to "job interviews." In ordinary office settings, they encounter human-looking beings who lead them into baffling UFO abduction experiences. A Wisconsin farmer meets "Damoe," a man with odd behavior who closely resembles his son. Damoe eventually reveals himself as an accomplice of UFO occupants in a startling abduction of the farmer and his wife. Five-year-old Jen is abducted at night to a nearby playground. There she must teach the techniques and skills of "play" to twelve seemingly identical, quasi-human children. Along with these bizarre, first-person stories told by credible people, Hopkins and Rainey explore cutting-edge advances in our own technologies and scientific theories that show how these new UFO patterns could have a concrete basis in contemporary science. Included are an examination of cloaking devices for aircraft, mind-control technologies, and teleportation achieved in the lab. Perhaps the most compelling argument to support these cases lies in the startling and controversial new science of transgenics that actually allows for the creation of alien/human beings.
