### **SEE YOU AT HARRY'S**

---

*Candlewick Press* Starting middle school brings all the usual challenges — until the unthinkable happens, and Fern and her family must find a way to heal. Twelve-year-old Fern feels invisible. It seems as though everyone in her family has better things to do than pay attention to her: Mom (when she's not meditating) helps Dad run the family restaurant; Sarah is taking a gap year after high school; and Holden pretends that Mom and Dad and everyone else doesn't know he's gay, even as he fends off bullies at school. Then there's Charlie: three years old, a "surprise" baby, the center of everyone's world. He's devoted to Fern, but he's annoying, too, always getting his way, always dirty, always commanding attention. If it wasn't for Ran, Fern's calm and positive best friend, there'd be nowhere to turn. Ran's mantra, "All will be well," is soothing in a way that nothing else seems to be. And when Ran says it, Fern can almost believe it's true. But then tragedy strikes- and Fern feels not only more alone than ever, but also responsible for the accident that has wrenched her family apart. All will not be well. Or at least all will never be the same.

## **THE NEW SULTAN**

---

*Bloomsbury Publishing In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdoğan. Since 2002, Erdoğan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdoğan the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner Cagaptay will look at Erdoğan's roots in Turkish history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey.*

---

## **INNOVATIONS IN RESEARCH AND PRACTICE**

---

*Springer Science & Business Media Criminal enterprises are growing in sophistication. Terrorism is an ongoing security threat. The general public is more knowledgeable about legal matters. These developments, among others, necessitate new methods in police work--and in training new recruits and in-service officers. Given these challenges, improvements in training are a vital means of both staying ahead of lawbreakers and delivering the most effective services to the community. Police Organization and Training surveys innovations in law enforcement training in its evolution from military-style models toward continuing professional development, improved investigation methods, and overall best practices. International dispatches by training practitioners, academics, and other experts from the US, the UK, Canada, Germany, Hong Kong, and elsewhere emphasize blended education methods, competency-building curricula, program and policy development, and leadership concepts. These emerging paradigms and technologies, coupled with a clear focus on ethical issues, provide a lucid picture of the future of police training in both educational and law enforcement contexts. In addition, the book's training templates are not only instructive but also adaptable to different locales. Featured in the coverage: Simulation technology as a training tool, the Investigation Skill Education Program and the Professionalizing Investigation Program, redesigning specialized advanced criminal investigation and training, a situation-oriented approach to addressing potentially dangerous situations, developments in United Nations peacekeeping training and combating modern piracy Police Organization and Training is a key resource for researcher sand policymakers in comparative criminal justice, police and public administration, and police training academies. It also has considerable utility as a classroom text in courses on policing and police administration. Includes a forward by Ronald K Noble, Secretary General of INTERPOL.*
