Travel Connections

Tourism, Technology and Togetherness in a Mobile World

Routledge Living in a world that is increasingly 'on the move' means that many of us now rely on mobile devices, social media, and networking technologies to coordinate togetherness with our social networks even when we are apart. Nowhere is this phenomenon more evident than in the emerging practices of 'interactive travel'. Today's travellers are more likely than ever to pack a laptop or a mobile phone and to use these devices to stay in touch with friends and family members - as well as to connect with strangers and other travellers - while they are on the road. New practices such as location-aware navigating, travel blogging, flashpacking and Couchsurfing now shape the way travellers engage with each other, with their social networks, and with the world around them. Travel Connections prompts a rethinking of the key paradigms in tourism studies in the digital age. Interactive travel calls into question longstanding tourism concepts such as landscape, the tourist gaze, hospitality, authenticity and escape. The book proposes a range of new concepts to describe the way tourists inhabit the world and engage with their social networks in the twenty-first century: smart tourism, the mediated gaze, mobile conviviality, re-enchantment and embrace. Based on intensive fieldwork with interactive travellers, Travel Connections offers a detailed account of this emerging phenomenon and uncovers the new forms of mediated and face-to-face togetherness that become possible in a mobile world. This book will be of interest to students and scholars of sociology, tourism and hospitality, new media, cosmopolitanism studies, mobility studies and cultural studies.

The Atheist Who Didn't Exist

Or: the dreadful consequences of bad arguments

Monarch Books In the last decade, atheism has leapt from obscurity to the front pages: producing best-selling books, making movies, and plastering adverts on the side of buses. There's an energy and a confidence to contemporary atheism: many people now assume that a godless scepticism is the default position, indeed the only position for anybody wishing to appear educated, contemporary, and urbane. Atheism is hip, religion is boring. Yet when one pokes at popular atheism, many of the arguments used to

prop it up quickly unravel. The Atheist Who Didn't Exist is designed to expose some of the loose threads on the cardigan of atheism, tug a little, and see what happens. Blending humour with serious thought, Andy Bannister helps the reader question everything, assume nothing and, above all, recognise lazy scepticism and bad arguments. Be an atheist by all means: but do be a thought-through one.

The Billionaire Murders

The Mysterious Deaths of Barry and Honey Sherman

Penguin NATIONAL BESTSELLER A top journalist crosses the yellow tape to investigate a shocking high-society crime. Billionaires, philanthropists, socialites . . . victims. Barry and Honey Sherman appeared to lead charmed lives. But the world was shocked in late 2017 when their bodies were found in a bizarre tableau in their elegant Toronto home. First described as murder-suicide — belts looped around their necks, they were found seated beside their basement swimming pool — police later ruled it a staged, targeted double murder. Nothing about the case made sense to friends of the founder of one of the world's largest generic pharmaceutical firms and his wife, a powerhouse in Canada's charity world. Together, their wealth has been estimated at well over \$4.7 billion. There was another side to the story. A strategic genius who built a large generic drug company — Apotex Inc. — Barry Sherman was a self-described workaholic, renowned risk-taker, and disruptor during his fifty-year career. Regarded as a generous friend by many, Sherman was also feared by others. He was criticized for stifling academic freedom and using the courts to win at all costs. Upset with building issues at his mansion, he sued and recouped millions from tradespeople. At the time of his death, Sherman had just won a decades-old legal case involving four cousins who wanted 20 percent of his fortune. Toronto Star investigative journalist Kevin Donovan chronicles the unsettling story from the beginning, interviewing family members, friends, and colleagues, and sheds new light on the Shermans' lives and the disturbing double murder.
