THE BSA BANTAM BIBLE

ALL MODELS 1948 TO 1971

[Veloce Publishing Ltd](#) **Year-by-year evolution of the BSA Bantam, a simple commuter bike that thousands learnt to ride on. It became the standard GPO 'telegram bike' in the 1950s and was a huge success, with 100,000 built in the first four years of production. It's a story with interesting asides, like the Hummer, Harley-Davidson's version of the DKW that inspired the Bantam, and survived into the 1960s. But it's a sad story too - BSA failed to follow up the Bantam's early success by developing it, and by the mid-1960s it was looking outdated, especially next to the new breed of four-stroke Hondas. That the Bantam was allowed to fizzle out in 1971 symbolised the state of the industry that produced it, but today there's a thriving community of Bantam owner/riders. The book ends with a guide to buying a secondhand Bantam, along with useful appendices on specifications, engine/frame numbers, and contacts among the clubs and Bantam specialists. Every Bantam owner, or would be owner, needs this book - the Bantam Bible!**

PLASTIC TOY CARS OF THE 1950S AND 1960S

THE COLLECTOR'S GUIDE

Veloce Publishing Ltd **The history of Dinky Toys, Corgi Toys and other makers of diecast metal cars has been covered in great detail in many books and magazine articles; by contrast, information on plastic toy cars is much harder to come by. Yet collectors are taking an increasing interest in plastic cars, particularly as the rise in the value of early diecast and tinplate models has put many of these out of reach of the average enthusiast. For the first time, this book aims to provide a systematic introduction to the vast number of plastic cars made during the 1950s and 1960s. Years of research have enabled the author to uncover many fascinating facts about the companies who made these toys. Some were major players in the toy industry, like Tri-ang and Brimtoy in the UK, Norev and Minialuxe in France, Gama and Siku in Germany and Ingap in Italy. Many others, though, were more obscure, and some only modeled one car before disappearing without trace. More than 250 photographs of these toys are included, with the emphasis being on the most colorful and realistic examples, all of them based on real vehicles of the period. In many cases, the toy is pictured alongside its original box, the presence of which can often double the value of the item to a collector. Readers will also find a handy glossary listing the names of many of the companies who were active in this field in the 1950s and 1960s, together with some evocative period advertisements and catalogue illustrations. If you thought that a model car had to be made of diecast metal to be worth collecting, this book might change your mind . . . With 250 color photos, extensive appendices and identification aids this is a must have for any collector or dealer.**

FORZA MINARDI!

THE INSIDE STORY OF THE LITTLE TEAM WHICH TOOK ON THE GIANTS OF F1

Veloce Publishing Ltd **After 20 years of glorious 'failure', the best-loved team in Formula One is consigned to the history**

books, and it deserves one of its own. Minardi had a successful time in Formula Two until the tiny Italian outfit was ready to hit the big time in 1985. It somehow survived in F1's shark-infested waters as bigger teams (Lotus, Arrows, Tyrrell) were dragged under. They have a truly international fan-base and are the 'second team' of most F1 devotees. Minardi is held in such affection as everyone loves the plucky underdog - Minardi's annual budget would have lasted one month at the other Italian team up the road. Yet, from its plant in Faenza near Bologna, Minardi has produced cars that qualify, sometimes score points and often lead the way in their technology. Gian Carlo Minardi also developed a reputation as a fabulous talent-spotter - Fisichella, Trulli, Webber and the youngest ever World Champion Alonso all started their F1 careers with Minardi. For the last five years, Minardi was owned by controversial Australian tycoon Paul Stoddart. Cast as David against the Goliath of F1's governing body, Stoddart constantly hit the headlines as he tried to get a more equal share of the sport's billions. Ultimately, he failed and Red Bull has now bought the team. Despite a petition of 15,000 names, the Minardi name has vanished from the F1 grid and true motorheads miss it. This is the one and only inside account, with exclusive, comprehensive interviews with bosses, drivers and engineers. 140 unique photos complete this revalationary tale.

A bold new design, the "Dart" as it was originally to be called, should have been struggling Daimler's savior and a springboard to a range of new models, including saloons and coupes.
