**"O'Reilly Media, Inc."** With the tiny Shuffle, the Nano, the Classic, and the Touch, Apple's gotten the world hooked on portable music, pictures, videos -- and the iPod. One thing they haven't delivered, though, is an easy guide for getting the most from this sleek entertainment center. Enter iPod: The Missing Manual, 7th Edition -- a book as breathtaking, satisfying, and reliable as its subject. Now in a sleek, travel-friendly size, this new edition provides a no-nonsense view of iTunes 8 and everything in the latest iPod line, with crystal-clear explanations, easy-to-follow color graphics, and guidance on all the amazing things you can do, including: Out of the box and into your ears. Find out how to install iTunes and load music on your iPod. And get advice on buying copy-protection free songs from stores like Amazon and Rhapsody. Bopping around the iPod. Learn everything from turning it on and off to shaking your iPod Nano to shuffle your tracks. In tune with iTunes. Choose which parts of your iTunes library loads onto your iPod, move your sacred iTunes Folder to a bigger hard drive, and add album covers to your collection. Picking playlists like a Genius. Let iTunes' new Genius feature whip up smart playlists from your library, and suggest songs from the iTunes Store that fit with what you already own. The power of the 'Pod. Download movies and TV shows and learn how to play them on your iPod and finish viewing them on your TV. Play photo slideshows, find cool podcasts, and more. Welcome to the App Store. Soup up your iPod Touch, from upgrading to the 2.0 firmware to installing the iTunes Store's nifty new collection of programs -- including games that turn the Touch into a pocket 3-D arcade. Even if you don't buy one of the new iPod models, this Missing Manual has plenty of information on the latest version of iTunes, the App Store and a whole lot more about Apple's incredible device.

### THE IPHONE BOOK (COVERS IPHONE 3G, ORIGINAL IPHONE, AND IPOD TOUCH)

---

**Peachpit Press** [The first edition of "The iPhone Book" was chosen by Amazon's editors as their Computer/Technology Book of the Year. This new version of the book, totally updated and expanded for the 3G iPhone, was chosen by Amazon as one of their "Top 10 Must-Have Books" in their annual list of the most "gift-worthy" books of the holiday season. Here's why this book has become such a hit with iPhone users around the world: it's not a "Tell-me-all-about-it" book, which has in-depth discussions on everything from wireless network protocols to advanced compression codes. Instead it's a "show-me-how-to-do-it" book, that skips all the confusing techno-jargon and just tells you, in plain simple English, exactly how to use the iPhone features you want to use most. The book's layout is brilliant, with each page covering just one single topic, so finding the information you need is quick and easy, with a large full-color photo on each page so you can see exactly how it works. In this book, you'll learn: • How to set up and manage your email the right way from the start • How to take advantage of the iPhone's Web features \(including important tips that help you avoid frustration, and get you where you want to go fast!\) • How to download and install applications from Apple's online App Store • The key trouble-shooting tips you've got to know • How to get your favorite photos onto your iPhone, tips for using its built-in camera, and how to make the most of the iPhone's surprisingly powerful photo features • The tips you've got to know to use your iPhone's built-in iPod features, including watching videos, podcasts, TV shows and movies \(you're going to be amazed at some of the cool things you can do\) • How to use the iPhone's built-in applications to organize your life \(you'll learn things in this chapter you didn't know the iPhone could do!\) • The top 20 tips for the iPhone's phone feature that will make you fall in love with it \(you'll never want to use any other phone again\) • Plus so much more, including a special bonus chapter called "iPhone Killer Tips" where you'll learn those hidden secrets that you'll be passing on to your iPhone friends \(and they will be amazed!\). The iPhone Book is from Scott Kelby, the award-winning author of the smash bestseller, The iPod Book, who teams up once again with gadget guru, and iPhone authority, Terry White to put together a book that is an awful lot like the iPhone itself—simple to use and fun to learn. In this major update to the book, Scott and Terry added even more tips, more tricks, and made it even easier by focusing on just the most useful and most requested features \(without all the techno-babble\) so you can start really using your iPhone today! BONUS VIDEO: The authors put together a special in-depth video just for readers of the book where they not only share their favorite iPhone accessories, but they share even more of those hidden little time-saving tips that can make all the difference in the world. If you've been waiting for a book that focuses on just](#)

the most important, most useful, and most fun stuff about your iPhone—you've found it.
