OFFICIAL SUMMARY OF SECURITY TRANSACTIONS AND HOLDINGS REPORTED TO THE SECURITIES AND EXCHANGE COMMISSION UNDER THE SECURITIES EXCHANGE ACT OF 1934 AND THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

TOTAL CONTROL

HIGH PERFORMANCE STREET RIDING TECHNIQUES

Motorbooks Today's super high-performance bikes are the most potent vehicles ever sold to the public and they demand advanced riding skills. This is the perfect book for riders who want to take their street riding skills to a higher level. Total Control explains the ins and outs of high-performance street riding. Lee Parks, one of the most accomplished riders, racers, authors and instructors in the world, helps riders master the awe-inspiring performance potential of modern motorcycles. This book gives riders everything they need to develop the techniques and survival skills necessary to become a proficient, accomplished, and safer street rider. High quality photos, detailed instructions, and professional diagrams highlight the intricacies and proper techniques of street riding. Readers will come away with a better understanding of everything from braking and cornering to proper throttle control, resulting in a more exciting yet safer ride.

SPORTBIKE PERFORMANCE HANDBOOK

UNSTOPPABLE

Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player and a hard money lender, Yanni learned reliable principles and the skills necessary for success. Unstoppable covers many topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book Unstoppable, you can do just that.

MOTOCROSS RACING

Bellwether Media Motocross racing has been growing in popularity since the 1950s. The technology and competitions have changed, but the fast-paced action has not. Students will learn about the history of motocross racing, the equipment required to race, and how competition works.

TO DAKAR AND BACK

21 DAYS ACROSS NORTH AFRICA BY MOTORCYCLE

ECW Press In this adventure motorsports memoir, the first Canadian motorcycle racer to complete the infamous Paris-Dakar Rally recounts his incredible journey. The Paris-Dakar Rally is without question the most arduous and notorious off-road motorsports event on the planet. Since its inception in 1979, it has attracted more than three thousand adventurers from all walks of life. The men and women who have taken up the "Dakar challenge" have at least one thing in common: a desire to measure themselves against the desolate sands of the Sahara. In 2001, Canadian adventure racer Lawrence Hacking entered what would be the last rally on the iconic route from Paris to Dakar. In *To Dakar and Back*, Hacking, in collaboration with motorsport journalist Wil De Clercq, recounts the three weeks of blood, sweat, and tears that took him on that ten thousand kilometer journey in the heat of competition from the glitzy streets of the French capital through the hinterland of North Western Africa and the triumph of self-realization.

BEACH ROAD

Hachette UK Tom Dunleavy has a one-man law firm in East Hampton, summer home to billionaires and Hollywood celebrities. But his clients are the people he grew up with, the people who make a living serving the rich. When an old friend, Dante Halleyville, is arrested for a triple murder near a movie star's mansion, Tom agrees to represent him, and recruits super lawyer, and ex-girlfriend, Kate Costello to help fight the case. As Tom wonders if he can ever get Kate to forgive him for his past sins, the case takes on astonishing dimensions, revealing a world of illegal pleasures, revenge, and fear amongst the super-rich...

ENGINEERING MECHANICS: DYNAMICS

Cengage Learning Readers gain a solid understanding of Newtonian dynamics and its application to real-world problems with Pytel/Kiusalaas' ENGINEERING MECHANICS: DYNAMICS, 4E. This edition clearly introduces critical concepts using learning features that connect real problems and examples with the fundamentals of engineering mechanics. Readers learn how to effectively analyze problems before substituting numbers into formulas. This skill prepares readers to encounter real life problems that do not always fit into standard formulas. The book begins with the analysis of particle dynamics, before considering the motion of rigid-bodies. The book discusses in detail the three fundamental methods of problem solution: force-mass-acceleration, work-energy, and impulse-momentum, including the use of numerical methods. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

ELECTRIC POWER SYSTEMS

A FIRST COURSE

John Wiley & Sons Author Ned Mohan has been a leader in EES education and research for decades. His three-book series on Power Electronics focuses on three essential topics in the power sequence based on applications relevant to this age of sustainable energy such as wind turbines and hybrid electric vehicles. The three topics include power electronics, power systems and electric machines. Key features in the first Edition build on Mohan's successful MNPERE texts; his systems approach which puts dry technical detail in the context of applications; and substantial pedagogical support including PPT's, video clips, animations, clicker questions and a lab manual. It follows a top-down systems-level approach to power electronics to highlight interrelationships between these sub-fields. It's intended to cover fundamental and practical design. This book also follows a building-block approach to power electronics that allows an in-depth discussion of several important topics that are usually left. Topics are carefully sequenced to maintain continuity and interest.

BRAKE DESIGN AND SAFETY

THE COMPLETE IDIOT'S GUIDE TO MOTORCYCLES

Penguin The Complete Idiot's Guide to Motorcycles, Fourth Edition, is the most complete book on motorcycles, covering everything from how to choose and maintain a motorcycle and how to buy appropriate gear, to how to ride safely, and how to make the most out of trips on the open road.

RMS TITANIC MANUAL

1909-1912 OLYMPIC CLASS

Zenith Press The world famous ocean liner Titanic, which sank on her maiden voyage in 1912, is the latest subject to receive the Haynes Manual treatment. With an authoritative text and hundreds of illustrations, see how this leviathan was built, launched, and fitted out. Read about her lavish passenger accommodation. Learn about the captain's responsibilities, including the operation of a transatlantic liner. Consider the chief engineer's view—how did he manage the huge engines and other onboard systems? What was it like to operate the luxury ocean liner from the perspective of Titanic's owner, the White Star line?

HONDA CB750 NIGHTHAWK 1995-1999

Haynes Manuals N. America, Incorporated CB750 (1991-1993, 1995-1999)

THE RETURN OF THE LEFT

American politics are about to shift to the Left in a major way. This may sound absurd after the US has been shifting to the Right now for nearly half a century. But recent demographic data shows that the Right is reaching a limit, especially among younger generations. This same data also shows that this current long shift to the Right has lasted twice as long as any previous shift of its kind in the past 200 years. In other words, it's an anomaly, one that is long overdue for a big reversal. Also, such reversals usually take the public and experts by surprise, even though they're based on solid transformations, almost always on major economic downturns happening every half a century or so. And since these reversals happen with regularity, they are also foreseeable, at least if one looks for the right underlying trends. In the meantime, Americans seem to be taking up positions, digging in; more and more willing to take on the new challenges with newer ideas and convictions. The question is when will this big change happen, and how far will it go. Read this timely study with lucid forecasts based on polls, demographics, and well researched long-term economic trends. A must for anyone interested in disentangling the present, and anticipating the future.
