Managerial Finance

Routledge Managerial Finance provides a clear and readable explanation of the most important topics managers should understand about business finance. These include resource management, investment and decision making, as well as the practical use of financial ratios and performance indicators. Real examples and case studies are used throughout to illustrate points in a practical context. The book is based upon the Management Charter Initiative's Occupational Standards for Management NVQs and SVQs at Levels 4 & 5 and is also particularly suitable for managers on Certificate and Diploma in Management programmes, including those accredited by the IM and Edexcel (formerly BTEC). Managerial Finance is part of the highly successful series of textbooks for managers which cover the knowledge and understanding required as

part of any competency based management programme. The books cover the three main levels of management: supervisory/first-line management (NVQ level 3), middle management (Certificate/NVQ level 4) and senior management (Diploma/NVQ level 5). Alan Parkinson is the Hill Samuel Senior Lecturer in Accounting & Finance at the Open Business School. He was previously responsible as Director of the Open University MBA Programme for launching the highly successful MBA Course.

Structuring the Transition Process

Springer Science & Business Media Richard Wittsiepe analyses the relevant IFRS statements with a view to possibly integrating them into existing workflows in an annual audit. He weighs the key issues of conversion by comparing them with the 4th EU Directive for accounting within the EU. The aim is to visualise the workflows as the basis for creating support software which can make a key contribution to cost-effective conversion.

Financial Statement Analysis

An Integrated Approach

For one-semester, undergraduate-level courses in Financial Statement Analysis. Filling an important gap in business education, this text stresses the relationship between business and financial disclosures. It emphasizes business context and research in financial statement analysis. As an introduction to the discipline, students learn how to analyze financial statements by actively engaging in the research process, especially on the Internet, and understanding environmental influences on financial disclosures. In doing so, this book develops critical thinking, research, and analytical skills, as well as a technical understanding of the subject matter.
