Forse non tutti sanno che in Italia...

Newton Compton Editori **Curiosità, storie inedite, misteri, aneddoti storici e luoghi sconosciuti del Belpaese «Italia, Italia! Di terra bella e uguale non ce n'è». Come si può dar torto a Mino Reitano che ha celebrato l'unicità del Belpaese in una delle sue più famose canzoni. L'Italia è bella in ogni angolo, è la patria della storia e della cultura, il regno dell'arte e delle tradizioni. Il cuore dell'artigianato e della gastronomia. Ma accanto a ciò che è noto, visto, vissuto, ogni regione nasconde qualcosa di insolito, curioso, misterioso, al di fuori dei percorsi standard e dei luoghi convenzionali. Qualcosa che affascina per la sua peculiarità e quindi da osservare con uno sguardo attento, da apprezzare attraverso le piccole cose, le persone, gli aneddoti. Questo libro è un viaggio da Nord a Sud attraverso lo stivale, che vi conquisterà, incuriosirà e stupirà svelando tutto quello che "forse non sapevate", "forse non vi aspettate di trovare" e che, invece, finirete per amare. Forse non tutti sanno che in Italia... ...A Imperia esiste la dimora del più grande clown della storia ...L'orologio della torre di Lucca ha ancora il meccanismo di carica manuale ...Si parla ancora l'"arbëreshe" a San Costantino Albanese (PZ) ...Solo una torre guarda tutte le altre a Carovigno (BR) ...A Milano c'è ancora la vigna di Leonardo da Vinci ...La città felsinea (Bologna) deve la sua ricchezza all'acqua ...Esiste lo Spielberg dell'Irpinia a Montefusco (AV) ...A Catania si deve girare con lo sguardo all'insù Isa Grassano è giornalista professionista freelance. The book of the Lamborghini Murciélago

Veloce Publishing Ltd **The wedge-shaped V12 Lamborghini flagships were always spectacular - in shape, sound and performance. The Murciélago was an evolution of the Countach and the Diablo, and was as iconic in its time as its illustrious predecessors were in theirs. This book examines the Murciélago in detail, while casting a look back through Lamborghini's troubled history, to understand how the Murciélago came into being. Ferruccio Lamborghini, Patrick Minram, Megatech, Chrysler, and finally VW-Audi, all played their part in the birth of this modern classic. The book touches on the people and organisations involved in the production of this iconic car, before examining each of the model variants, and discusses the joys and tribulations of ownership.**

The Hanoverian Dimension in British History, 1714–1837

Cambridge University Press For more than 120 years (1714–1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.

Robert Crumb's Sex Obsessions

Taschen Somehow the Devil Got Me! The filthiest fruit of Robert Crumb's fertile imagination From the very beginning, even before the sexual revolution made Robert Crumb the world's most celebrated underground cartoonist, he felt compelled to commit his sexual fantasies to paper. Once upon a time, he'd destroy them, fearful of others discovering his quirky tastes. Then he found that baring his soul provided a sort of therapy, and he has memorialized his every desire since. Crumb's personal selection of these works first appeared in 2007 in a gorgeous, but pricey, TASCHEN Collector's Edition, complete with slipcase, lithographic print, and many strips hand-colored by Crumb himself. Now, this compact edition is offering the same high-quality obsession at a bargain price! This compendium includes the strips My Troubles With Women, If I Were a King, A Bitchin' Bod, and How To Have Fun With a Strong Girl, as well as 60 single page drawings. Recurring motifs include big strong girls, artistic wimps triumphantly subduing said girls, cavewomen, Yetis, vulture demonesses, bitter little guys, and did we mention big strong girls?

Waterworlds

Anthropology in Fluid Environments

Berghahn Books In one form or another, water participates in the making and unmaking of people's lives, practices, and stories. Contributors' detailed ethnographic work analyzes the union and mutual shaping of water and social lives. This volume discusses current ecological disturbances and engages in a world where unbounded relationalities and unsettled frames of orientation mark the lives of all, anthropologists included. Water emerges as a fluid object in more senses than one, challenging anthropologists to foreground the mutable character of their objects of study and to responsibly engage with the generative role of cultural analysis.

Alfa Romeo From 1910 to 2010

Giorgio Nada Editore Exactly 100 years ago in 1910 at Portello on the outskirts of Milan, a new company was established in the still young world of motoring of the period: Alfa Romeo. A name which, in those 100 years, has become synonymous with cars, so important has its presence been both on the industrial and sports fronts as well as culturally. In this long period of time, the celebrated Italian marque brought to life cars that have entered by right into the history of the automobile and not only that of Italy, like the 1900, the Giulietta and the Giulia. Yet at the same time the company was able to write its own unrepeatably pages in the annuals of motor sport, winning all the most important races: from the Mille Miglia to Le Mans, from the Tourist Trophy to the World Sports Car Championship. An epic about which just almost everything has been written; but this volume by a great authority on the subject in Maurizio Tabucchi aims to be a tribute to this tremendous story, told above all by pictures, many of them previously unpublished, and supported by brief but exhaustive texts.

Una creatura lieve, dai capelli d'ulivo, Una casetta che sembra fatta di marzapane, dalla quale ti aspetti che da un momento all'altro escano fate, streghe, folletti; un mondo della fantasia racchiuso in un edificio che è difficile immaginare più moderno e al tempo stesso oìù antico, più vicino agli esseri umani, alla loro storia e alla loro natura.**

Of Fear and Strangers

A History of Xenophobia

Yale University Press **Over the last few years, it has been impossible to ignore the steady resurgence of xenophobia. The European migrant crisis and immigration from Central America to the United States have placed Western advocates of globalization on the defensive, and a 'New Xenophobia' seems to have emerged out of nowhere. In this fascinating study, George Makari traces the history of xenophobia from its origins to the present day. Often perceived as an ancient word for a timeless problem, 'xenophobia' was in fact only coined a century ago, tied to heated and formative Western debates over nationalism, globalization, race and immigration. From Richard Wright to Sigmund Freud, Jean-Paul Sartre and Simone de Beauvoir, writers and thinkers have long grappled with this most dangerous of phobias. Drawing on their work, Makari demonstrates how we can better understand the problem that is so crucial to our troubled times.**

Pininfarina

90 Anni / 90 Years

Giorgio NADA Editore **On the occasion of the 90th anniversary of Pininfarina, a marque synonymous with style and elegance applied to car design, Pininfarina is a book that surveys, for the first time, the entire output of the Turin coachbuilder, model by model. Produced in close collaboration with the company, it draws on invaluable photographic material accompanying brief contextualising texts. Tracing the history of Pininfarina from its origins to the present day entails reviewing some of the most iconic models in automotive history: from the numerous Ferraris bodied by the historic partner of the Maranello firm to cars such as the Cisitalia 202, the Lancia Aurelia, the Alfa Romeo Duetto and 164, the Maserati GranTurismo through to the current models born under the aegis of the Indian firm Mahindra. The book also covers the numerous Pininfarina concept cars that have written glorious pages in the history of design, raising the bar every time in terms of the excellence of the car product.**

No Picnic on Mount Kenya

Hachette UK **A rediscovered mountaineering classic and the extraordinary true story of a daring escape up Mount Kenya by three prisoners of war. When the clouds covering Mount Kenya part one morning to reveal its towering peaks for the first time, prisoner of war Felice Benuzzi is transfixed. The tedium of camp life is broken by the beginnings of a sudden idea - an outrageous, dangerous, brilliant idea. There are not many people who would break out of a P.O.W. camp, trek for days across perilous terrain before climbing the north face of Mount Kenya with improvised equipment, meagre rations, and with a picture of the mountain on a tin of beef among their more accurate guides. There are probably fewer still who would break back in to the camp on their return. But this is the remarkable story of three such men. No Picnic on Mount Kenya is a powerful testament to the human spirit of revolt and adventure in even the darkest of places. "The history of mountaineering can hardly present a parallel to this mad but thrilling escapade" - Saturday Review "A most extraordinary prisoner-of-war and escape story" - New Yorker "A mad venture and a gallant tribute to man's deep yearning for freedom" - Kirkus Reviews "The book crackles with the same dry humour as its title. It contains the prison-yard bartering and candlelight stitching that mark a classic jailbreak yarn; the encounters with wild beasts in Mount Kenya's forest belt are as gripping, and the descriptions of sparkling glaciers as awe-inspiring, as any passage in the great exploration diaries of the early 20th century" - The Economist**

The Shadow of the Vulture

Read Books Ltd **This early work by Robert E. Howard was originally published in the 1934 and we are now republishing it with a brand new introductory biography. 'The Shadow of the Vulture' is set in the 16th century and introduces the now famous character Red Sonya. Robert Ervin Howard was born in Peaster, Texas in 1906. During his youth, his family moved between a variety of Texan boomtowns, and Howard - a bookish and somewhat introverted child - was steeped in the violent myths and legends of the Old South. At fifteen Howard began to read the pulp magazines of the day, and to write more seriously. The December 1922 issue of his high school newspaper featured two of his stories, 'Golden Hope Christmas' and 'West is West'. In 1924 he sold his first piece - a short caveman tale titled 'Spear and Fang' - for \$16 to the not-yet-famous Weird Tales magazine. Howard's most famous character, Conan the Cimmerian, was a barbarian-turned-King during the Hyborian Age, a mythical period of some 12,000 years ago. Conan featured in seventeen Weird Tales stories between 1933 and 1936 which is why Howard is now regarded as having spawned the 'sword and sorcery' genre. The Conan stories have since been adapted many times, most famously in the series of films starring Arnold Schwarzenegger.**

Caravaggio: The palette and the sword

Dark Horse Comics "Chronicling the pleasures and struggles of Michelangelo Merisi (who the world would come to know as Caravaggio) during the painter's early years in Rome, this seminal work is Manara's love letter to his idol--one of the most revered and influential artists in history. Filled with striking and timeless artwork, this hardcover is the first English-language edition of another modern Manara masterpiece"--

Sex & Danger in Buenos Aires

Prostitution, Family, and Nation in Argentina

U of Nebraska Press A study of prostitution necessarily examines questions of power, class, gender, and public health. In *Sex and Danger in Buenos Aires* these questions combine with particular force. During most of the time covered in this provocative book, from the late nineteenth century well into the twentieth, prostitution was legal in Argentina. Fears and anxieties concerning the effect of female sexual commerce on family and nation were rampant. Donna J. Guy looks at many aspects of the debate that followed an escalating demand for prostitutes by Argentines and European immigrants. She discusses the widespread fear of white slavery, the merits of medically supervised municipal houses of prostitution, the rights of local governments to restrict the civil liberties of citizens and foreigners, the censorship of literature and music dealing with the plight of prostitutes, and the potential criminality of unsupervised working women who might abandon their families. Guy also describes attempts to deal with female prostitution: rehabilitation, modifications of municipal bordello laws, and medical programs to prevent the spread of venereal disease. She makes clear that the treatment of "marginal" women by liberal politicians and doctors helped promoted policies of repression and censorship that would later be extended to other unacceptable social groups. Her study of how both local and national government in Argentina dealt with these women reveals important links between gender, politics, and economics.

Manitwana

Verso Books **1775—The conflict between the British Empire and the American colonies erupts in all-out war. Rebels and loyalists to the British Crown compete for an alliance with the Six Nations of the Iroquois, the most powerful Indian confederation, boasting a constitution hundreds of years old. In the Mohawk River Valley, Native Americans and colonists have co-existed for generations. But as the thunder of war approaches and the United States struggles violently into existence, old bonds are broken, friends and families are split by betrayal, and this mixed community is riven by hatred and resentment. To save his threatened world, the Mohawk war chief Joseph Brant sets off in a restless journey that will take him from New York to the salons of Georgian London at the heart of the British Empire.**

The Euro

The Battle for the New Global Currency

Yale University Press **This book is the first comprehensive political and economic account of the birth and development of the Euro. Today the Euro is the supranational currency for sixteen European countries and the world's second-largest reserve currency. David Marsh tells the story of the rivalries, intrigues, and deal making that brought about a currency for Europe, and he analyzes the achievements and shortcomings of its first decade of existence. While the Euro represents a remarkable triumph of political will, great pressures are building on the single currency. Drawing on more than 100 interviews with leading figures associated with the Euro, and scores of secret documents from international archives, Marsh underscores the Euro's importance for the global economy, in particular for U.S. and British economic and political agendas. Hidden facts and fresh insights from The Euro -- How the legacy of France and Germany's tortuous relations affects the Euro--Why the United Kingdom is unlikely to accept the Euro before 2025--The impact on the Euro of the U.S. credit crisis--How the Euro has rebounded against the aspirations of its founders--How Italy and Spain have massively lost competitiveness--Why radical changes must be adopted to prevent a European upheaval**

Dinner with Darwin

Food, Drink, and Evolution

University of Chicago Press What do eggs, flour, and milk have in common? They form the basis of crepes of course, but they also each have an evolutionary purpose. Eggs, seeds (from which flour is derived by grinding) and milk are each designed by evolution to nourish offspring. Everything we eat has an evolutionary history. Grocery shelves and restaurant menus are bounteous evidence of evolution at work, though the label on the poultry will not remind us of this with a Jurassic sell-by date, nor will the signs in the produce aisle betray the fact that corn has a 5,000 year history of artificial selection by pre-Colombian Americans. Any shopping list, each recipe, every menu and all ingredients can be used to create culinary and gastronomic magic, but can also each tell a story about natural selection, and its influence on our plates--and palates. Join in for multiple courses, for a tour of evolutionary gastronomy that helps us understand the shape of our diets, and the trajectories of the foods that have been central to them over centuries--from spirits to spices. This literary repast also looks at the science of our interaction with foods and cooking--the sights, the smells, the tastes. The menu has its eclectic components, just as any chef is entitled. But while it is not a comprehensive work which might risk gluttony, this is more than an amuse bouche, and will leave every reader hungry for more.

The Blind Rider

In this novel, which Juan Goytisolo has said will be his last, a melancholy, angry old man reviews the precious moments of his life amid the disasters of contemporary history. Years of love end with the death of his wife: their flat, furniture and CDs go, even memories fade. He remembers tender moments with his mother, who was killed in a bomb-blast unleashed by Fascists on Barcelona, the town he was born in. Together they would look at the stars and identify the brightest constellations. For the narrator, the ideal writer is Tolstoy, an enlightened aristocrat who wished to free his serfs and bring up his children with progressive, humanist principles. Tolstoy's characters embody dreams of a more intense, varied life: through them, the narrator discovers that freedom only exists in books. Like the books of W.G. Sebald and Italo Calvino, *Blind Rider* is a fictional memoir that

spans a history of the last fifty years. Tender at a personal level, it is at a political level an angry rant at God's lack of humanity: it confirms Goytisolo's position as one of the most committed writers of our time.

Jaguar Mk1 and 2, S-Type and 420

Crowood Press UK A history of all four generations of compact Jaguar, and their Daimler equivalents, tracing the gradual development of Sir William Lyons' original idea over a period between 1955 and 1969. From the powerful, luxury MK 1 and 2 cars to the 4.2-litre 420, this book covers design, development and styling; special-bodied variants; racing performance; buying and owning a compact Jaguar saloon model and, finally, specifications and production figures.

I Know I'm In There Somewhere

Penguin Based on her work with over a thousand women across the country, psychologist Helene G. Brenner has learned that women feel the impulse to accommodate, adapt and mold themselves to serve others at their own expense. Her solution is an invigorating new approach to women's psychology. The key to transformation, she explains, is not self-improvement, but self-acceptance—affirming and validating what we truly feel and experience and who we already are. Dr. Brenner shows women how to discover and express what they truly want and value, guiding you toward your own Inner Voice. *I Know I'm In There Somewhere* will show you: - How to embrace, rather than fix, the Inner Voice that has been there all along - How to distinguish the Outer Voices (the expectations of the people around you) from Your Inner Voice (the voice of your true self that goes beyond intuition and guides you wisely towards what is right for you) - What to do when you feel that the essence of who you are is being stifled by external demands and expectations

Renzo Piano

The Art of Making Buildings

One of the world's most renowned architects, Renzo Piano was born in Genoa in 1937 into a family of Italian builders. He is responsible for such iconic landmarks as the Shard in London, the Centre Georges Pompidou in Paris and the Whitney Museum of American Art in New York. The Renzo Piano Building Workshop, based in Paris and Genoa, fosters this spirit of collaboration and mentoring, and continues to pioneer groundbreaking architecture that challenges and inspires. This book, which accompanies an exhibition at the Royal Academy of Arts, provides an intimate look at the life and work of a man who believes passionately that architecture should make a positive contribution to people and place. An exclusive interview with Piano himself introduces this publication, before a series of texts by major figures from the worlds of culture, engineering and building, including the Oscar-winning actor and director Roberto Benigni, the artist Susumu Shingu and the architect Richard Rogers, Piano's co-designer of the Centre Georges Pompidou.

The Boy Who Could Change the World

The Writings of Aaron Swartz

The New Press In his too-short life, Aaron Swartz reshaped the Internet, questioned our assumptions about intellectual property, and touched all of us in ways that we may not even realize. His tragic suicide in 2013 at the age of twenty-six after being aggressively prosecuted for copyright infringement shocked the nation and the world. Here for the first time in print is revealed the quintessential Aaron Swartz: besides being a technical genius and a passionate activist, he was also an insightful, compelling, and cutting essayist. With a technical understanding of the Internet and of intellectual property law surpassing that of many seasoned professionals, he wrote thoughtfully and humorously about intellectual property, copyright, and the architecture of the Internet. He wrote as well about unexpected topics such as pop culture, politics both electoral and idealistic, dieting, and lifehacking. Including three in-depth and previously unpublished essays about education, governance, and cities, *The Boy Who Could Change the World* contains the life's work of one of the most original minds of our time.

Domesticated: Evolution in a Man-Made World

W. W. Norton & Company “An essential read for anyone interested in the stories of the animals in our home or on our plate.”—BBC Focus Without our domesticated plants and animals, human civilization as we know it would not exist. We would still be living at subsistence level as hunter-gatherers if not for domestication. It is no accident that the cradle of civilization—the Middle East—is where sheep, goats, pigs, cattle, and cats commenced their fatefully intimate association with humans. Before the agricultural revolution, there were perhaps 10 million humans on earth. Now there are more than 7 billion of us. Our domesticated species have also thrived, in stark contrast to their wild ancestors. In a human-constructed environment—or man-made world—it pays to be domesticated. Domestication is an evolutionary process first and foremost. What most distinguishes domesticated animals from their wild ancestors are genetic alterations resulting in tameness, the capacity to tolerate close human proximity. But selection for tameness often results in a host of seemingly unrelated by-products, including floppy ears, skeletal alterations, reduced aggression, increased sociality, and reduced brain size. It's a package deal known as the domestication syndrome. Elements of the domestication syndrome can be found in every domesticated species—not only cats, dogs, pigs, sheep, cattle, and horses but also more recent human creations, such as domesticated camels, reindeer, and laboratory rats. That domestication results in this suite of changes in such a wide variety of mammals is a fascinating evolutionary story, one that sheds much light on the evolutionary process in general. We humans, too, show signs of the domestication syndrome, which some believe was key to our evolutionary success. By this view, human evolution parallels the evolution of dogs from wolves, in particular. A natural storyteller, Richard C. Francis weaves history, archaeology, and anthropology to create a fascinating narrative while seamlessly integrating the most cutting-edge ideas in twenty-first-century biology, from genomics to evo-devo.
