KEY=THEORIES - SANIYA KOCH

Twelve Great Books that Changed the University And Why Christians Should Care

Wipf and Stock Publishers *Twelve scholars take us on a journey through twelve books that have defined the methodologies and orthodoxies of key disciplines within the university curriculum. These books have not only been formative for their respective disciplines, but have reshaped the university and continue to reframe our understanding of education. Each chapter places a Great Book in its historical context, summarizes the key ideas, and assesses the influence of the text on its discipline and society as a whole. In addition, each contributor offers an evaluation from a Christian perspective, explaining both the benefits of the book and the challenges it presents to a Christian worldview and philosophy of education.*

Beyond Bumper Sticker Ethics

An Introduction to Theories of Right and Wrong

InterVarsity Press *Steve Wilkens exposes the complex ethical systems lurking behind the most common slogans of our culture, offering a Christian evaluation of each. In this revised and expanded edition, the author has updated his introductory remarks about each ethical system and has included new chapters on evolutionary ethics and narrative ethics.*

Dance and Ethics

Moving Towards a More Humane Culture

Intellect Books *Dance and Ethics: Moving Towards a More Humane Culture is an introductory study of ethical issues as applied to the history and field of Western theatrical dance. It is the first sustained work of its kind, inspired by the belief that there are serious issues to be illuminated by examining dance in relation to ethics and to the changing values in the dance world itself, especially as faced by young dancers entering the profession. Since the 1960s and gathering momentum with the #metoo movement, scholars and practitioners, especially from the fields of dance education, somatics and the realms of postmodern dance and ballet, have increasingly believed that attitudes and practices involving psychological, physical and sexual mistreatment of students and dancers must be challenged.*

Dance and Ethics examines key ethical issues related to the dance field, primarily within the United States, and how those directly impact different aspects of the lives of dance artists over the span of their careers. The issues discussed include the basic ethical choices facing a dance artist in terms of whether to care about ethics or separate art from morality; ethical issues involved in student-teacher and dancer-choreographer relationships; how ethical concerns relate to the creation and reception of choreographic work; ethical aspects of the critical assessment of dance and dancers; and ethical issues related to presenting systems and institutional infrastructures within the dance field. While there is a clear bias towards greater humanism within the dance field, Naomi Jackson is sensitive to the variety of moral stances available in any given situation. Readers are invited to consider that ethical options exist other than those that are usually promoted, that while sometimes there are no clear right and wrong answers, there are better and worse positions to be explored and defended and that it is important for the dance field and broader culture to consciously address ethical issues in relation to dance in a sustained, thoughtful and creative manner. The book focuses on theatrical dance forms of ballet, modern/postmodern dance and theatrical jazz, but also extends to commercial dance, dance for the camera/internet and social/vernacular/folk dance when relevant to the main argument. *Dance and Ethics* will appeal primarily to educators and students as well as young professional dancers. It is designed for undergraduate and graduate students in dance studies, American studies, performance studies and cultural studies. It will be useful for undergraduate and graduate dance courses focused on pedagogy, choreography, criticism, community engagement, politics and aesthetics.

Hidden Worldviews

Eight Cultural Stories That Shape Our Lives

InterVarsity Press Steve Wilkens and Mark Sanford show how to detect the individualism, consumerism, nationalism, moral relativism, scientific naturalism, New Age thinking, postmodern tribalism and salvation as therapy that fly under our radar. Building on the work of worldview thinkers like James Sire, this book helps those committed to the gospel story recognize those rival cultural stories that compete for our hearts and minds.

Talking About Ethics

A Conversational Approach to Moral Dilemmas

Kregel Academic An accessible introduction to ethics through engaging dialogues *Talking About Ethics* provides the reader with all of the tools necessary to develop a coherent approach to ethical decision making. Using the tools of ethical theory, the authors show how these theories play out in relation to a wide variety of ethical questions using an accessible dialogue format. The chapters follow three college students as they discuss today's most important ethical issues with their families and friends, including: • Immigration • Capital punishment • Legalization of narcotics • Abortion • Premarital sex • Reproductive technologies • Gender identity • The environment, and many more The engaging dialogue format illustrates how these topics often take shape in the real world, and model critical thinking and Christian ethical decision making. Study aids in each chapter include overviews, sidebars, reflection questions, glossaries, and recommended reading. Ideal as a textbook for undergraduate ethics courses, it is also accessible enough for high school classes and personal study.

Business for the Common Good

A Christian Vision for the Marketplace

InterVarsity Press Is business just a way to make money? Or can the marketplace be a venue for service to others? Scott B. Rae and Kenman L. Wong seek to explore this and other critical business issues from a uniquely Christian perspective, offering up a vision for work and service that is theologically grounded and practically oriented.

Rediscovering an Evangelical Heritage

A Tradition and Trajectory of Integrating Piety and Justice

Baker Academic *This book, widely regarded as groundbreaking since its publication over thirty-five years ago, sheds light on the more radical and prophetic roots of American evangelicalism and has challenged countless readers to rethink their evangelical heritage. It argues that nineteenth-century American evangelicals held a more mature vision of the faith, for they engaged demanding justice, peace, and social issues--a vision that was betrayed and distorted by twentieth-century neo-evangelicals. The book helps readers understand that the broader origins of American evangelicalism include the social justice concerns of today's church. Featuring new historic photos and illustrations, this edition includes new introductory and concluding chapters and incorporates relevant updates. The previous edition was published as *Discovering an Evangelical Heritage*.*

A Manager's Guide to Using the Force

Leadership Lessons from a Galaxy Far Far Away

Emerald Group Publishing *By examining leadership theories, this book will help you become at one with the Force to be the best leader possible. The author explores evidence-based leadership and management practices from the unique perspective of the Jedi, making actionable recommendations you can implement in your organization.*

Mind Your Faith

A Student's Guide to Thinking and Living Well

InterVarsity Press *For young Christians about to embark on the collegiate experience, David Horner provides a guide to thinking as a Christian. Carefully exploring how ideas work, he gives students essential tools for thinking critically, contextually and coherently, unpacking worldviews and discerning truth.*

One.Life

Jesus Calls, We Follow

Zondervan *What is the "Christian life" all about? Studying the Bible, attending church, cultivating a prayer life, witnessing to others—those are all good. But is that really what Jesus has in mind? The answer, says Scot McKnight in *One.Life*, lies in Jesus' words, "Follow me." What does it look like to follow Jesus, and how will doing so change the way we live our life—our love.life, our justice.life, our peace.life, our community.life, our sex.life—everything about our life. *One.Life* will open your eyes to the full, compelling immensity of what it means to be a Christian. "Jesus offers to us a kingdom dream that transforms us to the very core of our being," says Scot McKnight. "His vision is so big we are called to give our entire life to it. His vision is so big it swallows up our dreams." Discover exactly what Jesus meant when he announced the arrival of God's kingdom. Equipping you with a new understanding of that kingdom's radical nature, *One.Life* shares profound, challenging, and practical insights on how to demonstrate its reality in your life. In many ways, what *The Cost of Discipleship* by Bonhoeffer challenged Christians to do in earlier generations, *One.Life* will do for a new generation. *One.Life* will call you beyond the flatlands of religiosity toward a kingdom vision that will shape everything you do.*

High-Performance Ethics

10 Timeless Principles for Next-Generation Leadership

Tyndale House Publishers, Inc. Do you have to lower your ethical standards in order to succeed at your job? *High-Performance Ethics* authors Wes Cantrell and James Lucas say that the answer is no. The authors outline ways to make ethical decisions (based on the Ten Commandments) that lead to highly successful business practices. *High-Performance Ethics* includes tips on how to lead a team with integrity, practical tools for resisting the pressure to compromise workplace standards, and encouragement for workers who want to see strong businesses—and strong values—thrive. *10 Principles: First Things Only (priorities) Ditch the Distractions Align with Reality (never claim support for a bad cause) Find Symmetry Respect the Wise Protect the Souls Commit to the Relationships Spread the Wealth Speak the Truth Limit Your Desires*

Fetal and Neonatal Physiology E-Book

Elsevier Health Sciences Offering the comprehensive, authoritative information needed for effective diagnosis, treatment, and management of sick and premature infants, *Fetal and Neonatal Physiology, 6th Edition*, is an invaluable resource for board review, clinical rounds, scientific research, and day-to-day practice. This trusted two-volume text synthesizes recent advances in the field into definitive guidance for today's busy practitioner, focusing on the basic science needed for exam preparation and key information required for full-time practice. It stands alone as the most complete text available in this complex and fast-changing field, yet is easy to use for everyday application. Offers definitive guidance on how to effectively manage the many health problems seen in newborn and premature infants. Contains new chapters on Pathophysiology of Genetic Neonatal Disease, Genetic Variants and Neonatal Disease, and Developmental Biology of Lung Stem Cells, as well as significantly revised chapters on Cellular Mechanisms of Neonatal Brain Injury, Neuroprotective Therapeutic Hypothermia, Enteric Nervous System Development and Gastrointestinal Motility, and Physiology of Twin-Twin Transfusion. Features 1,000 full-color diagrams, graphs and anatomic illustrations, 170+ chapters, and more than 350 global contributors. Includes chapters devoted to clinical correlation that help explain the implications of fetal and neonatal physiology, as well as clinical applications boxes throughout. Provides summary boxes at the end of each chapter and extensive cross-referencing between chapters for quick reference and review. Allows you to apply the latest insights on genetic therapy, intrauterine infections, brain protection and neuroimaging, and much more.

Being Good

Christian Virtues for Everyday Life

Wm. B. Eerdmans Publishing This volume offers a fresh, timely, practical look at eleven key Christian virtues: faith, open-mindedness, wisdom, zeal, hope, contentment, courage, love, compassion, forgiveness, and humility. Writing from a distinctively Christian perspective, the authors thoughtfully explore and explain these select virtues, seeking to nurture readers in lifelong character growth and to promote the centrality of the virtues to the Christian faith. Grouped under the headings Faith, Hope, and Love, the chapters each conclude with questions for further reflection. Contributors: Michael W. Austin Jason Baehr Rebecca Konyndyk DeYoung R. Douglas Geivett David A. Horner William C. Mattison III Paul K. Moser Andrew Pinsent Steve L. Porter James S. Spiegel Charles Taliaferro David R. Turner.

Designing Clinical Research

Lippincott Williams & Wilkins *Designing Clinical Research* sets the standard for providing a practical guide to planning, tabulating, formulating, and implementing clinical research, with an easy-to-read, uncomplicated presentation. This edition incorporates current research methodology—including molecular and genetic clinical research—and offers an updated syllabus for conducting a clinical research workshop. Emphasis is on common sense as the main ingredient of good science. The book explains how to choose well-focused research questions and details the steps through all the elements of study design, data collection, quality assurance, and basic grant-writing. All chapters have been thoroughly revised, updated, and made more user-friendly.

Work in the Spirit

Toward a Theology of Work

Wipf and Stock Publishers *Since the rise of modern industrial society, work has come to pervade and rule the lives of men and women. Although there have been many popular books and church documents on the Christian understanding of work, this is the first scholarly effort to articulate a developed Protestant theology of work. In *Work in the Spirit*, Miroslav Volf interprets work from a new perspective - in terms of the doctrine of the Holy Spirit. He exhaustively explores the nature of work in both capitalist and socialist societies and considers a variety of work, including industrial, agricultural, medical, political, and artistic work. Examining the importance of alienation in work in industrial and information societies (particularly in the relation of workers to management and technology), he analyzes various forms of such alienation, and elucidates the character of humane work. On the basis of the pneumatological theology of work that he develops, Volf rejects the traditional Protestant understanding of work as vocation, and takes the concept of charisma as the cornerstone for his theological reflection on work. He denies that one is called to do a particular work irrespective of one's inclinations, and asserts, instead, that it is our privilege to do the kind of work for which God's spirit has gifted us. All human work done in accordance with the will of God, Volf argues, is cooperation with God in the preservation and transformation of the world.*

Four Views on the Spectrum of Evangelicalism

Zondervan Academic *Understand the history, core values, and divisions as they've developed within the Evangelical Christian movement. *Four Views on the Spectrum of Evangelicalism* compares and contrasts four distinct positions on the current fundamentalist-evangelical spectrum. Each contributor offers their case for one of four primary views: Fundamentalism - defended by Kevin T. Bauder Conservative/confessional evangelicalism - defended by R. Albert Mohler Jr. Generic evangelicalism - defended by John G. Stackhouse Jr. Postconservative evangelicalism - defended by Roger E. Olson Each author explains and defends his position, which is critiqued by the other three authors. The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair-minded and respectful of the biblical text. Each volume is a one-stop reference that allows readers to evaluate the different positions on a specific issue and form their own, educated opinion.*

Transformers: The Junior Novel

Harper Collins *As they disguise themselves as ordinary electronic equipment while here on Earth, the peaceful Autobots from the planet Cybertron are locked in a battle for an energy source hidden on Earth with the Decepticons who are determined to assume control of the universe. Original.*

Business Model Generation

A Handbook for Visionaries, Game Changers, and Challengers

John Wiley & Sons *Business Model Generation is a handbook for visionaries, game changers, and challengers striving to defy outmoded business models and design tomorrow's enterprises. If your organization needs to adapt to harsh new realities, but you don't yet have a strategy that will get you out in front of your competitors, you need Business Model Generation. Co-created by 470 "Business Model Canvas" practitioners from 45 countries, the book features a beautiful, highly visual, 4-color design that takes powerful strategic ideas and tools, and makes them easy to implement in your organization. It explains the most common Business Model patterns, based on concepts from leading business thinkers, and helps you reinterpret them for your own context. You will learn how to systematically understand, design, and implement a game-changing business model--or analyze and renovate an old one. Along the way, you'll understand at a much deeper level your customers, distribution channels, partners, revenue streams, costs, and your core value proposition. Business Model Generation features practical innovation techniques used today by leading consultants and companies worldwide, including 3M, Ericsson, Capgemini, Deloitte, and others. Designed for doers, it is for those ready to abandon outmoded thinking and embrace new models of value creation: for executives, consultants, entrepreneurs, and leaders of all organizations. If you're ready to change the rules, you belong to "the business model generation!"*

A Biographical Encyclopedia of Contemporary Genocide: Portraits of Evil and Good

ABC-CLIO *This book documents the devastating effects of genocide in the world's most destructive human environments since the end of World War II and explores why such events still occur.*

McKee's Pathology of the Skin, 2 Volume Set E-Book

Elsevier Health Sciences *Comprehensive and lavishly illustrated, McKee's Pathology of the Skin, 5th Edition, is your reference of choice for up-to-date, authoritative information on dermatopathology. You'll find clinical guidance from internationally renowned experts along with details on etiology, pathogenesis, histopathology, and differential diagnosis – making this unique reference unparalleled in its wealth of clinical and histopathological material. The 5th Edition of this classic text is a must-have resource for practicing dermatopathologists and general pathologists who sign out skin biopsies. Covers pathological aspects of skin diseases in addition to providing superb descriptions and illustrations of their clinical manifestations – the only available reference with this unique combination of features. Integrates dermatopathology, clinical correlations, and clinical photographs throughout, and features bulleted lists of clinical features and differential diagnosis tables for easy reference. Contains more than 5,000 superb histopathologic and clinical illustrations that demonstrate the range of histologic manifestations. Brings you fully up to date with key molecular aspects of disease, the capabilities and limitations of molecular diagnostics, and targeted/personalized medicine. Features up-to-date information on biologics, drug eruptions, and other developments in therapeutics. Helps you stay current with the latest diagnostic tumor markers and other new developments in immunohistochemistry. Includes a completely revised chapter on cutaneous lymphoma that reflects recent WHO-EORTC classification changes, as well as new coverage of sentinel lymph node biopsy for melanoma. Shares the knowledge of the main editor Dr. J. Eduardo Calonje, along with co-editors Thomas Brenn, and Alexander Lazar, and new co-editor Steven D. Billings who offers expertise on both dermatopathology and soft tissue tumors.*

The Hunting Wind

Hachette UK *'The calendar said April, but April in Paradise is still cold enough to hurt you' - a terrific Alex McKnight novel from award-winning Steve Hamilton. Alex McKnight is sipping his beer in the Glasgow Inn when Randy Wilkins, a friend from his days in Detroit, turns up out of the blue. Finally he gets to the point. Randy's in love with a girl called Maria and wants to find her. The only problem being that he last saw her thirty years ago. It's a test of friendship to say the least and, at first, Alex can't think of anything worse. But loyalty gets the better of him and together Alex and Randy go back to Detroit where, as a police officer, Alex got shot. The bullet is still lodged in his chest. Their search for Maria leads them back to the past - a strange country which is unsavoury for Randy and painful for Alex as they hunt for Randy's lost love and Alex's lost life.*

If God, Why Evil?

A New Way to Think About the Question

Baker Books *Bestselling author and apologist takes on one of the most difficult questions Christians face. How can an omnipotent, loving God preside over a world filled with evil and suffering? The author's approach is concise, systematic, and clearly communicated, just what Geisler fans have grown to expect. In addition to relying on time-tested solutions to the problem of evil, the author also presents a compelling new way to think about this puzzle.*

Book Review Digest

Don't Call It a Comeback (Foreword by D. A. Carson)

The Old Faith for a New Day

Crossway Recent cultural interest in evangelicalism has led to considerable confusion about what the term actually means. Many young Christians are tempted to discard the label altogether. But evangelicalism is not merely a political movement in decline or a sociological phenomenon on the rise, as it has sometimes been portrayed. It is, in fact, a helpful theological profile that manifests itself in beliefs, ethics, and church life. DeYoung and other key twenty- and thirty-something evangelical Christian leaders present *Don't Call It a Comeback: The Same Evangelical Faith for a New Day* to assert the stability, relevance, and necessity of Christian orthodoxy today. This book introduces young, new, and under-disciplined Christians to the most essential and basic issues of faith in general and of evangelicalism in particular. Kevin DeYoung and contributors like Russell Moore, Darrin Patrick, Justin Taylor, Thabiti Anyabwile, and Tim Challies examine what evangelical Christianity is and does within the broad categories of history, theology, and practice. They demonstrate that evangelicalism is still biblically and historically rooted and remains the same framework for faith that we need today.

On Endings

American Postmodern Fiction and the Cold War

University of Virginia Press What does narrative look like when the possibility of an expansive future has been called into question? This query is the driving force behind Daniel Grausam's *On Endings*, which seeks to show how the core texts of American postmodernism are a response to the geopolitical dynamics of the Cold War and especially to the new potential for total nuclear conflict. Postwar American fiction needs to be rethought, he argues, by highlighting postmodern experimentation as a mode of profound historical consciousness. In Grausam's view, previous studies of fiction mimetically concerned with nuclear conflict neither engage the problems that total war might pose to narration nor take seriously the paradox of a war that narrative can never actually describe. Those few critical works that do take seriously such problems do not offer a broad account of American postmodernism. And recent work on postmodernism has offered no comprehensive historical account of the part played by nuclear weapons in the emergence of new forms of temporal and historical experience. *On Endings* significantly extends the project of historicizing postmodernism while returning the nuclear to a central place in the study of the Cold War.

D&B Reference Book of Corporate Managements

Encyclopedia of Right-Wing Extremism In Modern American History

ABC-CLIO • Chronological presentation of the specific groups and organizations provides historical insight into the development of right-wing extremism • Provides an up-to-date bibliography for further reading • Thorough cross-referencing of sources

Neocolonial Fictions of the Global Cold War

University of Iowa Press Bringing together noted scholars in the fields of literary, cultural, gender, and race studies, this edited volume challenges us to reconsider our understanding of the Cold War, revealing it to be a global phenomenon rather than just a binary conflict between U.S. and Soviet forces. Shining a spotlight on writers from the war's numerous fronts and applying lenses of race, gender, and decolonization, the essayists present several new angles from which to view the tense global showdown that lasted roughly a half-century. Ultimately, they reframe the Cold War not merely as a divide between the Soviet Union and the United States, but between nations rich and poor, and mostly white and mostly not. By emphasizing the global dimensions of the Cold War, this innovative collection reveals emergent forms of post-WWII empire that continue to shape our world today, thereby raising the question of whether the Cold War has ever fully ended.

Christianity and Western Thought Faith and Reason in the 19th Century

InterVarsity Press *V. 1. From the ancient world to the Age of Enlightenment / Colin Brown.*

Debates in the Digital Humanities

U of Minnesota Press *A series of essays by noted scholars explores the rising academic field of digital humanities, discussing its theories, methods and practices. Simultaneous. Hardcover available.*

Whitaker's Book List

False Dawn

Protest, Democracy, and Violence in the New Middle East

Oxford University Press *Half a decade after Arabs across the Middle East poured into the streets to demand change, hopes for democracy have disappeared in a maelstrom of violence and renewed state repression. Egypt remains an authoritarian state, Syria and Yemen are in the midst of devastating civil wars, Libya has descended into anarchy, and the self-declared Islamic State rules a large swath of territory. Even Turkey, which also experienced large-scale protests, has abandoned its earlier shift toward openness and democracy and now more closely resembles an autocracy. How did things go so wrong so quickly across a wide range of regimes? In False Dawn, noted Middle East regional expert Steven A. Cook looks at the trajectory of events across the region from the initial uprising in Tunisia to the failed coup in Turkey to explain why the Middle Eastern uprisings did not succeed. Despite appearances, there were no true revolutions in the Middle East five years ago: none of the affected societies underwent social revolutions, and the old structures of power were never eliminated. Even supposed successes like Tunisia still face significant barriers to democracy because of the continued strength of old regime players. Libya, the state that came closest to revolution, has fragmented into chaos, and Turkey's president, Recep Tayyip Erdogan, has used the recent coup against him as grounds for a widespread crackdown on his opponents, reinforcing the Turkish leader's personal power. After taking stock of how and why the uprisings failed to produce lasting change, Cook considers the role of the United States in the region. What Washington cannot do, Cook argues, is shape the politics of the Middle East going forward. While many in the policymaking community believe that the United States must "get the Middle East right," American influence is actually quite limited; the future of the region lies in the hands of the people who live there. Authoritative and powerfully argued, False Dawn promises to be a major work on one of the most important historical events of the past quarter century.*

Designing Clinical Research

Lippincott Williams & Wilkins *This third edition sets the standard for providing a practical guide to planning, tabulating, formulating, and implementing clinical research, with an easy-to-read, uncomplicated presentation. This edition incorporates current research methodology and offers an updated syllabus for conducting a clinical research workshop.*

Leadership Roles and Management Functions in Nursing

Theory and Application

Job 38-42

WBC Volume 18B

Thomas Nelson Complete the Old Testament series of the Word Biblical Commentary with Dr. David Clines' monumental study of Job. Volume 18B is devoted entirely to the response of the Lord from the tempest to Job, together with the replies of Job (Job 38-42), presenting the Lord's own explanation of his manifold purposes in creation and bringing to an unexpected conclusion Job's dramatic quest for justice. Difficult portions of the Hebrew text are thoroughly handled, but the commentary is written for the non-technical reader and scholar alike. Clines uncovers the driving force of the argument and the drama of the book. The Explanation sections at the end of each chapter brilliantly summarize the views of the speakers and offer thoughtful reflections on their theological value. The volume concludes with a unique 250-page bibliography of virtually everything that has been written about the Book of Job, including its influence on art, music and literature. Features include: Complete new translation and verse by verse commentary on the Book of Job, in constant dialogue with other commentators Extensive scholarly notes on the Hebrew text of the book and its many obscure terms Unparalleled bibliography gives sweeping coverage of all aspects of the Book of Job from scholarly books to art, literature, and music

Ghost Ship

Random House Books for Young Readers After their parents, the rulers of the Star Lands, are deposed and their kingdom flooded, Asa and Rollo hide out until they come into possession of a ghost ship and magic powers, which they use to find the baby sister they thought had died with their parents.

Ethics in Journalism

John Wiley & Sons The reputation of journalists is continually being questioned. Nearly every public opinion poll shows that people have lost respect for journalists and lost faith in the news media. In this fully updated and expanded 6th edition of *Ethics in Journalism*, author Ron F. Smith provides a highly readable introduction to journalism ethics, and offers solutions for the many ethical dilemmas facing journalists today. Utilizes dozens of new case studies, mostly taken from everyday experiences of reporters at both large and smaller newspapers and TV stations Explores the practical ethical issues involved in developing sources, coming to terms with objectivity, and bringing compassion to the pressures of journalism Considers the impact of blogs and the internet on traditional values of journalism Compares journalistic practices across different free societies

Exercise Physiology

Integrating Theory and Application

Lww Enhanced by new online video clips and animations, Kraemer's *Exercise Physiology*, combines research and theory with practical discussions of nutrition and training to help students understand how the human body works and responds to exercise. Through the authors' engaging, evidence-based, and practical approach, students not only gain a solid foundation in exercise physiology concepts, but also learn how those concepts can be used in everyday life to optimize athletic performance and wellness. Throughout the book, the authors demonstrate the vital health benefits of exercise and physical activity for individuals at all ages, including special populations. In addition, real-life sports examples, interesting cases, and Ask the Expert boxes that bring the voices of industry leaders to the text engage students and prepare them to address common challenges in exercise and athletic training. In addition to new videos and animations, the Second Edition includes a fresh new design and greatly enhanced teaching and learning resources to save you time and help your students succeed.

Introductory Statistics

Introductory Statistics is designed for the one-semester, introduction to statistics course and is geared toward students majoring in fields other than math or engineering. This text assumes students have been exposed to intermediate algebra, and it focuses on the applications of statistical knowledge rather than the theory behind it. The foundation of this textbook is Collaborative Statistics, by Barbara Illowsky and Susan Dean. Additional topics, examples, and ample opportunities for practice have been added to each chapter. The development choices for this textbook were made with the guidance of many faculty members who are deeply involved in teaching this course. These choices led to innovations in art, terminology, and practical applications, all with a goal of increasing relevance and accessibility for students. We strove to make the discipline meaningful, so that students can draw from it a working knowledge that will enrich their future studies and help them make sense of the world around them. Coverage and Scope Chapter 1 Sampling and Data Chapter 2 Descriptive Statistics Chapter 3 Probability Topics Chapter 4 Discrete Random Variables Chapter 5 Continuous Random Variables Chapter 6 The Normal Distribution Chapter 7 The Central Limit Theorem Chapter 8 Confidence Intervals Chapter 9 Hypothesis Testing with One Sample Chapter 10 Hypothesis Testing with Two Samples Chapter 11 The Chi-Square Distribution Chapter 12 Linear Regression and Correlation Chapter 13 F Distribution and One-Way ANOVA

Introduction to Multi-Armed Bandits

Multi-armed bandits is a rich, multi-disciplinary area that has been studied since 1933, with a surge of activity in the past 10-15 years. This is the first book to provide a textbook like treatment of the subject.
