NEW VOICES COURSEBOOK - 6

Vikas Publishing House 1. It is a series of English Coursebooks, Workbooks and Literature Readers for classes 1 to 8. 2. Wall of Fame : At the beginning of the book is a gallery of famous authors and characters that the child will meet inside. 3. The use of Graphic Organisers, Timelines and Graphic retelling of stories help develop critical thinking and study skills in learners—two vital tools for learning. 4. Based on the NCF, the series guides learners through the seven stages of a brain-based approach to learning i.e. Pre-exposure, Preparation, Initiation & Acquisition, Elaboration, Incubation & memory encoding, verification & Confidence check, celebration & Integration. 5. The 5Ps address the above stages as follows : Ponder: aids the learners in pre-acquisition of concepts by setting the context, while preparing them to read the text with the aid of the glossary and in-text questions. Prepare: immerses the learners into the context and initiates holistic learning. It helps in the acquisition of newer perspectives through task-based activities. Practise: lays out the canvas for the stage of elaboration, in which the learners analyse and evaluate the text while applying their understanding of it. Perfect: aids memory encoding through drilling of vocabulary and grammar topics. It helps with incubation of concepts. Perform: functions as a confidence check for learners and ensures verification of their performative skills. This stage of summing up allows a functional integration of acquired concepts, leading to a celebration of learning. 6. Cross-curricular (CC) links weave references from other subjects through the chapters. 7. Task-Based Learning (TBL) activities present learners with real-life situations within the classroom. 8. Life Skills (LS) are enhanced through challenging texts and value-based concept checking questions (CCQs). 9. Tense Timelines (5-8): On the last page of the book is a graphic representation of Tenses. 10. Full page Illustrations and Double-spreads in lower classes make learning fun and interesting.

THE LAST MUGHAL

THE FALL OF DELHI, 1857

A&C Black On a dark evening in November 1862, a cheap coffin is buried in eerie silence. There are no lamentations or panegyrics, for the British Commissioner in charge has insisted, 'No vesting will remain to distinguish where the last of the Great Mughals rests.' This Mughal is Bahadur Shah Zafar II, one of the most tolerant and likeable of his remarkable dynasty who found himself leader of a violent and doomed uprising. The Siege of Delhi was the Raj's Stalingrad, the end of both Mughal power and a remarkable culture.

THE HISTORY OF BRITISH INDIA

GUIDE THROUGH THE VISUDDHIMAGGA

Buddhist Publication Society Meditation is an essential part of the Buddhist way of life and Buddhist meditation practices cannot be explained apart from the fundamental doctrines of Buddhism. Buddhaghosa, the author of the Visuddhimagga (The Path of Purification), gave elaborate expositions of these fundamental doctrines. As such his work has served not only as a manual of meditation but also as the standard work on Theravada Buddhism as a whole. No other school of Buddhism has handed down to us a work of such importance. Therefore the Visuddhimagga occupies a unique position in the field of Buddhism in particular and the religious literature of the world in general. What is to the advantage of the scholar is sometimes to the disadvantage of the layman. While going through the elaborate explanations of a certain topic in the Visuddhimagga, one is liable to lose its thread and become confused. This book gives a clear outline of the system and its essential points so that the details can be understood without much difficulty.

BUSINESS STUDIES CLASS-12 POONAM GANDHI (SESSION 2021-22) EXAMINATION

VK Global Publications The book has been designed topic and subtopic-wise, keeping the students' needs in mind. The current edition has certain unique features: This book is strictly as per the latest CBSE syllabus and covers complete matter as per the NCERT book. After every topic, objective type questions and case studies are given based on the latest CBSE Sample Paper (2020). (Hints of their answers are given at the end of each chapter.) At the end of each chapter, 40 objective type questions (20 MCQs + 10 Fill in the blanks + 10 True/False) are given along with answers at the end. Keywords of each topic are given at the end of each topic, to help students to solve case studies. A flow chart of each chapter is given at the end to recap the topics covered in that chapter. Quick revision is given to revise all the topics in short time. At the end of each chapter, questions asked in last 7 years' board exam are given, so that the student may get an idea of what types of questions are expected from this chapter. (Hints of answers of these questions are also given). Case Studies are framed by using words strictly from the NCERT. A solved sample paper of CBSE 2020 is also given. Guidelines for project are also given. A sample project on Marketing Management is also given. The Subject Matter is presented in simple language, in points, and along with diagrams, so that the student may find it easy to understand.

SOLVING SYSTEMS OF POLYNOMIAL EQUATIONS

American Mathematical Soc. A classic problem in mathematics is solving systems of polynomial equations in several unknowns. Today, polynomial models are ubiquitous and widely used across the sciences. They arise in robotics, coding theory, optimization, mathematical biology, computer vision, game theory, statistics, and numerous other areas. This book furnishes a bridge across mathematical disciplines and exposes many facets of systems of polynomial equations. It covers a wide spectrum of mathematical techniques and algorithms, both symbolic and numerical. The set of solutions to a system of polynomial equations is an algebraic variety - the basic object of algebraic geometry. The algorithmic study of algebraic varieties is the central theme of computational algebraic geometry. Exciting recent developments in computer software for geometric calculations have revolutionized the field. Formerly inaccessible problems are now tractable, providing fertile ground for experimentation and conjecture. The first half of the book gives a snapshot of the state of the art of the topic. Familiar themes are covered in the first five chapters, including polynomials in one variable, Grobner bases of zero-dimensional ideals, Newton

polytopes and Bernstein's Theorem, multidimensional resultants, and primary decomposition. The second half of the book explores polynomial equations from a variety of novel and unexpected angles. It introduces interdisciplinary connections, discusses highlights of current research, and outlines possible future algorithms. Topics include computation of Nash equilibria in game theory, semidefinite programming and the real Nullstellensatz, the algebraic geometry of statistical models, the piecewise-linear geometry of valuations and amoebas, and the Ehrenpreis-Palamodov theorem on linear partial differential equations with constant coefficients. Throughout the text, there are many hands-on examples and exercises, including short but complete sessions in MapleR, MATLABR, Macaulay 2, Singular, PHCPack, CoCoA, and SOSTools software. These examples will be particularly useful for readers with no background in algebraic geometry or commutative algebra. Within minutes, readers can learn how to type in polynomial equations and actually see some meaningful results on their computer screens. Prerequisites include basic abstract and computational algebra. The book is designed as a text for a graduate course in computational algebra.

COGNITIVE ANALYTICS: CONCEPTS, METHODOLOGIES, TOOLS, AND APPLICATIONS

CONCEPTS, METHODOLOGIES, TOOLS, AND APPLICATIONS

IGI Global Due to the growing use of web applications and communication devices, the use of data has increased throughout various industries, including business and healthcare. It is necessary to develop specific software programs that can analyze and interpret large amounts of data quickly in order to ensure adequate usage and predictive results. *Cognitive Analytics: Concepts, Methodologies, Tools, and Applications* provides emerging perspectives on the theoretical and practical aspects of data analysis tools and techniques. It also examines the incorporation of pattern management as well as decision-making and prediction processes through the use of data management and analysis. Highlighting a range of topics such as natural language processing, big data, and pattern recognition, this multi-volume book is ideally designed for information technology professionals, software developers, data analysts, graduate-level students, researchers, computer engineers, software engineers, IT specialists, and academicians.

THEMES IN WORLD HISTORY

TEXTBOOK IN HISTORY FOR CLASS XI

THE TALE OF CUSTARD THE DRAGON

HISTORY, GEOGRAPHY AND CIVICS

TEACHING AND LEARNING IN THE PRIMARY YEARS

Cambridge University Press History, Geography and Civics provides an in-depth and engaging introduction to teaching and learning socio-environmental education from F-6 in Australia and New Zealand. It explores the centrality of socio-environmental issues to all aspects of life and education and makes explicit links between pedagogical theories and classroom activities. Part I introduces readers to teaching and learning history, geography and environmental studies, and civics and citizenship, as well as issues in intercultural and global education. Part II explores the use of media and sources, values and attitudes, assessment and creative teaching. Each chapter provides links to the Australian Curriculum, including cross-curriculum priorities: sustainability, Aboriginal and Torres Strait Islander education, and Asia and Australia's engagement with Asia. History, Geography and Civics encourages the reader to consider their own beliefs, values and attitudes in relation to their teaching and includes provocations and reflective questions to foster discussion and engagement.

FEMINISM AND THE POLITICS OF CHILDHOOD

FRIENDS OR FOES?

UCL Press *Feminism and the Politics of Childhood* offers an innovative and critical exploration of perceived commonalities and conflicts between women and children and, more broadly, between various forms of feminism and the politics of childhood. This unique collection of 18 chapters brings into dialogue authors from a range of geographical contexts, social science disciplines, activist organisations, and theoretical perspectives. The wide variety of subjects include refugee camps, care labour, domestic violence and childcare and education. Chapter authors focus on local contexts as well as their global interconnections, and draw on diverse theoretical traditions such as poststructuralism, psychoanalysis, posthumanism, postcolonialism, political economy, and the ethics of care. Together the contributions offer new ways to conceptualise relations between women and children, and to address injustices faced by both groups. Praise for *Feminism and the Politics of Childhood: Friends or Foes?* 'This book is genuinely ground-breaking.' – Val Gillies, University of Westminster 'Feminism and the Politics of Childhood: Friends or Foes? asks an impossible question, and then casts prismatic light on all corners of its impossibility.' – Cindi Katz, CUNY 'This provocative and stimulating publication comes not a day too soon.' – Gerison Lansdown, Child to Child 'A smart, innovative, and provocative book.' – Chandra Talpade Mohanty, Syracuse University 'This volume raises and addresses issues so pressing that it is surprising they are not already at the heart of scholarship.' – Ann Phoenix, UCL

ALTERNATIVE SOLVENTS FOR NATURAL PRODUCTS EXTRACTION

Springer This book presents a complete picture of the current state-of-the-art in alternative and green solvents used for laboratory and industrial natural product extraction in terms of the latest innovations, original methods and safe products. It provides the necessary theoretical background and details on extraction, techniques, mechanisms, protocols, industrial applications, safety precautions and environmental impacts. This book is aimed at professionals from industry, academicians engaged in extraction engineering or natural product chemistry research, and graduate level students. The individual chapters complement one another, were written by respected international researchers and recognized professionals from the industry, and address the latest efforts in the field. It is also the first sourcebook to focus on the rapid developments in this field.

INDIA IN THE CONTEMPORARY WORLD

POLITY, ECONOMY AND INTERNATIONAL RELATIONS

Routledge This book brings together Indian and European perspectives on India's polity, economy and international strategy. It explores internal, regional and global determinants shaping India's status, position and goals in the early 21st century. Through an array of methodological and theoretical approaches, it presents debates on democracy, economic development, foreign and security policy, and the course of India-European Union relations. The volume will prove invaluable to scholars and students of international relations, politics, economics, history, and development studies, as well as policy makers and economists.

OBESITY AND OBSTETRICS

Elsevier **Obesity and Obstetrics, Second Edition**, brings together experts to examine the issues and challenges of obesity and obstetrics, also discussing how obesity affects fertility, reproduction and pregnancy. Beginning with the worldwide epidemic of obesity, chapters then go on to review obesity and hyperglycemia of pregnancy, management of labor, interventions to improve care during pregnancy, and long-term impact of maternal obesity. Provides an essential reference on the significant risk of complications during pregnancy, including early pregnancy loss, recurrent miscarriage and fetal developmental abnormalities Builds foundational knowledge on how maternal obesity predisposes offspring to obesity, highlighting that the prevention of childhood obesity begins during pregnancy Assembles critically evaluated chapters focused on obesity and obstetrics to meet the practical needs of obstetricians, endocrinologists and general practitioners

WORLD DEVELOPMENT REPORT 2020

TRADING FOR DEVELOPMENT IN THE AGE OF GLOBAL VALUE CHAINS

World Bank Publications Global value chains (GVCs) powered the surge of international trade after 1990 and now account for almost half of all trade. This shift enabled an unprecedented economic convergence: poor countries grew rapidly and began to catch up with richer countries. Since the 2008 global financial crisis, however, the growth of trade has been sluggish and the expansion of GVCs has stalled. Meanwhile, serious threats have emerged to the model of trade-led growth. New technologies could draw production closer to the consumer and reduce the demand for labor. And trade conflicts among large countries could lead to a retrenchment or a segmentation of GVCs. **World Development Report 2020: Trading for Development in the Age of Global Value Chains** examines whether there is still a path to development through GVCs and trade. It concludes that technological change is, at this stage, more a boon than a curse. GVCs can continue to boost growth, create better jobs, and reduce poverty provided that developing countries implement deeper reforms to promote GVC participation; industrial countries pursue open, predictable policies; and all countries revive multilateral cooperation.

VOICE AND AGENCY

EMPOWERING WOMEN AND GIRLS FOR SHARED PROSPERITY

World Bank Publications Despite recent advances in important aspects of the lives of girls and women, pervasive challenges remain. These challenges reflect widespread deprivations and constraints and include epidemic levels of gender-based violence and discriminatory laws and norms that prevent women from owning property, being educated, and making meaningful decisions about their own lives--such as whether and when to marry or have children. These often violate their most basic rights and are magnified and multiplied by poverty and lack of education. This groundbreaking book distills vast data and hundreds of studies to shed new light on deprivations and constraints facing the voice and agency of women and girls worldwide, and on the associated costs for individuals, families, communities, and global development. The volume presents major new findings about the patterns of constraints and overlapping deprivations and focuses on several areas key to women's empowerment: freedom from violence, sexual and reproductive health and rights, ownership of land and housing, and voice and collective action. It highlights promising reforms and interventions from around the world and lays out an urgent agenda for governments, civil society, development agencies, and other stakeholders, including a call for greater investment in data and knowledge to benchmark progress.

THE NEUROSCIENCE OF TRAUMATIC BRAIN INJURY

Academic Press **Diagnosis and Treatment of Traumatic Brain Injury** will improve readers' understanding of the complexities of diagnosis and management of traumatic brain injuries. Featuring chapters on drug delivery, different treatments, and rehabilitation, this volume discusses in detail the impact early diagnosis and effective management has on the long-term prognosis of these injuries and the lives of those affected. This book will be relevant for neuroscientists, neurologists, clinicians, and anyone working to better understand these injuries. Traumatic brain injury has complex etiology and may arise as a consequence of physical abuse, violence, war, vehicle collisions, working in the construction industry, and sports. Cellular, Molecular, Physiological, and Behavioral Aspects of Traumatic Brain Injury will improve readers' understanding of the detailed processes arising from traumatic brain injury. Featuring chapters on neuroinflammation, metabolism, and psychology, this volume discusses the impact of these injuries on neurological and body systems to better understand underlying pathways. This book will be relevant for neuroscientists, neurologists, clinicians, and anyone working to better understand traumatic brain injury. **Diagnosis and Treatment of Traumatic Brain Injury: Covers both the diagnosis and treatment of traumatic brain cord injury** Contains chapter abstracts, key facts, dictionary, and summary points to aid in understanding **Features chapters on epidemiology and pain** Includes MRI usage, biomarkers, and stem cell and gene therapy for management of spinal cord injury **Discusses pain reduction, drug delivery, and rehabilitation** Cellular, Molecular, Physiological, and Behavioral Aspects of Traumatic Brain Injury: Summarizes the neuroscience of traumatic brain injury, including cellular and molecular biology Contains chapter abstracts, key facts, dictionary, and summary points to aid in understanding **Features chapters on signaling and hormonal events** Includes plasticity and gene expression **Examines health and stress behaviors after traumatic brain injury**

ŠAKOONTALÁ

OR, THE LOST RING; AN INDIAN DRAMA

WHO WERE THE SHUDRAS

The general proposition that the social organization of the Indo-Aryans was based on the theory of Chaturvarnya and that Chaturvarnya means division of society into four classes- Brahmins (priests), Kshatriyas (soldiers), Vaishyas (traders) and Shudras (menials) does not convey any idea of the real nature of the problem of the Shudras nor of its magnitude. Chaturvarnya would have been a very innocent principle if it meant no more than mere division of society into four classes. Unfortunately, more than this is involved in the theory of Chaturvarnya. Besides dividing society into four orders, the theory goes further and makes the principle of graded inequality. Under the system of Chaturvarnya, the Shudra is not only placed at the bottom of the gradation but he is subjected to innumerable ignominies and disabilities so as to prevent him from rising above the condition fixed for him by law. Indeed until the fifth Varna of the Untouchables came into being, the Shudras were in the eyes of the Hindus the lowest of the low. This shows the nature of what might be called the problem of the Shudras. If people have no idea of the magnitude of the problem it is because they have not cared to know what the population of the Shudras is.
