### THE BOUNDARIES OF EUROPE

#### FROM THE FALL OF THE ANCIENT WORLD TO THE AGE OF DECOLONISATION

**Walter de Gruyter GmbH & Co KG** *Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The Boundaries of Europe, edited by Pietro Rossi, is the first installment in the ALLEA book series Discourses on Intellectual Europe, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.*

### MEN AND BEARS

#### MORPHOLOGY OF THE WILD

**Accademia University Press** *The time of Carnival represents a "wild" time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.*

### FAULT LINES

**Open Road + Grove/Atlantic** *A brilliantly written family epic that won France's Prix Femina and was shortlisted for the Orange Prize. "An immaculate novel" (The Guardian). In a profound and poetic story, internationally acclaimed and bestselling author Nancy Huston traces four generations of a single family from present-day California to WWII-era Germany. Fault Lines begins with Sol, a gifted, terrifying child whose mother believes he is destined for greatness partly because he has a birthmark like his dad, his grandmother, and his great-grandmother. When Sol's family makes an unexpected trip to Germany, secrets begin to emerge about their history during World War II. It seems birthmarks are not all that's been passed down through the bloodlines. Closely observed, lyrically told, and epic in scope, Fault Lines is a touching, fearless, and unusual novel about four generations of children and their parents. The story moves from the West Coast of the United States to the East, from Haifa to Toronto to Munich, as secrets unwind back through time until a devastating truth about the family's origins is reached. Huston tells a riveting, vigorous tale in which love, music, and faith rage against the shape of evil. "Huston's powerful novel combines the pacing of a thriller with the emotional intricacies that are the hallmark of the best family stories." —Booklist, starred review*

### THREE HUNDRED YEARS HENCE

---

It is seldom that men begin to muse and sit alone in the twilight until they arrive at the age of fifty, for until that period the cares of the world and the education of their young children engross all their thoughts. Edgar Hastings, our hero, at thirty years of age, was still unmarried, but he had gone through a vast deal of excitement, and the age of musing had been anticipated by twenty years. He was left an orphan at fourteen, with a large income, and the gentleman who had the management of his estates proved faithful, so that when a person of talents and character was wanted to travel with the young man, a liberal recompense was at hand to secure his services. From the age of fourteen to twenty-one he was therefore travelling over Europe; but his education, instead of receiving a check, went on much more advantageously than if he had remained at home, and he became master of all the modern languages in the very countries where they were spoken. The last twelve months of his seven years' tour was spent in England, being stationary in London only during the sitting of Parliament. His talents thus cultivated, and his mind enlarged by liberal travel, he returned to America well worthy the friendship and attention of those who admire and appreciate a character of his stamp. He had not therefore been back more than a year, before his society was courted by some of the best men in the country; but previous to his settling himself into a home, he thought it but proper to travel through his own country also. His old friend, still at his elbow, accompanied him; but at the close of the excursion, which lasted nearly two years, he was taken ill of a fever caught from an exposure near the Lakes, and died after a few days' illness. Edgar Hastings was now entirely alone in the world, and he would have fallen into a deep melancholy, had he not engaged in politics. This occupied him incessantly; and, as his purse was ample and his heart liberally disposed, he found the demands on his time gradually increasing. He had occupations heaped upon him - for rich, disengaged, and willing, everybody demanded his aid; and such were the enthusiasm and generosity of his nature, that no one applied in vain. His first intention, on returning from his tour through his own country, was to improve an estate he had purchased in Pennsylvania, promising himself an amiable and beautiful wife to share his happiness; but politics interfered, and left him no time even for the luxury of musing in the evening. But a man can get weary of politics as well as of any other hard up-hill work; so, at the end of seven years, seeing that the young trees which he had planted were giving shade, and that the house that they were to overshadow was not yet begun, he fell to musing. He wanted something, likewise, to love and protect - so he fell to musing about that. He wished to convert a brisk stream, that fell down the side of a hill opposite to the south end of his grounds, into a waterfall - so he fell to musing about that. He wanted to make an opening through a noble piece of woods that bounded the north side, that he might catch a view of the village steeple - so he fell to musing about that. A beautiful winding river lay in front of his estate, the bank of which sloped down to the water's edge; this tranquillizing scene likewise operated on his feelings, so that politics faded away, and his mind became calm and serene. Thus it was, that at thirty years of age he had these fits of abstraction, and he became a muser.

## NETWORKED

---

### THE NEW SOCIAL OPERATING SYSTEM

---

**MIT Press** How social networks, the personalized Internet, and always-on mobile connectivity are transforming—and expanding—social life. Daily life is connected life, its rhythms driven by endless email pings and responses, the chimes and beeps of continually arriving text messages, tweets and retweets, Facebook updates, pictures and videos to post and discuss. Our perpetual connectedness gives us endless opportunities to be part of the give-and-take of networking. Some worry that this new environment makes us isolated and lonely. But in *Networked*, Lee Rainie and Barry Wellman show how the large, loosely knit social circles of networked individuals expand opportunities for learning, problem solving, decision making, and personal interaction. The new social operating system of "networked individualism" liberates us from the restrictions of tightly knit groups; it also requires us to develop networking skills and strategies, work on maintaining ties, and balance multiple overlapping networks. Rainie and Wellman outline the "triple revolution" that has brought on this transformation: the rise of social networking, the capacity of the Internet to empower individuals, and the always-on connectivity of mobile devices. Drawing on extensive evidence, they examine how the move to networked individualism has expanded personal relationships beyond households and neighborhoods; transformed work into less hierarchical, more team-driven enterprises; encouraged individuals to create and share content; and changed the way people obtain information. Rainie and Wellman guide us through the challenges and opportunities of living in the evolving world of networked individuals.

## VISUALISING FACEBOOK

---

---

## A COMPARATIVE PERSPECTIVE

---

**UCL Press** Since the growth of social media, human communication has become much more visual. This book presents a scholarly analysis of the images people post on a regular basis to Facebook. By including hundreds of examples, readers can see for themselves the differences between postings from a village north of London, and those from a small town in Trinidad. Why do women respond so differently to becoming a mother in England from the way they do in Trinidad? How are values such as carnival and suburbia expressed visually? Based on an examination of over 20,000 images, the authors argue that phenomena such as selfies and memes must be analysed in their local context. The book aims to highlight the importance of visual images today in patrolling and controlling the moral values of populations, and explores the changing role of photography from that of recording and representation, to that of communication, where an image not only documents an experience but also enhances it, making the moment itself more exciting.

## MEDIEVAL CALLINGS

---

**University of Chicago Press** These essays by eleven internationally renowned historians present nuanced profiles of the major social and professional groups—the callings-of the Middle Ages. The contributors focus on attitudes of medieval men and women toward their own society. Through a variety of techniques, from a reading of the Song of Roland to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes, this innovative approach offers a valuable new perspective on the complex social dynamics of feudal Europe. "Very useful discussions of texts, both learned and literary."—Christopher Dyer, *Times Literary Supplement* Contributors: Mariateresa Fumagalli Beonio Brocchieri, Franco Cardini, Enrico Castelnuovo, Giovanni Cherubini, Bronislaw Geremek, Aron Ja. Gurevich, Christiane Klapisich-Zuber, Jacques Le Goff, Giovanni Miccoli, Jacques Rossiaud, and André Vauchez.

## PLURALISM AND PROGRESSIVES

---

---

### HULL HOUSE AND THE NEW IMMIGRANTS, 1890-1919

---

**University of Chicago Press** The settlement house movement, launched at the end of the nineteenth century by men and women of the upper middle class, began as an attempt to understand and improve the social conditions of the working class. It gradually came to focus on the "new immigrants"—mainly Italians, Slavs, Greeks, and Jews—who figured so prominently in this changing working class. Hull House, one of the first and best-known settlement houses in the United States, was founded in September 1889 on Chicago's West Side by Jane Addams and Ellen G. Starr. In a major new study of this famous institution and its place in the movement, Rivka Shpak Lissak reassesses the impact of Hull House on the nationwide debate over the place of immigrants in American society.

## DIGITAL ANTHROPOLOGY

---

**Taylor & Francis** Anthropology has two main tasks: to understand what it is to be human and to examine how humanity is manifested differently in the diversity of culture. These tasks have gained new impetus from the extraordinary rise of the digital. This book brings together several key anthropologists working with digital culture to demonstrate just how productive an anthropological approach to the digital has already become. Through a range of case studies from Facebook to Second Life to Google Earth, Digital Anthropology explores how human and digital can be defined in relation to one another, from avatars and disability; cultural differences in how we use social networking sites or practise religion; the practical consequences of the digital for politics, museums, design, space and development to new online world and gaming communities. The book also explores the moral universe of the digital, from new anxieties to open-source ideals. Digital Anthropology reveals how only the intense scrutiny of ethnography can overturn assumptions about the impact of digital culture and reveal its profound consequences for everyday life. Combining the clarity of a textbook with an engaging style which conveys a passion for these new frontiers of enquiry, this book is essential reading for students and scholars of anthropology, media studies, communication studies, cultural studies and sociology.

### BLACKS AND WHITE IMMIGRANTS SINCE 1880

---

**Univ of California Press** There is little question that the descendants of the new European immigrant groups from Southern, Central, and Eastern Europe have done very well in the United States, reaching levels of achievement far above blacks. Yet the new Europeans began to migrate to the United States in 1880, a time when blacks were no longer slaves. Why have the new immigrants fared better than the blacks? This volume focuses on the historical origins of the current differences between the groups. Professor Lieberson scoured early U. S. censuses and used a variety of offbeat information sources to develop data that would throw light on this question, as well as provide new information on occupations at the turn of the century, finding remarkable parallels between the black position in the urban South and the urban North. He examines and compares progress in education and in politics between the new Europeans and the blacks. What were the effects of segregation? Why did labor unions discriminate more severely against blacks than against the new immigrant groups? This book will generate a fresh interpretation of the origins of black-new European differences, one which explains why other nonwhite groups, such as the Chinese and Japanese, have done relatively well.

## THE PHILADELPHIA NEGRO

---

---

### A SOCIAL STUDY

---

**University of Pennsylvania Press** In 1897 the promising young sociologist William Edward Burghardt Du Bois (1868-1963) was given a temporary post as Assistant in Sociology at the University of Pennsylvania in order to conduct a systematic investigation of social conditions in the seventh ward of Philadelphia. The product of those studies was the first great empirical book on the Negro in American society. More than one hundred years after its original publication by the University of Pennsylvania Press, *The Philadelphia Negro* remains a classic work. It is the first, and perhaps still the finest, example of engaged sociological scholarship—the kind of work that, in contemplating social reality, helps to change it. In his introduction, Elijah Anderson examines how the neighborhood studied by Du Bois has changed over the years and compares the status of blacks today with their status when the book was initially published.

### ESSAYS ON THE SOCIAL SITUATION OF MENTAL PATIENTS AND OTHER INMATES

---

**Routledge** A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue—the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

## AN INTRODUCTION TO THE ART OF INVENTING STORIES

---

**Enchanted Lion Books** A collection of essays from the visionary storyteller Gianni Rodari about fairy tales and folk tales and their great advantages in teaching creative storytelling. "Rodari grasped children's need to play with life's rules by using the grammar of their own imaginations. They must be encouraged to question, challenge, destroy, mock, eliminate, generate, and reproduce their own language and meanings through stories that will enable them to narrate their own lives." --Jack Zipes "I hope this small book," writes renowned children's author Gianni Rodari, "can be useful for all those people who believe it is necessary for the imagination to have a place in education; for all those who trust in the creativity of children; and for all those who know the liberating value of the word." Full of ideas, glosses on fairytales, stories, and wide-ranging activities, including the fantastic binomial, this book changed how creative arts were taught in Italian schools. Translated into English by acclaimed children's historian Jack Zipes and illustrated for the first time ever by Matthew Forsythe, this edition of *The Grammar of Fantasy* is one to live with and return to for its humor, intelligence, and truly deep understanding of children. A groundbreaking pedagogical work that is also a handbook for writers of all ages and kinds, *The Grammar of Fantasy* gives each of us a playful, practical path to finding our own voice through the power of storytelling. Gianni Rodari (1920-1980) grew up in Northern Italy and wrote hundreds of stories, poems, and songs for children. In 1960, he collaborated with the Education Cooperation Movement to develop exercises to encourage children's creative and critical thinking abilities. Jack Zipes is a renowned children's historian and folklorist who has written, translated, and edited dozens of books on fairytales. He is a professor at the University of Minnesota. Matthew Forsythe lives in Montreal where he draws and paints for picture books, comics, and animations.

## WRITINGS ON DISOBEDIENCE AND DEMOCRACY

---

**Seven Stories Press** No other radical historian has reached so many hearts and minds as Howard Zinn. It is rare that a historian of the Left has managed to retain as much credibility while refusing to let his academic mantle change his beautiful writing style from being anything but direct, forthright, and accessible. Whether his subject is war, race, politics, economic justice, or history itself, each of his works serves as a reminder that to embrace one's subjectivity can mean embracing one's humanity, that heart and mind can speak with one voice. Here, in six sections, is the historian's own choice of his shorter essays on some of the most critical problems facing America throughout its history, and today.

**Trieste Publishing** Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.
