It Takes a Village

Simon and Schuster Senator Clinton shares her observations on the needs of children and families in the fragmented and fast-paced modern world, and explores diverse ways in which to improve family and community life.

What Happened

Simon and Schuster "An engaging, beautifully synthesized page-turner" (Slate). The #1 New York Times bestseller and Time #1 Nonfiction Book of the Year: Hillary Rodham Clinton's most personal memoir yet, about the 2016 presidential election. In this "candid and blackly funny" (The New York Times) memoir, Hillary Rodham Clinton reveals what she was thinking and feeling during one of the most controversial and unpredictable presidential elections in history. She takes us inside the intense personal experience of becoming the first woman nominated for president by a major party in an election marked by rage, sexism, exhilarating highs and infuriating lows, stranger-than-fiction twists, Russian interference, and an opponent who broke all the rules. "At her most emotionally raw" (People), Hillary describes what it was like to run against Donald Trump, the mistakes she made, how she has coped with a shocking and devastating loss, and how she found the strength to pick herself back up afterward. She tells readers what it took to get back on her feet—the rituals, relationships, and reading that got her through, and what the experience has taught her about life. In this "feminist manifesto" (The New York Times), she speaks to the challenges of being a strong woman in the public eye, the criticism over her voice, age, and appearance, and the double standard confronting women in politics. Offering a "bracing... guide to our political arena" (The Washington Post), What Happened lays out how the 2016 election was marked by an unprecedented assault on our democracy by a foreign adversary. By analyzing the evidence and connecting the dots, Hillary shows just how dangerous the forces are that shaped the outcome, and why Americans need to understand them to protect our values and our democracy in the future. The election of 2016 was unprecedented and historic. What Happened is the story of that campaign, now with a new epilogue showing how Hillary grappled with many of her worst fears coming true in the Trump Era, while finding new hope in a surge of civic activism, women running for office, and young people marching in the streets.

Living History

Hachette UK This ebook edition contains the full text version as per the book. Doesn't include original photographic and illustrated material. One of the most intelligent and influential women in America reflects on her eight years as First Lady of the United States in a revealing book - personal, political and newsmaking. During her husband's two administrations, Hillary Rodham Clinton redefined the position of First Lady. How this intensely private woman not only survived but prevailed is the dramatic tale of her book. Hillary Clinton shares the untold story of her White House years and recalls the challenging process by which she came to define herself as a wife, a mother, and a formidable politician in her own right. Mrs Clinton was the first First Lady who played a direct role in shaping domestic policy; she was an unofficial ambassador for human rights and democracy around the world; and she helped save the Presidency during the impeachment crisis.

Hard Choices

Simon and Schuster Hillary Rodham Clinton's inside account of the crises, choices, and challenges she faced during her four years as America's 67th Secretary of State, and how those experiences drive her view of the future. "All of us face hard choices in our lives," Hillary Rodham Clinton writes at the start of this personal chronicle of years at the center of world events. "Life is about making such choices. Our choices and how we handle them shape the people we become." In the aftermath of her 2008 presidential run, she expected to return to representing New York in the United States Senate. To her surprise, her former rival for the Democratic Party nomination, newly elected President Barack Obama, asked her to serve in his administration as Secretary of State. This memoir is the story of the four extraordinary and historic years that followed, and the hard choices that she and her colleagues confronted. Secretary Clinton and President Obama had to decide how to repair fractured alliances, wind down two wars, and address a global financial crisis. They faced a rising competitor in China, growing threats from Iran and North Korea, and revolutions across the Middle East. Along the way, they grappled with some of the toughest dilemmas of US foreign policy, especially the decision to send Americans into harm's way, from Afghanistan to Libya to the hunt for Osama bin Laden. By the end of her tenure, Secretary Clinton

had visited 112 countries, traveled nearly one million miles, and gained a truly global perspective on many of the major trends reshaping the landscape of the twenty-first century, from economic inequality to climate change to revolutions in energy, communications, and health. Drawing on conversations with numerous leaders and experts, Secretary Clinton offers her views on what it will take for the United States to compete and thrive in an interdependent world. She makes a passionate case for human rights and the full participation in society of women, youth, and LGBT people. An astute eyewitness to decades of social change, she distinguishes the trendlines from the headlines and describes the progress occurring throughout the world, day after day. Secretary Clinton's descriptions of diplomatic conversations at the highest levels offer readers a master class in international relations, as does her analysis of how we can best use "smart power" to deliver security and prosperity in a rapidly changing world—one in which America remains the indispensable nation.

It Takes a Village

And Other Lessons Children Teach Us

In celebration of the tenth anniversary of "It Takes a Village," this splendid edition includes photographs and a new Introduction by Senator Hillary Rodham Clinton. A decade ago, then First Lady Hillary Rodham Clinton chronicled her quest -- both deeply personal and, in the truest sense, public -- to help make our society into the kind of village that enables children to become smart, able, resilient adults. "It Takes a Village" is "a textbook for caring.... Filled with truths that are worth a read, and a reread" ("The Dallas Morning News). For more than thirty-five years, Senator Clinton has made children her passion and her cause. Her long experience -- not only through her roles as mother, daughter, sister, and wife but also as advocate, legal expert, and public servant -- has strengthened her conviction that how children develop and what they need to succeed are inextricably entwined with the society in which they live and how well it sustains and supports its families and individuals. In other words, it takes a village to raise a child. In her new Introduction, Senator Clinton reflects on how our village has changed over the last decade -- from the impact of the Internet to new research in early child development and education. She discusses issues of increasing concern -- security, the environment, the national debt -- and looks at where we have made progress and where there is still work to be done. "It Takes a Village" has become a classic. As relevant as ever, this anniversary edition makes it abundantly clear that the choices we make today about how we raise our children and how we support families will determine how our nation will face the challenges of this century.

The Book of Gutsy Women

Favorite Stories of Courage and Resilience

Simon & Schuster Soon to be an eight-part docuseries on Apple TV+ Hillary Rodham Clinton and her daughter, Chelsea, share the stories of the gutsy women who have inspired them—women with the courage to stand up to the status quo, ask hard questions, and get the job done. She couldn't have been more than seven or eight years old. "Go ahead, ask your question," her father urged, nudging her forward. She smiled shyly and said, "You're my hero. Who's yours?" Many people—especially girls—have asked us that same question over the years. It's one of our favorite topics. HILLARY: Growing up, I knew hardly any women who worked outside the home. So I looked to my mother, my teachers, and the pages of Life magazine for inspiration. After learning that Amelia Earhart kept a scrapbook with newspaper articles about successful women in male-dominated jobs, I started a scrapbook of my own. Long after I stopped clipping articles, I continued to seek out stories of women who seemed to be redefining what was possible. CHELSEA: This book is the continuation of a conversation the two of us have been having since I was little. For me, too, my mom was a hero; so were my grandmothers. My early teachers were also women. But I grew up in a world very different from theirs. My pediatrician was a woman, and so was the first mayor of Little Rock who I remember from my childhood. Most of my close friends' moms worked outside the home as nurses, doctors, teachers, professors, and in business. And women were going into space and breaking records here on Earth. Ensuring the rights and opportunities of women and girls remains a big piece of the unfinished business of the twenty-first century. While there's a lot of work to do, we know that throughout history and around the globe women have overcome the toughest resistance imaginable to win victories that have made progress possible for all of us. That is the achievement of each of the women in this book. So how did they do it? The answers are as unique as the women themselves. Civil rights activist Dorothy Height, LGBTQ trailblazer Edie Windsor, and swimmer Diana Nyad kept pushing forward, no matter what. Writers like Rachel Carson and Chimamanda Ngozi Adichie named something no one had dared talk about before. Historian Mary Beard used wit to open doors that were once closed, and Wangari Maathai, who sparked a movement to plant trees, understood the power of role modeling. Harriet Tubman and Malala Yousafzai looked fear in the face and persevered. Nearly every single one of these women was fiercely optimistic—they had faith that their actions could make a difference. And they were right. To us, they are all gutsy women—leaders with the courage to stand up to the status quo, ask hard questions, and get the job done. So in the moments when the long haul seems awfully long, we hope you will draw strength from these stories. We do. Because if history shows one thing, it's that the world needs gutsy women.

A Woman In Charge

The Life of Hillary Rodham Clinton

Random House *A Woman in Charge* reveals the true trajectory of Hillary's astonishing life and career. From a staunchly Republican household and apparently idyllic Midwestern girlhood - her disciplinarian father here revealed as harsher than she has acknowledged - we see the shaping of a brilliant girl whose curiosity was fuelled by the ferment of the 1960s and a desire to change the world. During her student years, she was already perceived as a spokeswoman for her generation. Then, at Yale Law School, she met and fell in love with Bill Clinton, cancelling her own dreams to tie her fortunes to his. Bernstein clarifies the often amazing dynamic of their marriage, charting both her political acumen and her blind spots, and untangling her relationship to the great controversies of Whitewater, Troopergate and Travelgate. And then, in the emotional and political chaos of the Lewinsky affair we see Hillary standing by her husband - evoking a rising wave of sympathy from a public previously cool to her and in effect, Bernstein argues, saving his presidency. It helps carry her into the Senate: her time has come. As she decides to run for President, this self-described 'mind-conservative and heart liberal' has one more chance to fulfill her long-deferred ambitions. Bernstein has interviewed some 200 of her colleagues, friends and enemies and was given unique access to the candid record of the 1992 presidential campaign kept by Hillary's best friend, Diane Blair. Marshalling all the skills and energy that propelled his history-making Pulitzer prize-winning coverage of Watergate, he gives us a detailed, sophisticated, comprehensive and revealing account of the complex human being and political meteor who has already helped define one presidency and may well become the woman in charge of another.

Run for Something

A Real-Talk Guide to Fixing the System Yourself

Simon and Schuster From the email marketing director of Hillary Clinton's presidential campaign and the co-founder of Run for Something comes an essential and inspiring guide that encourages and educates young progressives to run for local office, complete with contributions from elected officials and political operatives. You've been depressed since the night of November 8, 2016. You wore black to work the next morning. You berated yourself for your complacency during the Obama years. You ranted on Twitter. You deleted Twitter. You sent emails to your friends saying, "How can we get more involved?" You listened to Pod Save America. You knitted a pussyhat. You showed up to the Women's March on Washington. You protested Donald Trump's executive orders. You called your congressman. You called other people's congressmen. You set up monthly donations to Planned Parenthood and the ACLU. You reactivated Twitter (begrudgingly). Here's what you do next: Run for something. To be specific: Run for local office and become the change you want to see in the world. Forget about Congress. Forget about the Senate. Focus on the offices that get the real sh*t done: state legislatures, city councils, school boards, and mayors. It doesn't matter if you're not a white man over sixty with an Ivy League law degree. (In fact, it's better if you're not!) It doesn't matter if you don't understand the first thing about running for office, or never even imagined you would. That's what this book is for. Amanda Litman, experienced in hard-fought state and national election campaigns, is here to give you guidance as well as wisdom and insight from elected officials and political operatives she interviewed for this book. There are half a million elected officials in the United States. Why can't you be one of them?

My Life

Random House President Bill Clinton's "My Life is the strikingly candid portrait of a global leader who decided early in life to devote his intellectual and political gifts, and his extraordinary capacity for hard work, to serving the public. It shows us the progress of a remarkable American, who, through his own enormous energies and efforts, made the unlikely journey from Hope, Arkansas, to the White House--a journey fueled by an impassioned interest in the political process which manifested itself at every stage of his life: in college, working as an intern for Senator William Fulbright; at Oxford, becoming part of the Vietnam War protest movement; at Yale Law School, campaigning on the grassroots level for Democratic candidates; back in Arkansas, running for Congress, attorney general, and governor. We see his career shaped by his resolute determination to improve the life of his fellow citizens, an unfaltering commitment to civil rights, and an exceptional understanding of the practicalities of political life. We come to understand the emotional pressures of his youth--born after his father's death; caught in the dysfunctional relationship between his feisty, nurturing mother and his abusive stepfather, whom he never ceased to love and whose name he took; drawn to the brilliant, compelling Hillary Rodham, whom he was determined to marry; passionately devoted, from her infancy, to their daughter, Chelsea, and to the entire experience of fatherhood; slowly and painfully beginning to comprehend how his early denial of pain led him at times into damaging patterns of behavior. President Clinton's book is also the fullest, most concretely detailed, most nuanced account of a presidency ever written--encompassing not only the high points and crises but the way the presidency actually works: the day-to-day bombardment of

problems, personalities, conflicts, setbacks, achievements. It is a testament to the positive impact on America and on the world of his work and his ideals. It is the gripping account of a president under concerted and unrelenting assault orchestrated by his enemies on the Far Right, and how he survived and prevailed. It is a treasury of moments caught alive, among them: - The ten-year-old boy watching the national political conventions on his family's new (and first) television set. - The young candidate looking for votes in the Arkansas hills and the local seer who tells him, "Anybody who would campaign at a beer joint in Joiner at midnight on Saturday night deserves to carry one box. . . . You'll win here. But it'll be the only damn place you win in this county." (He was right on both counts.) - The roller-coaster ride of the 1992 campaign. - The extraordinarily frank exchanges with Newt Gingrich and Bob Dole. - The delicate manipulation needed to convince Rabin and Arafat to shake hands for the camera while keeping Arafat from kissing Rabin. - The cost, both public and private, of the scandal that threatened the presidency. Here is the life of a great national and international figure, revealed with all his talents and contradictions, told openly, directly, in his own completely recognizable voice. A unique book by a unique American. "From the Hardcover edition.

False Choices

The Faux Feminism of Hillary Rodham Clinton

Verso Books Hillary Rodham Clinton is one of the most powerful women in world politics, and the irrational right-wing hatred of Clinton has fed her progressive appeal, helping turn her into a feminist icon. To get a woman in the White House, it's thought, would be an achievement for all women everywhere, a kind of trickle-down feminism. In the run-up to the 2016 presidential election, the mantle of feminist elect has descended on Hillary Clinton, as a thousand viral memes applaud her, and most mainstream feminist leaders, thinkers, and organizations endorse her. In this atmosphere, dissent seems tantamount to political betrayal. In False Choices, an all-star lineup of feminists contests this simplistic reading of the candidate. A detailed look at Hillary Clinton's track record on welfare, Wall Street, criminal justice, education, and war reveals that she has advanced laws and policies that have done real harm to the lives of women and children across the country and the globe. This well-researched collection of essays restores to feminism its revolutionary meaning, and outlines how it could transform the United States and its relation to the world. Includes essays from prominent feminist writers Liza Featherstone, Laura Flanders, Moe Tkacik, Medea Benjamin, Frances Fox Piven and Fred Block, Donna Murch, Kathleen Geier, Yasmin Nair, Megan Erickson, Tressie McMillan Cottom, Catherine Liu, Amber A'Lee Frost, Margaret Corvid, Belén Fernández, Zillah Eisenstein, and others.

New Forms of Self-Narration

Young Women, Life Writing and Human Rights

Springer Nature This book is a timely study of young women's life writing as a form of human rights activism. It focuses on six young women who suffered human rights violations when they were girls and have gone on to become activists through life writing: Malala Yousafzai, Hyeonseo Lee, Yeonmi Park, Bana Alabed, Nujeen Mustafa, and Nadia Murad. Their ongoing life-writing projects diverge to some extent, but all share several notable features: they claim a testimonial collective voice, they deploy rights discourse, they excite humanitarian emotions, they link up their context-bound plight with bigger social justice causes, and they use English as their vehicle of self-expression and self-construction. This strategic use of English is of vital importance, as it has brought them together as icons in the public sphere within the last six years. New Forms of Self-Narration is the first ever attempt to explore all these activists' life-writing texts side by side, encompassing both the written and the audiovisual material, online and offline, and taking all texts as belonging to a unique, single, though multifaceted, project.

Both/And A Memoir

Simon and Schuster In this beautifully written and propulsive memoir, Huma Abedin--Hillary Clinton's famously private top aide and longtime advisor--emerges from the wings of American political history to take command of her own story. The daughter of Indian and Pakistani intellectuals and advocates, Abedin grew up in the United States and Saudi Arabia and traveled widely. Both/And grapples with family, legacy, identity, faith, marriage, motherhood--and work--with wisdom, sophistication, and clarity. Abedin launched full steam into a college internship in the office of the First Lady in 1996, never imagining that her work at the White House would blossom into a career in public service, nor that her career would become an all-consuming way of life. She thrived in rooms with diplomats and sovereigns, entrepreneurs and artists, philanthropists and activists, and witnessed many crucial moments in 21st-century American history--Camp David for urgent efforts at Middle East peace in the waning months of the Clinton administration, Ground Zero in the days after the 9/11 attacks, the inauguration of the first African American president of the United States, the convention floor when America nominated its first female presidential candidate. Abedin's relationship with Hillary Clinton has seen both women through extraordinary personal and professional highs, as well as unimaginable lows. Here, for the first time, is a deeply personal account of Clinton as mentor, confidante, and role model. Abedin cuts through caricature, rumor, and misinformation to reveal a crystal clear portrait of Clinton as a brilliant and caring leader, a steadfast friend, generous, funny, hardworking, and dedicated. Both/And is a candid and heartbreaking chronicle of Abedin's marriage to Anthony Weiner, what drew her to him, how much she wanted to believe in him, the devastation wrought by his betrayals--and their shared love for their son. It is also a timeless story of a young woman with aspirations and ideals coming into her own in high-pressure jobs and a testament to the potential for women in leadership to blaze a path forward while supporting those who follow in their footsteps. Abedin's journey through the opportunities and obstacles, the trials and triumphs, of a full and complex life is a testament to her profound belief that in an increasingly either/or world, she can be both/and. Abedin's compassion and courage, her resilience and grace, her work ethic and mission are an inspiration to people of all ages.

Combining the authoritative perspective of these inside accounts with the analytic powers of some of America's most distinguished presidential scholars, the essays assembled here offer a major advance in our collective understanding of the Clinton White House. Included are path-breaking chapters on the major domestic and foreign policy initiatives of the Clinton years, as well as objective discussions of political success and failure. 42 is the first book to make extensive use of previously closed interviews collected for the Clinton Presidential History Project, conducted by the Presidential Oral History Program of the University of Virginia's Miller Center. These interviews, recorded by teams of scholars working under a veil of strict confidentiality, explored officials' memories of their service with President Clinton and their careers prior to joining the administration. Interviewees also offered political and leadership lessons they had gleaned as eyewitnesses to and shapers of history.

Their spoken recollections provide invaluable detail about the inner history of the presidency in an age when personal diaries and discursive letters are seldom written. The authors producing this volume had first access to more than fifty of these cleared interviews, including sessions with White House chiefs of staff Mack McLarty and Leon Panetta, Secretaries of State Warren Christopher and Madeleine Albright, National Security Advisors Anthony Lake and Sandy Berger, and a host of political advisors who guided Clinton into the White House and helped keep him there. This book thus provides a multidimensional portrait of Bill Clinton's administration, drawing largely on the observations of those who knew it best.

No One Left to Lie To

The Triangulations of William Jefferson Clinton

Atlantic Books Ltd In this vitriolic polemic, Christopher Hitchens takes on the myth surrounding the most divisive political figures in American political history: Bill Clinton and Hilary Clinton. By far the best of all the books on the Clinton era. - Edward Said In No One Left to Lie To, Christopher Hitchens portrays President Bill Clinton as one of the most ideologically skewed and morally negligent politicians of recent times. In a blistering polemic which shows that Clinton was at once philanderer and philistine, crooked and corrupt, Hitchens challenges perceptions - of liberals and conservatives alike - of this highly divisive figure. With blistering wit and meticulous documentation, Hitchens masterfully deconstructs Clinton's abject propensity for pandering to the Left while delivering to the Right and argues that the president's personal transgressions were inseparable from his political corruption.

Hard Choices

Moral Dilemmas in Humanitarian Intervention

Rowman & Littlefield Publishers Since Somalia, the international community has found itself changing its view of humanitarian intervention. Operations designed to alleviate suffering and achieve peace sometimes produce damaging results. The United Nations, nongovernmental organizations, military and civilian agencies alike find themselves in the midst of confusion and weakness where what they seek are clarity and stability. Competing needs, rights, and values can obscure even the best international efforts to quell violence and assuage crises of poverty. More attention must be paid to the complexity of issues and moral dilemmas involved. This volume of original essays by international policy leaders, practitioners, and scholars brings together insights into the conflicting moral pressures present in different kinds of interventions ranging from Rwanda and Somalia to Haiti, Cambodia, and Bosnia. From their various cultural and professional perspectives the authors cover issues of human rights, sanctions, arms trade, refugees, HIV, and the media. Together they make the case that, although there are no easy answers, moral reflection and content can improve the quality of decisionmaking and intervention in internal conflicts. Published under the auspices of The International Committee of the Red Cross.

Up for Sale

Human Trafficking and Modern Slavery

Twenty-First Century Books™ "Trafficking thrives in the shadows. And it can be easy to dismiss it as something that happens to someone else, somewhere else. But that is not the case. Trafficking is a crime that involves every nation on earth, and that includes our own."—US secretary of state Hillary Rodham Clinton, 2009 Human trafficking is as old as slavery and continues to be practiced in the modern world. Victims of human traffickers include workers in restaurants and in garment factories, maids and nannies in the homes of wealthy families, child sex workers, beggars on the street, boy soldiers, even infants kidnapped for foreign adoptions. Women and children are more likely to be coerced or seized than men and boys, especially if they are poor and uneducated. Traffickers sell their victims for their bodies or for their labor and reap an enormous profit. Human trafficking is estimated to be a \$30 to \$45 billion industry on an annual basis, rivaling weapons and drug trafficking as one of the most profitable criminal undertakings in the world. Up for Sale takes a hard look at human trafficking, identifying perpetrators and telling the stories of victims through their own words. You'll discover why some people become vulnerable to trafficking and you'll read about what their lives are like on a daily basis. You'll also meet some of the courageous individuals and organizations working to free people from lives in bondage so that, in the words of US president Barack Obama, each person can "forge a life equal to [their] talents and worthy of [their] dreams."

NO RIGHT TURN

Harvard University Press Few question the “right turn” America took after 1966, when liberal political power began to wane. But if they did, No Right Turn suggests, they might discover that all was not really “right” with the conservative golden age. A provocative overview of a half century of American politics, the book takes a hard look at the counterrevolutionary dreams of liberalism’s enemies—to overturn people’s reliance on expanding government, reverse the moral and sexual revolutions, and win the Culture War—and finds them largely unfulfilled. David T. Courtwright deftly profiles celebrated and controversial figures, from Clare Boothe Luce, Barry Goldwater, and the Kennedy brothers to Jerry Falwell, David Stockman, and Lee Atwater. He shows us Richard Nixon’s keen talent for turning popular anxieties about morality and federal meddling to Republican advantage—and his inability to translate this advantage into reactionary policies. Corporate interests, boomer lifestyles, and the media weighed heavily against Nixon and his successors, who placated their base with high-profile attacks on crime, drugs, and welfare dependency. Meanwhile, religious conservatives floundered on abortion and school prayer, obscenity, gay rights, and legalized vices like gambling, and fiscal conservatives watched in dismay as the bills mounted. We see how President Reagan’s mélange of big government, strong defense, lower taxes, higher deficits, mass imprisonment, and patriotic symbolism proved an illusory form of conservatism. Ultimately, conservatives themselves rebelled against George W. Bush’s profligate brand of Reaganism. Courtwright’s account is both surprising and compelling, a bracing argument against some of our most cherished clichés about recent American history.
