FINDING BETTY CROCKER

THE SECRET LIFE OF AMERICA'S FIRST LADY OF FOOD

Simon and Schuster IN 1945, FORTUNE MAGAZINE named Betty Crocker the second most popular American woman, right behind Eleanor Roosevelt, and dubbed Betty America's First Lady of Food. Not bad for a gal who never actually existed. "Born" in 1921 in Minneapolis, Minnesota, to proud corporate parents, Betty Crocker has grown, over eight decades, into one of the most successful branding campaigns the world has ever known. Now, at long last, she has her own biography. Finding Betty Crocker draws on six years of research plus an unprecedented look into the General Mills archives to reveal how a fictitious spokesperson was enthusiastically welcomed into kitchens and shopping carts across the nation. The Washburn Crosby Company (one of the forerunners to General Mills) chose the cheery all-American "Betty" as a first name and paired it with Crocker, after William Crocker, a well-loved company director. Betty was to be the newest member of the Home Service Department, where she would be a "friend" to consumers in search of advice on baking -- and, in an unexpected twist, their personal lives. Soon Betty Crocker had her own national radio show, which, during the Great Depression and World War II, broadcast money-saving recipes, rationing tips, and messages of hope. Over 700,000 women joined Betty's wartime Home Legion program, while more than one million women -- and men -- registered for the Betty Crocker Cooking School of the Air during its twenty-seven-year run. At the height of Betty Crocker's popularity in the 1940s, she received as many as four to five thousand letters daily, care of General Mills. When her first full-scale cookbook, Betty Crocker's Picture Cook Book, or "Big Red," as it is affectionately known, was released in 1950, first-year sales rivaled those of the Bible. Today, over two hundred products bear her name, along with thousands of recipe booklets and cookbooks, an interactive website, and a newspaper column. What is it about Betty? In answering the question of why everyone was buying what she was selling, author Susan Marks offers an entertaining, charming, and utterly unique look -- through words and images -- at an American icon situated between profound symbolism and classic kitchen kitsch.

The proceeds of our book will benefit a local charity (Stephen Siller Foundation/Tunnel to Towers Covid19 Heroes Fund) that is supporting front line heroes. This book will also serve as a piece of history. It will remind any one who purchases it that during a very dark time in our country's history there was that one group who stuck together and supported one another through cooking and meals for our families. It has been nothing short of amazing to have created this with my daughters and to now turn it into a much asked for book. We have many front line members/family who contributed to our book and the stories will reflect it. The feedback on this project has been amazing. People love it and so do we.

SALT, SUGAR, FAT

HOW THE FOOD GIANTS HOOKED US

Random House The No.1 New York Times Bestseller In China, for the first time, the people who weigh too much now outnumber those who weigh too little. In Mexico, the obesity rate has tripled in the past three decades. In the UK over 60 per cent of adults and 30 per cent of children are overweight, while the United States remains the most obese country in the world. We are hooked on salt, sugar and fat. These three simple ingredients are used by the major food companies to achieve the greatest allure for the lowest possible cost. Here, Pulitzer Prize-winning investigative reporter Michael Moss exposes the practices of some of the most recognizable (and profitable) companies and brands of the last half century. He takes us inside the labs where food scientists use cutting-edge technology to calculate the 'bliss point' of sugary drinks. He unearths marketing campaigns designed - in a technique adapted from the tobacco industry - to redirect concerns about the health risks of their products, and reveals how the makers of processed foods have chosen, time and again, to increase consumption and profits, while gambling with our health. Are you ready for the truth about what's in your shopping basket?
