The SAGE Handbook of Comparative Politics

SAGE 'Editors Landman and Robinson have compiled an excellent tour d'horizon of comparative politics. Distinguished contributors explore theoretical and methodological issues as well as examine the critical substantive domains that animate today's comparativists. Graduate students and academics will want to keep this volume on their book shelf - Professor Mark Irving Lichbach, University of Maryland 'The SAGE Handbook of Comparative Politics is a major new resource for scholars of comparative politics, and of political science more generally. The Handbook covers the field with admirable thoroughness, but does not sacrifice depth for breadth. The chapters are written by notable scholars who provide rich discussions of their topics, and help to move the sub-discipline forward' - B. Guy Peters, Professor, University of Pittsburgh The SAGE Handbook of Comparative Politics presents; in one volume, an authoritative overview of the theoretical, methodological and substantive elements of comparative political science. The 28 specially commissioned chapters, written by renowned comparative scholars, guide the reader through the central issues and debates, presenting a state-of-the-art guide to the past, present and possible futures of the field. The Handbook is divided into three parts. The first considers comparative methodologies and reviews the interactions between various sub-fields of comparative politics: political

economy; political sociology; area studies; international relations; and institutional analysis. The second section examines nine 'classic' issues of concern to comparativists, including government formation, political behaviour and democratization. In the final section, nine new and emerging areas of comparative research are considered, such as terrorism, electoral corruption, human rights and regional integration. The SAGE Handbook of Comparative Politics is an essential resource for researchers in political science, political sociology, political economy, international relations, area studies and all other fields with a comparative political dimension.

The SAGE Handbook of Political Science

SAGE *The SAGE Handbook of Political Science presents a major retrospective and prospective overview of the discipline. Comprising three volumes of contributions from expert authors from around the world, the handbook aims to frame, assess and synthesize research in the field, helping to define and identify its current and future developments. It does so from a truly global and cross-area perspective. Chapters cover a broad range of aspects, from providing a general introduction to exploring important subfields within the discipline. Each chapter is designed to provide a state-of-the-art and comprehensive overview of the topic by incorporating cross-cutting global, interdisciplinary, and, where this applies, gender perspectives. The Handbook is arranged over seven core thematic sections: Part 1: Political Theory Part 2: Methods Part 3: Political Sociology Part 4: Comparative Politics Part 5: Public Policies and Administration Part 6: International Relations Part 7: Major Challenges for Politics and Political Science in the 21st Century*

The SAGE Handbook of Research Methods in Political Science and International Relations

SAGE *The SAGE Handbook of Research Methods in Political Science and International Relations offers a comprehensive overview of the field and its research processes through the empirical and research scholarship of leading international authors. The book is structured along the lines of applied research in the discipline: from formulating good research questions and designing a good research project, to various modes of theoretical argumentation, through conceptualization, to empirical measurement and analysis. Each chapter offers new approaches and builds upon existing methods. Through its seven parts, undergraduate and graduate students, researchers and practicing academics, will be guided through the design, methods and analysis of issues in Political Science and International Relations discipline: Part One: Formulating Good Research Questions and Designing Good Research Projects Part Two: Methods of Theoretical Argumentation Part Three: Conceptualization & Measurement Part Four: Large-Scale Data Collection &*

Representation Methods Part Five: Quantitative-Empirical Methods Part Six: Qualitative & "Mixed" Methods Part Seven: EITM & EMTI

The SAGE Handbook of Political Sociology, 2v

SAGE *The SAGE Handbook of Political Sociology offers a comprehensive and contemporary look at this evolving field of study. The focus is on political life itself and the chapters, written by a highly-respected and international team of authors, cover the core themes which need to be understood in order to study political life from a sociological perspective, or simply to understand the political world. The two volumes are structured around five key areas: PART 1: TRADITIONS AND PERSPECTIVES PART 2: CORE CONCEPTS PART 03: POLITICAL IDEOLOGIES AND MOVEMENTS PART 04: TOPICS PART 05: WORLD REGIONS This future-oriented and cross-disciplinary handbook is a landmark text for students and scholars interested in the social investigation of politics.*

21st Century Political Science: A Reference Handbook

SAGE

The Oxford Handbook of Comparative Politics

Oxford University Press, USA *The Oxford Handbook of Comparative Politics offers a critical survey of the field of empirical political science through the collection of a set of chapters written by 48 top scholars in the discipline of comparative politics*

The SAGE Handbook of Electoral Behaviour

SAGE *The Handbook of Electoral Behaviour is an authoritative and wide ranging survey of this dynamic field, drawing together a team of the world's leading scholars to provide a state-of-the-art review that sets the agenda for future study.*

The SAGE Handbook of Social Science Methodology

SAGE *"An excellent guidebook through different approaches to social science measurement, including the all-important route-maps that show us how to get there." - Roger Jowell, City University "In this wide-ranging collection of chapters, written by acknowledged experts in their fields, Outhwaite and Turner have brought together material in one volume which will provide an extremely important*

platform for consideration of the full range of contemporary analytical and methodological issues." - Charles Crothers, Auckland University of Technology This is a jewel among methods Handbooks, bringing together a formidable collection of international contributors to comment on every aspect of the various central issues, complications and controversies in the core methodological traditions. It is designed to meet the needs of those disciplinary and nondisciplinary problem-oriented social inquirers for a comprehensive overview of the methodological literature. The text is divided into 7 sections: Overviews of methodological approaches in the social sciences Cases, comparisons and theory Quantification and experiment Rationality, complexity and collectivity Interpretation, critique and postmodernity Discourse construction Engagement. Edited by two leading figures in the field, the Handbook is a landmark work in the field of research methods. More than just a 'cookbook' that teaches readers how to master techniques, it will give social scientists in all disciplines an appreciation for the full range of methodological debates today, from the quantitative to the qualitative, giving them deeper and sharpen insights into their own research questions. It will generate debate, solutions and a series of questions for researchers to exploit and develop in their research and teaching.

The SAGE Handbook of Political Communication

SAGE This authoritative and comprehensive survey of political communication draws together a team of the world's leading scholars to provide a state-of-the-art review that sets the agenda for future study. It is divided into five sections: Part One: explores the macro-level influences on political communication such as the media industry, new media, technology, and political systems Part Two: takes a grassroots perspective of the influences of social networks - real and online - on political communication Part Three: discusses methodological advances in political communication research Part Four: focuses on power and how it is conceptualized in political communication Part Five: provides an international, regional, and comparative understanding of political communication in its various contexts The SAGE Handbook of Political Communication is an essential benchmark publication for advanced students, researchers and practitioners in the fields of politics, media and communication, sociology and research methods.

The SAGE Handbook of Neoliberalism

SAGE Over the last two decades, 'neoliberalism' has emerged as a key concept within a range of social science disciplines including sociology, political science, human geography, anthropology, political economy, and cultural studies. The SAGE Handbook of Neoliberalism showcases the cutting edge of contemporary scholarship in this field by bringing together a team of global experts. Across seven key sections, the handbook explores the different ways in which neoliberalism has been understood and the key

questions about the nature of neoliberalism: Part 1: Perspectives Part 2: Sources Part 3: Variations and Diffusions Part 4: The State Part 5: Social and Economic Restructuring Part 6: Cultural Dimensions Part 7: Neoliberalism and Beyond This handbook is the key reference text for scholars and graduate students engaged in the growing field of neoliberalism.

The SAGE Handbook of Public Administration

SAGE The original Handbook of Public Administration was a landmark publication, the first to provide a comprehensive and authoritative survey of the discipline. The eagerly-awaited new edition of this seminal international handbook continues to provide a complete review and guide to past and present knowledge in this essential field of inquiry. Assembling an outstanding team of scholars from around the world, the second edition explores the current state-of-the-art in academic thinking and the current structures and processes for the administration of public policy. The second edition has been fully revised and updated, with new chapters that reflect emerging issues and changes within the public sector: - Identifying the Antecedents in Public Performance - Bureaucratic Politics - Strategy Structure and Policy Dynamics - Comparative Administrative Reform - Administrative Ethics - Accountability through Market and Social Instruments - Federalism and intergovernmental coordination. A dominant theme throughout the handbook is a critical reflection on the utility of scholarly theory and the extent to which government practices inform the development of this theory. To this end it serves as an essential guide for both the practice of public administration today and its on-going development as an academic discipline. The SAGE Handbook of Public Administration remains indispensable to the teaching, study and practice of public administration for students, academics and professionals everywhere.

The SAGE Handbook of Case-Based Methods

SAGE Publications Limited This handbook provides a clear, critical examination of case-oriented research. It defines case-based social research as a subfield of methodology.

The SAGE Handbook of Comparative Studies in

Education

SAGE *Educational practices have rapidly changed in the last few decades, especially in how exchanges of information and learning are delivered and processed. Yet, while the field of international comparative studies has grown, there has not been an extensive study on the relationship between educational practices, students, and how practitioners are prepared and trained. This handbook explores international educational practices and behaviours through new research and a review of existing research, with chapters spread across six parts: Part I: The Status of Comparative Education Research Part II: Measurement Methods in Comparative Education Research Part III: Research Practices in Comparative Studies of Education Part IV: Lessons from International Comparisons of Student Behaviors Part V: International Comparisons of Instruction Part VI: Influence of Large-Scale Assessments on Policy*

Comparative Politics

SAGE *'Bara and Pennington's edited volume successfully fills a huge void in the market for introductory textbooks to comparative politics which previously offered either descriptions of political processes and systems or overviews of the methodology of comparative analysis. By applying major political science theories to overviews of the core elements of political systems, the authors both enhance our understanding of these elements and provide readers an excellent introduction to comparative explanation' - Dr David Howarth, University of Edinburgh 'What is distinctive about this authoritative and comprehensive book on comparative politics is the way in which it is underpinned throughout by a theoretical analysis centred on a new institutionalist approach' - Professor Wyn Grant, University of Warwick 'Comparative Politics takes a fresh and original approach to the field... it examines the role of structures, rules and norms in regulating the individual and collective behaviour of political actors. Each chapter provides a critical bibliography and key questions which will be particularly useful for students approaching Comparative Politics for the first time. Altogether this is a comprehensive and useful read which I warmly recommend' - Ian Budge, Professor Emeritus Professor of Government, University of Essex 'This is a most useful book. Teachers of comparative politics often scramble around, with out-of-date textbooks and photocopies of more or less compatible articles. Here is a new book that gives an up-to-date, comprehensive and systematic introduction to the major strands of institutional thought and applies these to the major institutions, processes and policy areas. It will be a great help for many of us, academics and students alike' - Peter Kurrild-Klitgaard, Professor of Comparative Politics, University of Copenhagen This book provides a distinctive new introduction to the study of comparative politics at undergraduate level. Rich in case study material and global in coverage, Comparative Politics sets out the basic theoretical and methodological foundations for studying different*

political systems as well as the key structures and actors of which they are comprised. Part One explores the nature of comparative methodology and introduces students to the major theoretical paradigms that seek to explain the operation of institutions in democratic states and facilitate comparison across different political systems. Part Two examines the institutional structures of the modern state, outlining the key features such as the electoral systems and territorial and functional divisions of government across a range of modern states. Part Three analyzes the role of key actors, such as voters and parties, interest groups and social movements, the bureaucracy and the judiciary. This book will be an essential primer for students on first-year courses in comparative government and politics as well as introductory courses in political science concepts and methods. Judith Bara is Senior Lecturer in Politics at Queen Mary, University of London and Research Fellow in Government, University of Essex. David S. Bell is Professor of French Government and Politics and Head of Social Studies and Law at the University of Leeds. Jocelyn Evans is Reader in Politics at the European Studies Research Institute, University of Salford. Catherine Needham is Lecturer in Politics at Queen Mary, University of London. Brendan O'Duffy is Senior Lecturer in Politics at Queen Mary, University of London. Mark Pennington is Senior Lecturer in Politics at Queen Mary, University of London. David Robertson is Professor of Politics, University of Oxford and Vice Principal, St Hugh's College, Oxford.

The SAGE Handbook of Public Opinion Research

SAGE 'Some of the most experienced and thoughtful research experts in the world have contributed to this comprehensive Handbook, which should have a place on every serious survey researcher's bookshelf - Sir Robert Worcester, Founder of MORI and President of WAPOR '82-'84. 'This is the book I have been waiting for. It not only reflects the state of the art, but will most likely also shape public opinion on public opinion research' - Olof Petersson, Professor of political science, SNS, Stockholm, Sweden 'The Handbook of Public Opinion Research is very authoritative, well organized, and sensitive to key issues in opinion research around the world. It will be my first choice as a general reference book for orienting users and training producers of opinion polls in Southeast Asia' - Mahar K. Mangahas, Ph.D., President of Social Weather Stations, Philippines (www.sws.org.ph) 'This is the most comprehensive book on public opinion research to date' - Robert Ting-Yiu Chung, Secretary-Treasurer, World Association for Public Opinion Research (WAPOR); Director of Public Opinion Programme, The University of Hong Kong Public opinion theory and research are becoming increasingly significant in modern societies as people's attitudes and behaviours become ever more volatile and opinion poll data becomes ever more readily available. This major new Handbook is the first to bring together into one volume the whole field of public opinion theory, research methodology, and the political and social embeddedness of polls in modern societies. It comprehensively maps out the state-of-the-art in contemporary scholarship on these topics. With over fifty chapters written by distinguished international researchers,

both academic and from the commercial sector, this Handbook is designed to: - give the reader an overview of the most important concepts included in and surrounding the term 'public opinion' and its application in modern social research - present the basic empirical concepts for assessing public opinion and opinion changes in society - provide an overview of the social, political and legal status of public opinion research, how it is perceived by the public and by journalists, and how it is used by governments - offer a review of the role and use of surveys for selected special fields of application, ranging from their use in legal cases to the use of polls in marketing and campaigns. The Handbook of Public Opinion Research provides an indispensable resource for both practitioners and students alike.

Handbook of Party Politics

SAGE *'This thoughtful and wide-ranging review of parties and party research contains contributions from many of the foremost party scholars and is a must for all library shelves' - Richard Luther, Keele University 'The study of political parties has never been livelier and this genuinely international Handbook - theoretically rich, comparatively informed, and focused on important questions - defines the field. This volume is both an indispensable summary of what we know and the starting point for future research' - R K Carty, University of British Columbia 'Political parties are ubiquitous, but their forms and functions vary greatly from regime to regime, from continent to continent, and from era to era. The Handbook of Party Politics captures this variation and richness in impressive ways. The editors have assembled an excellent team, and the scope of the volume is vast and intriguing' - Kaare Strom, University of California, San Diego Political parties are indispensable to democracy and a central subject of research and study in political science around the world. This major new handbook is the first to comprehensively map the state-of-the-art in contemporary party politics scholarship. The Handbook is designed to: - provide an invaluable survey of the major theories and approaches in this dynamic area of study and research - give students and researchers a concise 'road map' to the core literatures in all the sub-fields of party related theorizing and research - identify the theories, approaches and topics that define the current 'cutting edge' of the field. The Handbook is comparative in overall approach but also addresses some topics to be addressed in nationally or regionally specific ways. The resulting collaboration has brought together the world's leading party theorists to provide an unrivalled resource on the role of parties in the pressing contemporary problems of institutional design and democratic governance today.*

The SAGE Handbook of Asian Foreign Policy

SAGE *Comprising 60.3 percent of the world's 7.2 billion population, Asia is an enigma to many in the West. Hugely dynamic in its demographic, economic, technological and financial development, its changes are as rapid as they are diverse. The SAGE Handbook of Asian Foreign Policy provides the reader with a clear, balanced and comprehensive overview on Asia's foreign policy and accompanying theoretical trends. Placing the diverse and dynamic substance of Asia's international relations first, and bringing together an authoritative assembly of contributors from across the world, this is a reliable introduction to non-Western intellectual traditions in Asia. VOLUME 1: PART 1: Theories PART 2: Themes PART 3: Transnational Politics PART 4: Domestic Politics PART 5; Transnational Economics VOLUME 2: PART 6: Foreign Policies of Asian States Part 6a: East Asia Part 6b: Southeast Asia Part 6c: South & Central Asia Part 7: Offshore Actors Part 8: Bilateral Issues Part 9: Comparison of Asian Sub-Regions*

Comparative Criminal Justice

Making Sense of Difference

SAGE *The increasingly important topic of comparative criminal justice is examined from an original and insightful perspective by one of the top scholars in the field. Addressing the need for a globalized criminology, David Nelken looks at why we should study crime and criminal justice in a comparative and international context, and the difficulties we encounter when we do. Evaluating 'global' trends in crime, risk and security, the book draws upon the author's experience of working in a number of settings around the world. A range of case studies are included to illustrate the discussion, covering areas such as white collar crime, juvenile delinquency, and organized crime.*

Principles of Comparative Politics

CQ Press *Principles of Comparative Politics offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, students now have an even better guide to cross-national comparison and why it matters. The new edition retains a focus on the enduring questions with which scholars grapple, the issues about which consensus has started to emerge, and the tools comparativists use to get at the complex problems in the field. Among*

other things, the updates to this edition include a thoroughly-revised chapter on dictatorships that incorporates a discussion of the two fundamental problems of authoritarian rule: authoritarian power-sharing and authoritarian control; a revised chapter on culture and democracy that includes a more extensive examination of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; a new section on issues related to electoral integrity; an expanded assessment of different forms of representation; and a new intuitive take on statistical analyses that provides a clearer explanation of how to interpret regression results. Examples from the gender and politics literature have been incorporated into various chapters, the Problems sections at the end of each chapter have been expanded, and the empirical examples and data on various types of institutions have been updated. Online videos and tutorials are available to address some of the more methodological components discussed in the book. The authors have thoughtfully streamlined chapters to better focus attention on key topics.

The SAGE Handbook of European Foreign Policy

SAGE *During the last two decades the study of European foreign policy has experienced remarkable growth, presumably reflecting a more significant international role of the European Union. The Union has significantly expanded its policy portfolio and though empty symbolic politics still exists, the Union's international relations have become more substantial and its foreign policy more focused. European foreign policy has become a dynamic policy area, being adapted to changing challenges and environments, such as the Arab Spring, new emerging economies/powers; the crisis of multilateralism and much more. The SAGE Handbook of European Foreign Policy, Two-Volume set, is a major reference work for Foreign Policy Programmes around the world. The Handbook is designed to be accessible to graduate and postgraduate students in a wide variety of disciplines across the humanities and social sciences. Both volumes are structured to address areas of critical concern to scholars at the cutting edge of all major dimensions of foreign policy. The volumes are composed of original chapters written specifically to the following themes: · Research traditions and historical experience · Theoretical perspectives · EU actors · State actors · Societal actors · The politics of European foreign policy · Bilateral relations · Relations with multilateral institutions · Individual policies · Transnational challenges The Handbook will be an essential reference for both advanced students and scholars.*

Politics and Society in Western Europe

SAGE *Politics and Society in Western Europe is a comprehensive introduction for students of West European politics and of comparative politics. This new edition has been extensively revised and updated to meet with the new needs of undergraduate*

students as they come to terms with a changing social and political landscape in Europe. This textbook provides a full analysis of the political systems of 18 Western European countries, their political parties, elections, and party systems, as well as the structures of government at local, regional, national and European Union levels. Throughout the book, key theoretical ideas are accessibly introduced and examined against the very latest empirical data on civil society and the state.

Political Science

A Global Perspective

SAGE *Approaching the subject from a focussed international and pluralist perspective, this book provides advanced-level treatment of all the core areas to give postgraduate students a wide-ranging and dynamic introduction*

The SAGE Handbook of Cultural Anthropology

SAGE *The SAGE Handbook of Cultural Anthropology is an essential resource for social scientists globally and contains a rich body of chapters on all major topics relevant to the field, whilst also presenting a possible road map for the future of the field.*

Handbook of International Relations

SAGE *"This is an excellent compilation of work on the discipline of international relations (IR). . . . This handbook will become indispensable for libraries serving graduate programs in IR. It will also be a good reference for faculty and scholars in the field, and its individual entries will be of interest to advanced undergraduate students." --CHOICE, November 2002 --CHOICE, November 2002 This major Handbook brings together the worlds leading scholars of international relations to provide a state of the art review and indispensable guide to the field. A genuinely international undertaking, the Handbook reviews the many historical, philosophical, analytical and normative roots to the discipline and the key contemporary topics of research and debate today. An essential benchmark publication for all advanced undergraduates, graduate students and academics in politics and international relations.*

Russia's Regions and Comparative Subnational Politics

Routledge *Subnational political units are growing in influence in national and international affairs, drawing increasing scholarly attention to politics beyond national capitals. In this book, leading Russian and Western political scientists contribute to debates in comparative politics by examining Russia's subnational politics. Beginning with a chapter that reviews major debates in theory and method, this book continues to examine Russia's 83 regions, exploring a wide range of topics including the nature and stability of authoritarian regimes, federal politics, political parties, ethnic conflict, governance and inequality in a comparative perspective. Providing both qualitative and quantitative data from 20 years of original research, the book draws on elite interaction, public opinion and the role of institutions regionally in the post-Soviet years. The regions vary on a number of theoretically interesting dimensions while their federal membership provides control for other dimensions that are challenging for globally comparative studies. The authors demonstrate the utility of subnational analyses and show how regional research can help answer a variety of political questions, providing evidence from Russia that can be used by specialists on other large countries or world regions in cross-national scholarship. Situated within broader theoretical and methodological political science debates, this book will be of interest to students and scholars of Russian politics, comparative politics, regionalism and subnational politics.*

The SAGE Handbook of Applied Social Research Methods

SAGE *The SAGE Handbook of Applied Social Research Methods, Second Edition provides students and researchers with the most comprehensive resource covering core methods, research designs, and data collection, management, and analysis issues. This thoroughly revised edition continues to place critical emphasis on finding the tools that best fit the research question given the constraints of deadlines, budget, and available staff. Each chapter offers key guidance on how to make intelligent and conscious tradeoffs so that one can refine and hone the research question as new knowledge is gained, unanticipated obstacles are encountered, or contextual shifts take place - all key elements in the iterative nature of applied research. Each chapter has been enhanced pedagogically to include more step-by-step procedures, specific, rich yet practical examples from various settings to illustrate the method, parameters to define when the method is most appropriate and when it is not appropriate, and greater use of visual aids (graphs, models, tip boxes) to provide teaching and learning tools. - twenty core chapters written by research experts that cover major methods and data analysis issues across the social and behavioral sciences, education, and management; - emphasis on applying research techniques, particularly in "real-world" settings in which there are various data, money, time, and political*

constraints; - new chapters on mixed methods, qualitative comparative analysis, concept mapping, and internet data collection; - a newly developed section that serves as a guide for students who are navigating through the book and attempting to translate the chapters into action; - a new Instructor's Resources CD, with relevant journal articles, test questions, and exercises to aid the instructor in developing appropriate course materials.

The SAGE Handbook of Qualitative Methods in Health Research

SAGE *The Sage Handbook of Qualitative Methods in Health Research is a comprehensive and authoritative source on qualitative research methods. The Handbook compiles accessible yet vigorous academic contributions by respected academics from the fast-growing field of qualitative methods in health research and consists of: - A series of case studies in the ways in which qualitative methods have contributed to the development of thinking in fields relevant to policy and practice in health care. - A section examining the main theoretical sources drawn on by qualitative researchers. - A section on specific techniques for the collection of data. - A section exploring issues relevant to the strategic place of qualitative research in health care environments. The Sage Handbook of Qualitative Methods in Health Research is an invaluable source of reference for all students, researchers and practitioners with a background in the health professions or health sciences.*

The SAGE Handbook of International Higher Education

SAGE Publications *The SAGE Handbook of International Higher Education examines the internationalization of higher education from a marginal to a core dimension of higher education worldwide. This mainstreaming of internationalization is a fascinating phenomenon: new concepts, programs, providers, and methods of delivery are emerging; impressive national and regional scholarship programs have been established; radical reforms have been undertaken to make higher education globally competitive; and mobility of students and scholars has increased around the world. This groundbreaking handbook serves as a guide to internationalization of higher education and offers new strategies for its further development and expansion in the years to come. With a decidedly global approach, this volume brings together leading experts from around the world to illustrate the increasing importance of internationalization. The text encompasses the diversity and breadth of internationalization of higher education in all its thematic facets and regional impacts.*

Routledge Handbook of Political Management

Routledge *The Routledge Handbook of Political Management is a comprehensive overview of the field of applied politics, encompassing political consulting, campaigns and elections, lobbying and advocacy, grass roots politics, fundraising, media and political communications, the role of the parties, political leadership, and the ethical dimensions of public life. While most chapters focus on American politics and campaigns, there are also contributions on election campaigns in Europe, the Middle East, Russia, Australia, East Asia, and Latin America. In addition to a thorough treatment of campaign and elections, the authors discuss modern techniques, problems, and issues of advocacy, lobbying, and political persuasion, with a special emphasis throughout the volume on technology, the Internet, and online communications as political tools. Grounded in the disciplines of political science, political communications, and political marketing, the Routledge Handbook of Political Management explores the linkages between applied politics and social science theory. Leading American and international scholars and practitioners provide an exhaustive and up-to-date treatment of the state of this emerging field. This publication is a major resource for advanced undergraduates, graduate students, and scholars of campaigns, elections, advocacy, and applied politics, as well as for political management professionals.*

The Handbook of Social Research Ethics

SAGE *Brings together international scholars across the social and behavioural sciences and education to address those ethical issues that arise in the theory and practice of research within the technologically advancing and culturally complex world in which we live.*

Handbook of Public Administration

Concise Paperback Edition

SAGE *The past two decades have been marked by a period of substantial and often fundamental change in public administration. Critically reflecting on the utility of scholarly theory and the extent to which government practices inform the development of this theory, the Handbook of Public Administration was a landmark publication which served as an essential guide for both the practice of public administration today and its on-going development as an academic discipline. The Concise Paperback Edition provides a selection of 30 of the original articles in an accessible paperback format and includes a new introduction by B. Guy Peters and Jon*

Pierre. It is an essential point of reference for all students of public administration.

Foundations of Comparative Politics

Cambridge University Press *This concise, comprehensive overview of comparative politics blends theory and evidence across democratic systems and is updated throughout.*

The Sage Handbook of Organizational Research Methods

SAGE Publications Ltd *The SAGE Handbook of Organizational Research Methods provides a rich resource for organizational researchers, locating the technical aspects of organizational research in the wider context of the relevant personal, epistemological, theoretical, historical, ethical, and political issues. David Buchanan and Alan Bryman have gathered together many of the world's leading writers on theory, method, and analysis in organizational research and have made this the most comprehensive and cutting-edge volume in this ever-growing field.*

The SAGE Handbook of Evaluation

SAGE *In this comprehensive handbook, an examination of the complexities of contemporary evaluation contributes to the ongoing dialogue that arises in professional efforts to evaluate people-related programs, policies, and practices. The SAGE Handbook of Evaluation is a unique and authoritative resource consisting of 25 chapters covering a range of evaluation theories and techniques in a single, accessible volume. With contributions from world-leading figures in their fields overseen by an eminent international editorial board, this handbook is an extensive and user-friendly resource.*

Handbook of Politics

State and Society in Global Perspective

Springer Science & Business Media *Political sociology is the interdisciplinary study of power and the intersection of personality, society and politics. The field also examines how the political process is affected by major social trends as well as exploring how social*

policies are altered by various social forces. Political sociologists increasingly use a wide variety of relatively new quantitative and qualitative methodologies and incorporate theories and research from other social science cognate disciplines. The contributors focus on the current controversies and disagreements surrounding the use of different methodologies for the study of politics and society, and discussions of specific applications found in the widely scattered literature where substantive research in the field is published. This approach will solidly place the handbook in a market niche that is not occupied by the current volumes while also covering many of the same theoretical and historical developments that the other volumes cover. The purpose of this handbook is to summarize state-of-the-art theory, research, and methods used in the study of politics and society. This area of research encompasses a wide variety of perspectives and methods that span social science disciplines. The handbook is designed to reflect that diversity in content, method and focus. In addition, it will cover developments in the developed and underdeveloped worlds.

The SAGE Handbook of Contemporary China

SAGE *An exploration of the transformations of contemporary China, firmly grounded in both disciplinary and China-specific contexts.*

Comparative Kurdish Politics in the Middle East

Actors, Ideas, and Interests

Springer *This edited volume introduces the political, social and economic intra-Kurdish dynamics in the Middle East by comparatively analyzing the main actors, their ideas, and political interests. As an ethnic group and a nation in the making, Kurds are not homogeneous and united but rather the Kurdish Middle East is home to various competing political groups, leaderships, ideologies, and interests. Although many existing studies focus on the Kurds and their relations with the nation-states that they populate, few studies analyze the Kurdish Middle East within its own debates, conflicts and interests from a comparative perspective across Iran, Iraq, Turkey, and Syria. This book analyzes the intra-Kurdish dynamics with historically-grounded, theoretically-informed, and conceptually-relevant scholarship that prioritizes comparative politics over international relations.*

State Capture, Political Risks and International Business Cases from Black Sea Region Countries

Taylor & Francis *In the OECD-area states provide security business to be conducted through a legal-institutional framework where state institutions, working in a legal-rational, predictable and effective manner, are often taken for granted. Worldwide, however the situation is very different. Private actors seize public institutions and processes accumulating ever more power and private wealth by systematically abusing, side-stepping, ignoring and tailoring formal institutions to fit their interests. Such forms of 'state capture' are associated with specific political risks international businesses are confronted with when operating in these countries, such as institutional ambiguity, systematic favouritism and systemic corruption. This edited volume covers state capture, political risks and international business from the perspectives of Political Science and International Business Studies. Uniting theoretical approaches and empirical insights, it examines Azerbaijan, Armenia, Georgia, Ukraine, Moldova, Romania, Bulgaria and Turkey. Each chapter deals with country specific forms of state capture and the associated political risks bridging the gap between political analysis and business related impacts.*

Handbook of Citizenship Studies

SAGE *'The contributions of Woodiwiss, Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection'- The British Journal of Sociology From women's rights, civil rights, and sexual rights for gays and lesbians to disability rights and language rights, we have experienced in the past few decades a major trend in Western nation-states towards new claims for inclusion. This trend has echoed around the world: from the Zapatistas to Chechen and Kurdish nationalists, social and political movements are framing their struggles in the languages of rights and recognition, and hence, of citizenship. Citizenship has thus become an increasingly important axis in the social sciences. Social scientists have been rethinking the role of political agent or subject. Not only are the rights and obligations of citizens being redefined, but also what it means to be a citizen has become an issue of central concern. As the process of globalization produces multiple diasporas, we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic. As societies are forced to manage cultural difference and associated tensions and conflict, there will be changes in the processes by which states allocate*

citizenship and a differentiation of the category of citizen. This book constitutes the most authoritative and comprehensive guide to the terrain. Drawing on a wealth of interdisciplinary knowledge, and including some of the leading commentators of the day, it is an essential guide to understanding modern citizenship. About the editors: Engin F Isin is Associate Professor of Social Science at York University. His recent works include Being Political: Genealogies of Citizenship (Minnesota, 2002) and, with P K Wood, Citizenship and Identity (Sage, 1999). He is the Managing Editor of Citizenship Studies. Bryan S Turner is Professor of Sociology at the University of Cambridge. He has written widely on the sociology of citizenship in Citizenship and Capitalism (Unwin Hyman, 1986) and Citizenship and Social Theory (Sage, 1993). He is also the author of The Body and Society (Sage, 1996) and Classical Sociology (Sage, 1999), and has been editor of Citizenship Studies since 1997.

Comparative Politics

Oxford University Press "*Comparative Politics*" provides a comprehensive introduction to political systems around the world. It covers methods and theories; the nation-state; institutions; actors and processes; policies; and recent changes.
