Right-Wing Politics in the New Latin America Reaction and Revolt Zed Books Ltd. The focus for students of Latin America in the past decade has been on the political forces of the left and the so-called 'pink tide' presidencies attempting to bring about social and economic change in the region. However, there has been far less attention paid to the rightwing political forces resisting such change. Such opposition is being orchestrated by political parties, business, the private media and other social and cultural institutions and is linked to the 'soft power' of US diplomacy. In recent years its activities have often appeared to challenge the democratic process itself. Based on a variety of original fieldwork and evidence, this volume addresses the current trajectories of rightwing politics in Latin America in the face of leftist governments, the discrediting of neoliberalism, and the decline of US hegemony. It includes chapters on US policy towards Latin America; the role of US-based think-tanks; the influence of transnational business and of the private media; as well as offering country-specific chapters on key states with rightwing governments and on opposition to left-of-centre governments in Venezuela, Bolivia, Cuba, Brazil, Paraguay, Argentina and Chile. A revealing and important book for anyone interested in contemporary Latin American politics. Dimensions of the Americas Art and Social Change in Latin America and the United States University of Chicago Press This volume presents an overview of the social history of modern and contemporary Latin American and Latino art. This collection of thirty-three essays focuses on Latin American artists throughout Mexico, Central and South America, the Caribbean, and the United States. The author provides a chronology of modern Latin American art; a history of "social art history" in the United States; and synopses of recent theoretical and historical writings by major scholars from Mexico, Cuba, Brazil, Peru, Uruguay, Chile, and the United States. In her essays, she discusses a vast array of topics including: the influence of the Mexican muralists on the American continent; the political and artistic significance of poster art and printmaking in Cuba, Puerto Rico, and among Chicanos; the role of women artists such as Guatemalan painter Isabel Ruiz; and the increasingly important role of politics and multinational businesses in the art world of the 1970s and 1980s. She explores the reception of Latin American and Latino art in the United States, focusing on major historical exhibits as well as on exhibits by artists such as Chilean Alfredo Jaar and Argentinean Leandro Katz. Finally, she examines the significance of nationalist and ethnic themes in Latin American and Latino art. The British Study of Politics in the Twentieth Century Oxford University Press A collection of articles about British studies relating to various political issues including: totalitarianism, individualism, pluralism, political parties, elections, political institutions, public administration, nationalism, authoritarianism, and international relations. Home is where the (he)art is The Family Romance in Late Twentieth-century Mexican and Argentine Theater Associated University Presse In Home Is Where The (He)art Is Sharon Magnarelli employs a variety of contemporary critical approaches to examine the dramatic works written or performed between 1956 and 1999. Focusing on plays by Griselda Gambaro, Eduardo Rovner, Sabina Berman, Diana Raznovich, Roberto Cossa, Hugo Arguelles, Marcela del Rio, and Luisa Josefina Hernandez, Magnarelli demonstrates how the playwrights engage with family relationships to comment on sociopolitical issues of national and international significance while simultaneously challenging dramatic conventions and theatrical representation. This study provides readings of plays that have already attracted significant critical attention. It also serves as a useful introduction to the modern theater of Mexico and Argentina for the interested non-specialist. Latin American Detectives Against Power Individualism, the State, and Failure in Crime Fiction Rowman & Littlefield This book examines Latin American detective fiction and how the genre produces a socio-political critique of individualism and the state. American Imaginaries Nations, Societies and Capitalism in the Many Americas Rowman & Littlefield "This volume offers a transnational perspective on two centuries of historical experiences in the Americas, providing comparative analysis of different states and societies in the Americas from a perspective consistent with the Social Imaginaries movement"-- Political Strategies and Social Movements in Latin America The Zapatistas and Bolivian Cocaleros Springer This book investigates how social movements form their political strategies in their quest for social change and -when they shift from one strategy to another- why and how that happens. The author creates a model which distinguishes between two different roads to social change: one that passes through the seizure of state power and one that avoids any relationship with the state. Comparing the cases of two Latin American social movements, the Zapatistas in Mexico and the Bolivian Cocaleros, the volume argues that strategic choices are often decided upon through similar mechanisms. Ideal for a scholarly and non-specialist audience interested in Mexican and Bolivian politics, revolutions, and Latin American and social movement studies. Imperialism and Capitalism in the Twenty-First Century A System in Crisis Routledge We live in a time of dynamic, but generally regressive regime change-a period in which major political transformations and a rollback of a half-century of legislation are accelerated under conditions of a prolonged and deepening economic crisis and a worldwide offensive against the citizenry and the working class. Written by two of the world's leading left-wing thinkers, Imperialism and Capitalism in the Twenty-First Century takes the form of a number of analytical probes into some of the dynamics of capitalist development and imperialism in contemporary conditions of a system in crisis. It is too early to be definitive about the form that capitalism and imperialism -and socialism-might be or is taking, as we are in but the early stages of a new developmental dynamic, the conditions of which are too complex to anticipate or grasp in thought; they require a closer look and much further study from a critical development and Marxist perspective. The purpose of this book is to advance this process and give some form to this perspective. The Mexican Revolution on the World Stage Intellectuals and Film in the Twentieth Century State University of New York Press Explores the wide-ranging impact of the Mexican Revolution on global cinema and Western intellectual thought. The first major social revolution of the twentieth century, the Mexican Revolution was visually documented in technologically novel ways and to an unprecedented degree during its initial armed phase (1910-21) and the subsequent years of reconstruction (1921-40). Offering a sweeping and compelling new account of this iconic revolution, The Mexican Revolution on the World Stage reveals its profound impact on both global cinema and intellectual thought in and beyond Mexico. Focusing on the period from 1940 to 1970, Adela Pineda Franco examines a group of North American, European, and Latin American filmmakers and intellectuals who mined this extensive visual archive to produce politically engaged cinematic works that also reflect and respond to their own sociohistorical contexts. The author weaves together multilayered analysis of individual films, the history of their production and reception, and broader intellectual developments to illuminate the complex relationship between culture and revolution at the onset of World War II, during the Cold War, and amid the anti-systemic movements agitating Latin America in the 1960s. Ambitious in scope, this book charts an innovative transnational history of not only the visual representation but also the very idea of revolution. Adela Pineda Franco is Professor of Latin American Literature and Film at Boston University. She is the coeditor (with Jaime Marroquin Arredondo and Magdalena Mieri) of Open Borders to a Revolution: Culture, Politics, and Migration. Forthcoming Books Encyclopedia of Literature and Politics: S-Z Greenwood Publishing Group More than 500 alphabetically arranged entries by more than 200 expert contributors overview the complex relationship between literature and politics. Surrealism Beyond Borders Metropolitan Museum of Art Surrealism Beyond Borders challenges conventional narratives of a revolutionary artistic, literary, and philosophical movement. Tracing Surrealism's influence and legacy from the 1920s to the late 1970s in places as geographically diverse as Colombia, Czechoslovakia, Egypt, Japan, Korea, Mexico, the Philippines, Romania, Syria, Thailand, and Turkey, this publication includes more than 300 works of art in a variety of media by well-known figures—including Dalí, Ernst, Kahlo,

Magritte, and Miró—as well as numerous artists who are less widely known. Contributions from more than forty distinguished international scholars explore the network of Surrealist exchange and collaboration, artists' responses to the challenges of social and political unrest, and the experience of displacement and exile in the twentieth century. The multiple narratives addressed in this expansive book move beyond the borders of history, geography, and nationality to provocatively redraw the map of Surrealism. *Latin Jazz: The Other Jazz* Oxford University Press, USA "Latin Jazz: the Other Jazz is an issue oriented historical and ethnographic study of Latin jazz that focuses upon key moments in the history of the music in order to unpack the cultural forces that have shaped its development. The broad historical scope of this study, which traces the dynamic interplay of Caribbean and Latin American musical influence in 18th and 19th century colonial New Orleans through to the present global stage, provides an in depth contextual foundation for exploring how musicians work with and negotiate through the politics of nation, place, race, and ethnicity in the ethnographic present. As the book title suggests, Latin jazz is explored both as a specific sub-genre of jazz, and, through the processes involved in its constructed "otherness." Latin Jazz: the Other Jazz provides a revisionist perspective on jazz history by embracing and celebrating jazz' rich global nature and heralding the significant and undeniable Caribbean and Latin American contributions to this beautiful expressive form. This study demonstrates how jazz expression reverberates entangled histories that encompass a tapestry of racial distinctions and blurred lines between geographical divides. Jazz is a product of the black, brown, tan, mulatto, beige, and white experience throughout the Americas and the Caribbean. This book acknowledges, pays tribute to, and celebrates the diversity of culture, experience, and perspectives that are foundational to jazz. By doing so, the music's legacy is shown to transcend way beyond stylistic distinction, national borders, and the imposition of the black and white racial divide that has only served to maintain the status quo and silence and erase the foundational contributions of innovators from the Caribbean and Latin America"-- *Constructing Twenty-First Century Socialism in Latin America The Role of Radical Education* Springer In *Constructing Twenty-First Century Socialism: The Role of Radical Education*, Motta and Cole explore the role of the politics of knowledge and pedagogy in the reinvention of socialism for the twenty-first century. Through a critical analysis of Brazil, Colombia and Venezuela they deconstruct the mechanisms of neoliberal control as an epistemological project of monologue, closure, and violence against all 'others'. The authors develop an affirmative engagement with the traditions, practices, and politics which seek to challenge this closure through the policies of the counter-hegemonic government of Venezuela, the struggles of social movements in Brazil and Colombia, and the daily resistance of critical educators working in formal educational settings in all three countries. This mapping and analysis not only contribute to struggles for alternatives to capitalism in Latin America, but are translatable to other contexts. The book theorizes that with the exhaustion of neoliberalism, it is time to pedagogize the political and politicize the pedagogical in order to create worlds beyond capitalism. *Arbibliographies Modern Milwaukee Regional Guide Exile and the Narrative/Poetic Imagination* Cambridge Scholars Publishing *Exile and the Narrative/Poetic Imagination* is a collection of essays examining a variety of narrative and poetic responses to exile. Intended to complement existing scholarship on exile, these essays discuss works from very different parts of the world, some of them relatively rarely studied through the lens of exile, including Armenia, Egypt, Tibet, and Liberia. The book is divided into five parts, each discussing different aspects of this condition such as feelings of loss and loneliness, memories of trauma, and the search for identity. Leslie Fiedler Critic, Provocateur, Pop Culture Guru McFarland *The controversial Leslie Fiedler (1917-2003) was one of the first critics of popular culture as well as an early proponent of queer theory. This book traces the evolution of this larger-than-life figure through an extensive examination of his works. Beginning with his homoerotic reading of the relationship between Jim and Huck Finn in the Mark Twain novel, this book covers how his many contributions have been provocative, outrageous, novel, and enduring. Crossroads Modernism Descent and Emergence in African-American Literary Culture* U of Minnesota Press *American Book Publishing Record Michel Anguier's Pluto The Marble of 1669 : New Light on the French Sculptor's Career* Burns & Oates Michel Anguier was one of the most outstanding and inventive sculptors in France in the seventeenth century. to this day, however, little is generally known or has been written about him, undoubtedly because many of his sculptures have disappeared. His name remains attached, instead, to the various bronze versions deriving from a suite of small gods and goddesses which he modelled in 1652. In the present study, which is the first monographic book on Michel Anguier, the authors reconsider this important, if neglected, master in the light of a recently-discovered, small marble statue of Pluto by him which, because of its scale, is unique for the period in France. Various aspects of Anguier's life and teaching are touched upon, including the series of lectures which he gave at the Academie royale de Peinture et de Sculpture which influenced the next generation of sculptors, as well as his long feud with Charles Le Brun, the director of the Academie, who maintained a despotic control over the artistic productions for Versailles. In their investigation into the origin of the marble Pluto and Anguier's use of it to demonstrate his theories, the authors present unpublished documentation and little-known engravings and photographs which will prove revealing to those not familiar with the work of Michel Anguier and valuable to students of French sculpture of the period. It includes a discussion of the bronze versions of Pluto and, finally an account of an unprecedented scientific analysis of the marble used for the statuette which concluded that the figure of the god was carved from the same block as the sculptor's major group of The Nativity (1667), now in the Church of Saint Roch, Paris, which was recently called 'a masterpiece of the worlds sculpture'. Writing the *Global City Globalisation, Postcolonialism and the Urban* Routledge Over the last three decades, our understanding of the city worldwide has been revolutionized by three innovative theoretical concepts - globalisation, postcolonialism and a radically contested notion of modernity. The idea and even the reality of the city has been extended out of the state and nation and re-positioned in the larger global world. In this book Anthony King brings together key essays written over this period, much of it dominated by debates about the world or global city. Challenging assumptions and silences behind these debates, King provides largely ignored historical and cultural dimensions to the understanding of world city formation as well as decline. Interdisciplinary and comparative, the essays address new ways of framing contemporary themes: the imperial and colonial origin of contemporary world and global cities, actually existing postcolonialisms, claims about urban and cultural homogenisation and the role of architecture and built environment in that process. Also addressed are arguments about indigenous and exogenous perspectives, Eurocentricism, ways of framing vernacular architecture, and the global historical sociology of building types. Wide-ranging and accessible, *Writing the Global City* provides essential historical contexts and theoretical frameworks for understanding contemporary urban and architectural debates. Extensive bibliographies will make it essential for teaching, reference and research. *Cumulative Book Index A world list of books in the English language.* G.K.
