KEY=THE - PERKINS WARD

The Most Dangerous Animal of All

Harper Collins An explosive and historic book of true crime and an emotionally powerful and revelatory memoir of a man whose ten-year search for his biological father leads to a chilling discovery: His father is one of the most notorious-and still at large-serial killers.

Dismembered

Kensington Publishing Corp. Includes Killer's Gruesome Confession! "She had beautiful legs. I wanted to keep those legs." One by one, investigators found the women's bodies. Each one carefully posed. Each one brutally mutilated. An arm here. A leg there. A breast, nipples, a tattoo. The killer was cutting his victims to pieces. . . "At that point, I pretty much went for the head." For ten years in Baton Rouge, Louisiana, the killings went on. Women of slight stature were hunted down, bludgeoned and strangled. And what the killer did with their bodies in the privacy of his car, his home, his kitchen, and his shower-was beyond anything police could imagine. "I was pure evil." When investigators finally caught mild-mannered, Star Trek fan Sean Vincent Gillis, he couldn't wait to tell his story. In the presence of shocked veteran detectives, Sean told them every detail of his killings, everything he did with the bodies. . . And he smiled the whole time. . . Includes 16 pages of shocking photographs Warning: Contains Graphic Details

The Chemistry of Essential Oils Made Simple

God's Love Manifest in Molecules

Care Publications "This solidly scientific book is anchored in scripture and easy to understand, It will give you an appreciation of both the scientific and spiritual bases of healing by prayer and anointing with oils."--Publisher description.

Unsolved!

The History and Mystery of the World's Greatest Ciphers from Ancient Egypt to Online Secret Societies

Princeton University Press A mathematical tour of some of the greatest unsolved ciphers of all time In 1953, a man was found dead from cyanide poisoning near the Philadelphia airport with a picture of a Nazi aircraft in his wallet and an enciphered message taped to his abdomen. In 1912, a book dealer named Wilfrid Voynich came into possession of an illuminated cipher manuscript once belonging to Emperor Rudolf II, who was obsessed with alchemy and the occult. Wartime codebreakers tried—and failed—to unlock the book's secrets, and it remains an enigma to this day. In this lively and entertaining book, Craig Bauer examines these and other vexing ciphers yet to be cracked. Some may reveal the identity of a spy or serial killer, provide the location of buried treasure, or expose a secret society—while others may be elaborate hoaxes. He lays out the evidence surrounding each cipher, describes the efforts to decipher it, and invites readers to try their hand at puzzles that have stymied so many others.

David Fincher's Zodiac

Cinema of Investigation and (mis)interpretation

Rowman & Littlefield David Fincher's *Zodiac*, the first book-length study of the critically acclaimed 2007 release, offers various critical approaches to the film ranging from early influences, studies in genre and narrative, and media analysis including cinema history, game theory, musicology, and extensions in television studies.

The Zodiac Killer

Terror in California

Greenhaven Publishing LLC Who was the Zodiac Killer who terrorized residents of California during the 1960s and 1970s? The answer is still unknown. Readers take an in-depth look at the investigation that continues to fascinate Americans, discovering the details of the crimes and the search for the person who committed them. Additional information is presented through engaging sidebars and eye-catching fact boxes. Historical and contemporary photographs, including primary source images, help readers place themselves in the middle of one of the most famous unsolved mysteries in American history.

Party Monster

A Fabulous But True Tale of Murder in Clubland

Simon and Schuster The author reveals the New York Club scene at its worst as he relates his involvement with Michael Alig, a Midwest nerd who became a leading club promoter and eventually found trouble after killing a drug dealer.

Wildlife in a Changing World

An Analysis of the 2008 IUCN Red List of Threatened Species

IUCN *Wildlife in a Changing World* presents an analysis of the 2008 IUCN Red List of Threatened Species. Beginning with an explanation of the IUCN Red List as a key conservation tool, it goes on to discuss the state of the world's species and provides the latest information on the patterns of species facing extinction in some of the most important ecosystems in the world, highlighting the reasons behind their declining status. Areas of focus in the report include: freshwater biodiversity, the status of the world's marine species, species susceptibility to climate change impacts, the Mediterranean biodiversity hot spot, and broadening the coverage of biodiversity assessments.

I've Been Watching You

The South Louisiana Serial Killer

AuthorHouse *Fury in the Shadow* is a suspense thriller. Murdock McCabe is station chief for Veritus Investigations in Portland, Oregon. When a member of his staff is murdered, he is drawn into a web of intrigue that leads him across Oregon, Washington, and the Mosquito Coast of Honduras. He meets Hannah, owner of the Blue Fish Pub. Their affection for each other becomes deadly serious as they are drawn into the vortex of a maelstrom of money, deceit, sex, and terror percolating from an opaque organization that even al Qaeda fears. As Murdock learns, any of us can be lulled by its ingenious mask of respectability and sucked by the mystery that surrounds it into the shadow of its fatal attraction.

Just a Dog

Understanding Animal Cruelty and Ourselves

Temple University Press How can we make sense of acts of cruelty towards animals?

Zodiac

Nejnebezpečnější ze všech zvířat

Grada Publishing, a.s. Ve svých devětatřiceti letech se Gary Stewart setkal s biologickou matkou a začal pátrat i po tom, kdo je nebo byl jeho otec. Po dvou letech v něm začalo klíčit hrůzné podezření - jeho otec rozhodně nebyl dobrý člověk. Přes pochyby, zda se vůbec chce dozvědět něco dalšího, investoval další roky do pátrání a po dvanácti letech prohlašuje: „Jsem si naprosto jistý, že můj otec byl Zodiac.“ Spolu s osvědčenou autorkou zaměřenou na kriminalistiku sepsal vše, co během let zjistil, a předkládá světu zbeletrizovaný portrét svého otce, jeho profil, traumata a způsob myšlení. Předkládá i fakta, která ho dovedla k hrůznému poznání.

Zodiac Unmasked

The Identity of America's Most Elusive Serial Killer Revealed

Penguin Robert Graysmith reveals the true identity of Zodiac—America's most elusive serial killer. Between December 1968 and October 1969 a hooded serial killer called Zodiac terrorized San Francisco. Claiming responsibility for thirty-seven murders, he manipulated the media with warnings, dares, and bizarre cryptograms that baffled FBI code-breakers. Then as suddenly as the murders began, Zodiac disappeared into the Bay Area fog. After painstaking investigation and more than thirty years of research, Robert Graysmith finally exposes Zodiac's true identity. With overwhelming evidence he reveals the twisted private life that led to the crimes, and provides startling theories as to why they stopped. America's greatest unsolved mystery has finally been solved. INCLUDES PHOTOS AND A COMPLETE REPRODUCTION OF ZODIAC'S LETTERS

Zodiac

Berkley Publishing Group Horrifying in a way no fiction can be, Zodiac is the gripping story of the serial murderer who terrorized the San Francisco bay area from 1966 to 1978. The book contains reproductions of the killer's communiques to the police as well as the author's own chilling speculations on Zodiac's true identity--and his whereabouts today. Martin's.

Unsolved Murders

Dorling Kindersley Ltd Ever wondered who murdered JonBenét Ramsey, or who terrorized San Francisco as the Zodiac Killer? Puzzled over the notorious Black Dahlia murder, or the shootings of Tupac Shakur and Biggie Smalls? This true crime anthology collects together some of the most intriguing unsolved murders in the world-cases that have baffled investigators for decade after decade. Sorting the facts from the speculation, Unsolved Murders: True Crime Cases Uncovered concisely explores each case, detailing essential evidence, profiles of suspects, and the twists and turns of police investigations. From domestic tragedies to sadistic serial killers, this book will have you returning to these cases again and again. Examine the evidence and decide for yourself: Who could have done it?

The Last Akaway

A Spirit Animal Adventure

Greenleaf Book Group Llc What's an Akaway? An Akaway is a rare and magical creature that connects you to your spirit animal. Once you've connected, you have all the special powers that your spirit animal possesses. But those powers are in serious jeopardy when the diabolical Uncle Skeeta tricks 11-year-old Brody Boondoggle into helping him steal the Akaway's spirit. Now, aided by his skeptical big brother, Jake, and guided by his quirky Grammy, Brody must lead the way on an adventure to defeat Uncle Skeeta, save the last Akaway, and protect the special powers of kids everywhere.

The End of the Zodiac Mystery

How Forensic Science Helped Solve One of the Most Infamous Serial Killer Cases of the Century

The Most Dangerous Animal of All was co-written by the estranged son of California's infamous Zodiac killer to reveal his father's true identity. When the book hit the streets the skeptics were in full force. Just like those who mocked the boy who cried wolf, no one could blame them. Too many people had already claimed to either be the killer or to know who he really was. The problem is-the skeptics weren't considering the handwriting comparisons skillfully performed

by Document Examiner, Michael Wakshull, to finally crack the case. The End of the Zodiac Mystery will enable you to reach your own conclusion whether this decades-long cold case has finally been solved. In it, Wakshull walks you step-by-step through his intriguing forensic analysis, revealing the methodology he used to solve the case other document examiners refused to accept. There is a twist to every story, and his methodology required a twist, too, in order to ensure a credible conclusion. Where The Most Dangerous Animal of All leaves off, The End of the Zodiac Mystery picks up, sharing actual handwriting comparisons between Earl Van Best Jr. and the self-named Zodiac killer. It is virtually certain the documents were written by the same man. If you like surprise endings, don't start reading from the back of the book. Save the thrill in the epilogue for the end!

My Life in Dog Years

Yearling Gary Paulsen has owned dozens of unforgettable and amazing dogs, and here are his favorites--one to a chapter. Among them are Snowball, the puppy he owned as a boy in the Philippines; Ike, his mysterious hunting companion; Electric Fred and his best friend, Pig; Dirk, the grim protector; and Josh, one of the remarkable border collies working on Paulsen's ranch today. My Life in Dog Years is a book for every dog lover and every Paulsen fan--a perfect combination that shows vividly the joy and wisdom that come from growing up with man's best friend.

The Secret Zoo: Riddles and Danger

Harper Collins Noah, Megan, Richie, and Ella are the Action Scouts; friends whose tree house overlooks the Clarksville City Zoo. When they discover a magical world hidden within the zoo, they are swept away on an adventure in which penguins can fly, a mysterious figure lurks in the shadows, and the scouts are enlisted to help Mr. Darby, who is in charge of the Secret Zoo. But will the scouts be able to fight against the dangerous sasquatches who have escaped the zoo and threaten their town? There's only one way to find out if the four friends training as Crossers can help save the Secret Zoo.

Shooting Zodiac

Monkey's Paw Publishing, Inc. From the Bestselling Author of 'Zodiac' , 'Auto Focus' and 'Black Fire'. DAVID FINCHER WAS AFTER THE TRUTH. WITHOUT IT, HE WOULD NOT SHOOT ZODIAC. For nearly two decades, Hollywood had been trying to make a movie of Zodiac, and for nearly two decades, it had failed. In 2003, producer Brad Fischer, and screenwriter Jamie Vanderbilt attempted the undoable, and set their sights on the one filmmaker they felt unequalled for the helm: director David Fincher (Se7en, Fight Club). Fincher's eye for detail, probing mind, and unrelenting quest for answers made him ideal. His personal connection to the case made him perfect. From Hollywood boardrooms to remote fog-shrouded crime scenes, they battle a huge script that refuses to be beaten, a case that refuses to be solved, and a running time and budget that threaten their film. Follow as they track down missing witnesses, gather the original investigators, visit the original crime scenes, discover boxes of Zodiac case files from an attic, unearth new clues, a videotape of the prime suspect's police interrogation, and a surviving victim who doesn't want to be found. To keep Fincher on board, and get their film greenlit, it will take cold leads, private eyes, new evidence, and most of all, perseverance. "He's hooked. If he doesn't make the film, he'll solve the case." —Detective Ken Narlow "SOMETHING DRAWS THE GIRL'S attention," David Fincher said. The maverick director paused at the spot along the shore Captain Ken Narlow had indicated. Something was not right. Fincher looked down at the rocky ground and the steep slope of the rotting tree as if he had not seen them before. Without a word he wheeled and walked some distance around to the adjacent peninsula. The retired detectives watched the celebrated filmmaker follow the curve of land and circle to a little inlet on the other bank. His head was down as he took long, athletic strides. Suddenly, he knelt and studied the ground. He picked up a fistful of earth, let it drift between his fingers, and watched as the wind carried the reddish particles away. He looked up at the road high above where the victims' car had been found, then looked back at the tree. Next, he tossed a few rocks in the air and gazed to the center of the lake where it was a couple hundred feet deep. Fincher wondered what other mysteries might be buried there. Further up, underneath the dam at Devil's Gate, was the narrow point of Putah Creek. Fincher returned from his scouting trip and made an announcement. His voice was confident and clear, ringing out over the lake. "The other side of the little island out there is much more vertical than this side," he said. "I think that is the actual murder site." "Let's go over and take a look," Narlow said and started north with Jamie Vanderbilt. "I'm not one hundred percent convinced this is the place." When Narlow reached the other side of the inlet, he clapped a hand to his forehead and then hailed Fincher and the rest of the men across the water. "My God!" he hollered, "I took you to the wrong spot!" In that arcane way he had of penetrating to the heart of a riddle, Fincher had discerned the truth. He became quiet as he began working the puzzle of the open taxi door, the blood that should have been elsewhere, a bloody print that belonged to no one, and the shot nobody heard. "David's considered one of the touchiest and weirdest directors by executives, but as a writer I consider him the nicest and most normal of them all. But maybe the same thing that is wrong with him is wrong with me." —Jamie Vanderbilt, screenwriter

Hunting the Unabomber

The FBI, Ted Kaczynski, and the Capture of America's Most Notorious Domestic Terrorist

Thomas Nelson The spellbinding account of the most complex and captivating manhunt in American history. "A true-crime masterpiece." -- Booklist (starred review) On April 3, 1996, a team of FBI agents closed in on an isolated cabin in remote Montana, marking the end of the longest and most expensive investigation in FBI history. The cabin's lone inhabitant was a former mathematics prodigy and professor who had abandoned society decades earlier. Few people knew his name, Theodore Kaczynski, but everyone knew the mayhem and death associated with his nickname: the Unabomber. For two decades, Kaczynski had masterminded a campaign of random terror, killing and maiming innocent people through bombs sent in untraceable packages. The FBI task force charged with finding the perpetrator of these horrifying crimes grew to 150 people, yet his identity remained a maddening mystery. Then, in 1995, a "manifesto" from the Unabomber was published in the New York Times and Washington Post, resulting in a cascade of tips-- including the one that cracked the case. **Hunting the Unabomber includes: Exclusive interviews with key law enforcement agents who attempted to track down Kaczynski, correcting the history distorted by earlier films and streaming series Never-before-told stories of inter-agency law enforcement conflicts that changed the course of the investigation An in-depth, behind-the-scenes look at why the hunt for the Unabomber was almost shut down by the FBI New York Times bestselling author and former federal prosecutor Lis Wiehl meticulously reconstructs the white-knuckle, tension-filled hunt to identify and capture the mysterious killer. This is a can't-miss, true crime thriller of the years-long battle of wits between the FBI and the brilliant-but-criminally insane Ted Kaczynski. "A powerful dual narrative of the unfolding investigation and the life story of Ted Kaczynski...The action progresses with drama and nail-biting intensity, the conclusion foregone yet nonetheless compelling. A true-crime masterpiece." -- Booklist (starred review)**

WHO Guidelines for Indoor Air Quality

Selected Pollutants

World Health Organization This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of environmental exposures, as well as specialists and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards.

Rock Bottom and Back

Mascot Books **Rock Bottom and Back: From Desperation to Inspiration** depicts the incredible lives of twenty-two people who hit rock bottom and then came back from profound despair to help others in extraordinary ways. Written by New York Times bestselling author Susan Mustafa with Earl B. Heard, **Rock Bottom and Back** exemplifies the trials that many of us experience on our journey through life. Featuring celebrities as well as ordinary people, **Rock Bottom and Back** reveals the tragedy of reaching bottom through loss, trauma, alcoholism, and drug, sex, and gambling addictions. This compilation provides inspiration and hope by illustrating that recovery and success are possible through living in service to others.

It Was Always ME!

Edward Edwards the Most Prolific Serial Killer of All Time

Forget everything you thought you thought you knew about the most publicly covered murders of our time. The evidence leads to one man committing the most chilling and widely known murders that have captivated the public's interest and caused terror throughout our communities including the Zodiac killings. Based on the investigation by veteran detective John Cameron and others contained in this book, Edward Edwards is also now linked to the murder of JonBenet Ramsey, the Black Dahlia, and Laci Peterson for which he set up Scott Peterson who is currently on death row for killing her. The evidence also strongly suggests that he killed JonBenet Ramsay and that he framed the parents whom were later exonerated.

Occasional and Controlled Heroin Use

Not a Problem?

Policy Press There is a popular belief that the pharmacological properties of heroin draw users inexorably towards regular dependent use and personal degeneration. However, there is evidence that some people manage long-term use without falling into chaotic, or even dependent, using patterns. These users tend to be excluded from studies of drug use, which typically draw participants from treatment services or from the criminal justice system, and little is known either about the risks that they face or the methods they use to manage their heroin use. This report is based on a study of users who manage their long-term heroin use. It documents the users' perception of their heroin use as non-problematic and outlines how they controlled the drug - such as not-injecting, limiting the days on which they used heroin and not buying the drug if they did not have the money - and their reasons for controlling its use. The report also discusses the circumstances surrounding the users' initiation into drug use, particularly heroin, and examines the influence of cultural, social and economic factors on their habit. Occasional and controlled heroin use suggests that sustained heroin use does not necessarily lead to dependency and, where it does, it does not always cause major problems. The authors argue that much public and policy understanding of heroin use is grounded in inaccurate and narrow stereotypes and suggest that the techniques used by non-problematic heroin users could be used to inform conventional treatment services for those with drug problems that are out of control.

The Impressionist

Destiny Image Publishers "Dr. Clinton's novella will encourage, inspire and challenge you to greatness." Pat Williams, Orlando Magic senior vice president, Author of Coach Wooden's Greatest Secret "This book is so compelling that I skipped an NFL playoff game because I could not stop reading. This story will instruct and inspire." —Michael Lyles M.D., Christian psychiatrist, author and speaker "The Impressionist causes us to face the truth about ourselves and our desperate need for a Savior." —Liz Curtis Higgs, New York Times bestselling author of Mine is the Night Middle aged, disappointed and self-loathing, Adam Camp is anything but the picture of a successful man. With his wife threatening to leave him and their son addicted to drugs, Adam teeters on the verge of absolute despair—questioning his own existence and purpose for living. After an explosive argument with his wife, Adam searches for an escape as he sets out on a journey that will dramatically recolor his world. While walking through the city park, Adam is approached by an old painter. The mysterious artist convinces Adam to let him paint his portrait and what happens next is nothing short of a masterpiece. "Combine the insights of Tim Clinton and the storytelling of Max Davis, and what you get is a wonderfully entertaining glimpse into the very soul of human existence." —Mark Gilroy, bestselling author Cuts Like a Knife and Every Breath You Take "The Impressionist is one of those rare books that tugs on your heartstrings, unveiling things deep within your soul, things you didn't even know were there. Anticipate it and savor it!" —Larry J. Koenig, Ph.D., Author of Smart Discipline and Mental Toughness: the Path to Extraordinary Success in Life "Transformation is waiting to be unlocked in these pages!" —Margaret Feinberg, author of Wonderstruck "...a heart-warming story of hope and redemption." --Max Lucado, pastor and NY Times bestselling author

Biomechanics VII

Proceedings of the Seventh International Congress of Biomechanics, Warsaw, Poland

Leadership in Organizations

This book is about leadership in organizations. The primary focus is on managerial leadership, as opposed to parliamentary leadership, leadership of social movements, or informal leadership in peer groups. The book presents a broad survey of theory and research on leadership in formal organizations. The topic of leadership effectiveness is of special interest.

Killer Data

Modern Perspectives on Serial Murder

Routledge Killer Data examines the phenomenon of serial murder using data collected from international sources to review offender patterning with a focus on contemporary cases. This type of attention will allow for a broader understanding of modern-day serial murderers and will help to dispel some of the myths that surround offenders. The current serial murder classification scheme incorrectly types serial murderers as supremely intelligent killing machines while discounting their socialization, experiences, and choices. This book exposes serial murderers as run-of-the-mill hometown losers, who brutalize women, and are lucky to escape apprehension. Like other atypical homicide offenders, modern-day serial murderers are propelled forward by a deep sense of entitlement, easy access to firearms, and a nonchalant attitude toward using murder to attain their goals. Readers should come away with a deeper understanding not of the ultra-rare or the "deadliest" serial murderers but of the more common offenders who pose a consistent threat to day-to-day life. The book utilizes the Consolidated Serial Homicide Offender Database, one of the largest and most robust open access databases of multiple murders available, presenting new thinking on areas such as: myths and stereotypes the impact of entertainment on the perception of serial murder inaccurate prevalence estimates spree/serial hybrid offenders the classification of two and three victim serial murderers how serial murderers pursue longevity the characteristics of aspiring serial murderers whether hit men and gang members are serial murderers if and why serial murder is in a state of decline how many serial murderers are responsible for the homicides that sent innocent people to prison luck as a factor of "success" for serial murderers. These findings are illustrated with 200 narrative vignettes of serial murder series that occurred between 2011 and 2021, such as Itzcoatl Ocampo, Charles Severance, Nikko Jenkins, and Pamela Hupp, offenders who may be unfamiliar to many but represent the next iteration of the serial murderer. Correcting decades of flawed assumptions about serial murderers, and written in an accessible and concise style, Killer Data is essential reading for students and scholars of criminal justice and criminology, law enforcement professionals, and the interested general reader.

Biosafety in Microbiological and Biomedical Laboratories

What's the Use?

The Unreasonable Effectiveness of Mathematics

Profile Books 'Stewart is Britain's most brilliant and prolific populariser of maths' Alex Bellos 'The instructive equivalent of a Michelin-starred tasting menu' Tim Radford Many people think mathematics is useless. They're wrong. In the UK, the 2.8 million people employed in mathematical science occupations contributed £208 billion to the economy in a single year - that's 10 per cent of the workforce contributing 16 per cent of the economy. What's the Use? asks why there is such a vast gulf between public perceptions of mathematics and reality. It shows how mathematics is vital, often in surprising ways, behind the scenes of daily life. How politicians pick their voters. How an absurd little puzzle solved 300 years ago leads to efficient methods for kidney transplants. And how a bizarre, infinitely wiggly curve helps to optimise deliveries to your door.

Clinical Practice Guidelines For Chronic Kidney Disease

Encyclopedia of Animal Rights and Animal Welfare

Routledge Human beings' responsibility to and for their fellow animals has become an increasingly controversial subject. This book provides a provocative overview of the many different perspectives on the issues of animal rights and animal welfare in an easy-to-use encyclopedic format. Original contributions, from over 125 well-known philosophers, biologists, and psychologists in this field, create a well-balanced and multi-disciplinary work. Users will be able to examine critically the varied angles and arguments and gain a better understanding of the history and development of animal rights and animal protectionist movements around the world. Outstanding Reference Source Best Reference Source

Ethics for A-Level

Open Book Publishers What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-

chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

Thoracic Surgical Oncology

Exposures and Techniques

Lippincott Raven Featuring more than 400 illustrations, this volume demonstrates the surgical procedures used to treat thoracic malignancies and the anatomic structures and relationships encountered during each procedure. It is the first text to combine meticulous surgeon's-eye drawings of thoracic anatomy with step-by-step presentations of specific open and thoracoscopic techniques for the lung, mediastinum, trachea, chest wall, spine, and esophagus. The illustrations, drawn by Dr. Wind, are derived from intraoperative experiences, operative photographs, and cadaver dissections. They clarify the complex arrangement of intrathoracic structures in the presence of an invasive tumor. Alongside the drawings are instructions on technique, plus commentaries by expert consulting editors.

Black Dahlia Avenger

A Genius for Murder

Arcade Publishing On January 15, 1947, the body of beautiful 22-year-old Elizabeth Short--dubbed the Black Dahlia because of her black clothing and the dahlia she wore--was discovered in a lot in downtown Los Angeles. More than 50 years after what has been called the most notorious unsolved murder of the 20th century, the case has finally been solved. 8-page photo insert.

Kant and Animals

Oxford University Press, USA This is the first edited collection devoted entirely to the question of the role of animals in the thought of Immanuel Kant. Though the topic is not one treated systematically in his work, mentions of animals occur throughout his corpus in relation to many of his central concerns. In this volume, a team of leading scholars address issues ranging over Kant's theoretical and practical philosophy, including questions regarding the possibility of objective representation and intentionality in animals, the role of animals in Kant's scientific picture of nature, the status of our moral responsibilities to animals' welfare, and more. It also includes chapters concerning contemporary questions relating to animals and Kantian ethics and metaethics, making a use of Kant's philosophy to help contend with one of the most crucial ethics issues facing us today.

Manson

The Life and Times of Charles Manson

Simon and Schuster An account of one of the most notorious criminals in American history puts Manson in the context of his times, the turbulent end of the 1960s, revealing a rock star wannabe whose killings were directly related to his musical ambitions.

Bad Bug Book

Foodborne Pathogenic Microorganisms and Natural Toxins Handbook

Createspace Independent Publishing Platform The Bad Bug Book 2nd Edition, released in 2012, provides current information about the major known agents that cause foodborne illness. Each chapter in this book is about a pathogen—a bacterium, virus, or parasite—or a natural toxin that can contaminate food and cause illness. The book contains scientific and technical information about the major pathogens that cause these kinds of illnesses. A separate “consumer box” in each chapter provides non-technical information, in everyday language. The boxes describe plainly what can make you sick and, more important, how to prevent it. The information provided in this handbook is abbreviated and general in nature, and is intended for practical use. It is not intended to be a comprehensive scientific or clinical reference. The Bad Bug Book is published by the Center for Food Safety and Applied Nutrition (CFSAN) of the Food and Drug Administration (FDA), U.S. Department of Health and Human Services.

Charlotte's Web

HarperCollins Don't miss one of America's top 100 most-loved novels, selected by PBS's The Great American Read. This beloved book by E. B. White, author of *Stuart Little* and *The Trumpet of the Swan*, is a classic of children's literature that is "just about perfect." Illustrations in this ebook appear in vibrant full color on a full-color device and in rich black-and-white on all other devices. Some Pig. Humble. Radiant. These are the words in *Charlotte's Web*, high up in Zuckerman's barn. Charlotte's spiderweb tells of her feelings for a little pig named Wilbur, who simply wants a friend. They also express the love of a girl named Fern, who saved Wilbur's life when he was born the runt of his litter. E. B. White's Newbery Honor Book is a tender novel of friendship, love, life, and death that will continue to be enjoyed by generations to come. It contains illustrations by Garth Williams, the acclaimed illustrator of E. B. White's *Stuart Little* and Laura Ingalls Wilder's *Little House* series, among many other books. Whether enjoyed in the classroom or for homeschooling or independent reading, *Charlotte's Web* is a proven favorite.
