A Child Sees God

Children Talk About Bible Stories

Jessica Kingsley Publishers In *A Child Sees God*, Howard Worsley explores how we can all learn from a child's perspective of the world and shows how a child's eye view of the Bible reveals many interesting ideas about ethics and morality, and provides new ways of understanding these ancient stories. By asking families to read Bible stories to their children and discuss these stories with them, recording the ensuing conversations, Howard Worsley offers not only fresh insights into the meaning and significance of these stories but also reflections on how adults can use the Biblical text in the company of children at different stages of development. Following the theory that all stories ever written fall into one of seven categories, this book shows that the themes of the Bible are no different, dividing stories into sections containing texts of wonder, adventure and leadership, terror, justice and judgement, comfort and hope, comedy, and mercy and forgiveness. This fresh look at the Bible through the eyes of children will be a fascinating read for parents, teachers, ministers, and anyone with an interest in child spirituality or ethics.

Juergen Teller

Donkey Man and Other Stories

Rizzoli Publications Annotated in his wry, inimitable voice, Juergen Teller presents over three decades of fashion and editorial work in a groundbreaking volume that combines photography, collage, and candid (and often humorous) autobiography. One of the most influential photographers working today, Juergen Teller creates images that are instantly recognizable. Raw, often overexposed and displaying a spontaneity and candor, Teller's visual language reflects a measured yet uncompromising sense of rebellion. This book includes landmark editorials with nearly every important fashion label of the era and celebrities from Kate Moss to Charlotte Rampling and Kurt Cobain to Yves Saint Laurent. Outtakes of iconic shoots (including infamous ones with Courtney Love, Cindy Sherman, Marc Jacobs, Victoria Beckham, and Björk) that have never been published will be included in this volume. Teller first broke into fashion in 1996 with a magazine cover of a naked Kristen McMenamy with the word Versace scrawled across her chest. Since then, his fashion photography has been featured in all the international Vogues, *AnOther Magazine*, *Index*, *Self-Service*, *W*, *Details*, *Purple*, *i-D*, and *032c*, among others. A highly sought-after cult hero and the author of many iconic

campaigns, Teller has collaborated with the likes of Helmut Lang, Raf Simons, Hedi Slimane, Nicolas Ghesquière, Phoebe Philo, Vivienne Westwood, Miuccia Prada, and Isabel Marant, and shot every season of Marc Jacobs's ready-to-wear collections from 1998 to 2014.

It synthesizes in one volume the latest scholarly positions on the construction, interpretation, clarification, obscurity, illustration, amplification, simplification, negotiation, contradiction, contraction and paraphrasing of meaning, and the various concepts, analyses, methodologies and technologies that underpin their study. It examines not only semantics but the impact of semantic study on related fields such as morphology, syntax, and typologically oriented studies such as 'grammatical semantics', where semantics has made a considerable contribution to our understanding of verbal categories like tense or aspect, nominal categories like case or possession, clausal categories like causatives, comparatives, or conditionals, and discourse phenomena like reference and anaphora. COSE also examines lexical semantics and its relation to syntax, pragmatics, and cognitive linguistics; and the study of how 'logical semantics' develops and thrives, often in interaction with computational linguistics. The Sad Story of Burton, Speke, and the Nile, Or, Was John Hanning Speke a Cad?

Looking at the Evidence

Stanford University Press This is a study of the famous controversy between Richard Burton and John Hanning Speke, fellow explorers who quarreled over Speke's claim to have discovered the source of the Nile during their African expedition in 1857-59. Speke died of a gunshot wound, probably accidental, the day before a scheduled debate with Burton in 1864. Burton has had the upper hand in subsequent accounts. Speke has been called a "cad." In light of new evidence and after a careful reading of duelling texts, Carnochan concludes that the case against Speke remains unproven-and that the story, as normally told, displays the inescapable uncertainty of historical narrative. All was fair in this love-war.
