KEY=TERRORISM - FRANCIS MORSE

Encyclopedia of Terrorism, Revised Edition

Infobase Publishing Presents a reference guide to terrorism throughout the world, including history, terrorist groups, and notorious acts of terrorism.

International Encyclopedia of Terrorism

Routledge This timely reference book places the growing 20th century phenomenon of terrorism in an historical context. Starting with the use of assassination in Ancient Greece and including the recent bombing of the American military complex in Dhahran, Saudi Arabia, this encyclopedia covers the globe in its presentation of all aspects of terrorism: history, theories of, types of, and responses to, as well methods and techniques. There is a chronology of major terrorist events from 1945, an A to Z listing of terrorist groups and leaders, a select bibliography, and indexes (general, name, and geographical).

World Terrorism: An Encyclopedia of Political Violence from Ancient Times to the Post-9/11 Era

An Encyclopedia of Political Violence from Ancient Times to the Post-9/11 Era

Routledge This is a 3-volume book. First Published in 2015. Routledge is an imprint of Taylor & Francis, an Informa company.

Modern American Extremism and Domestic Terrorism: An Encyclopedia of Extremists and Extremist Groups

ABC-CLIO Highlighting a breadth of American individuals and groups that have engaged in extremist behavior across history, this book provides a succinct and concise overview of extremist behavior in the past and examines the increasingly common incidences of hate and extremism in our country today. • Helps readers to understand the growing reaction against liberal political policies in the United States • Provides insight into the motivations of individuals and groups that insist that the character and culture of the United States has been fundamentally changed by unchecked immigration policies that are, even now, damaging the United States • Highlights major extremist events that illustrate extremist ideologies in action • Acknowledges and documents the origins of the anger felt by many extremists that they are being "left behind" in modern America

Encyclopedia of Terrorism

ABC-CLIO Catalogs groups, individuals, and incidents that have been associated with violent extremism.

Encyclopedia of World Terrorism

Routledge This three-volume reference on terrorism in the 20th century places this growing phenomenon in the context of modern history. It provides students with both detailed information and the historical perspective tie terrorism to the high school and college curriculum. "Volume 1" defines terrorism, explores the historical perspective from the dawn of Western Civilisation through World War II, and discusses specific activities of modern terrorist groups. "Volume 2" focuses on the developing world, with emphasis on the Middle East (including the 1996 peace process). "Volume 3" explores terrorism and responses to terrorism in the developed world. This volume covers the United States, Europe, Israel, Britain, Central and South America and concludes with a chronology of major terrorist events since 1945, an A-Z listing of terrorist groups and leaders, and a select bibliography.

World Terrorism

An Encyclopedia of Political Violence from Ancient Times to the Post-9/11 Era

This reference offers the most complete and authoritative resource on one of the most critical issues in the world today. Articles cover the broad sweep of political violence throughout history; groups, causes, and incidents in countries and regions across the globe; underlying issues of definition and viewpoint; the tactics, methods, and aim of modern terrorists; and approaches to counter-terrorism.

The SAGE Encyclopedia of Terrorism, Second Edition

SAGE This thoroughly updated edition with expanded coverage explores the impact of terrorism on economics, public health, religion and pop culture, and also includes details of ethical issues and debates relating to terrorism.

Encyclopedia of Terrorism and Political Violence

Routledge Kegan & Paul

World terrorism : an encyclopedia of political violence from ancient times to the post-9/11 era. 1

World Terrorism

An Encyclopedia of Political Violence from Ancient Times to the Post-9/11 Era

Provides the definitive reference resource on terrorism throughout the world from Ancient Greece and Rome to the post-September 11 world. The set includes more than 200 in-depth articles and provides students with essential background on the various catagories of Terrorism.

Encyclopedia of Terrorism

SAGE Publications, Incorporated "The author, a renowned terrorism expert and chair of the Department of Criminal Justice at Long Island University in New York City, is a frequent commentator on CNN. He has produced an engaging single-volume encyclopedia, with over 300 entries, on the subject of terrorism worldwide. Appendixes include a chronology of terrorism from 1865 to the present, a list of web resources, an extensive bibliography, and maps noting the locations of terrorist activities around the world."--"The Top 20 Reference Titles of the Year," American Libraries, May 2004.

Terrorism

Greenhaven Publishing LLC This encyclopedia provides information on individuals, groups, places, events, and issues related to terrorism in the United States and internationally. Readers will learn about state-sponsored terrorism, religious terrorism, right-wing and left-wing terrorism. Entries include coverage on terrorist leaders and terrorist organizations as well as entries on the people, agencies, and organizations that are specialized in fighting terrorism.

Encyclopedia of Terrorism

The ongoing conflicts in the Middle East and the bombings overseas have shown that.

Encyclopedia of Terrorism

Encyclopedia of World Terrorism: 1996-2002

Routledge This work examines terrorist activity worldwide from the mid-1990s to the 21st century. It covers the attack on the World Trade Center, the "War on Terrorism", and the escalating violence in Israel and Palestine, offering historical context by terrorism and counter-terrorism experts. It investigates key issues and events related to global and domestic terrorism, as well as future trends in terrorism and counter-terrorism. The work includes entries on terrorist individuals, organizations, and activities around the globe, and also features a complete volume of primary source documents relating to terrorism from ancient times to the 21st century.

Encyclopedia of World Terrorism: Documents

The Complete Encyclopedia of Terrorist Organisations

Casemate Pub & Book Dist Llc The Encyclopedia of Terrorist Organizations is a comprehensive guide to terrorist organizations past and present showing the name of each group's background and history. Readers may be surprised to learn that there are so many terrorist organizations actually based in the United States. This book gives the reader background information on these groupings and discusses their motivations for taking to the gun as a means of trying to affect change. One man's terrorist is another man's freedom fighter is a well-known expression. Some of the main groups covered include the Taliban in Afghanistan, Aryan Nations - a white supremacy group in the United States, and Hezbollah in the Middle East. The groups covered also have associated organizations that are included in the encyclopedia. This book provides an understanding on how they operate, their ideology, their motivation, and what makes one group tick and another tock. Paul Ashley served for over twenty eight years with British Armed Forces. In the last five years of his service life he was a Resistance to Interrogation Instructor, De-briefer and Hostage Survival Instructor. Since leaving the armed forces he was invited to Iraq where he worked as a private security contractor. **REVIEWS** This concise encyclopedia outlines key facts about hundreds of organizations with political aims that they are willing to pursue violently... Organized alphabetically, each entry notes the region of operation, national affiliation if any, and a detailed gloss explaining their background and motivating ideology. **Book News Ashley**, who served with the British Armed Forces and worked in Iraq as a security advisor, created this directory of known terrorist organizations. Alphabetically arranged, the short entries cover the various organizations' ideologies, countries and continents, histories, and significant terrorist activities. Ashley profiles a wide variety of organizations, including such well-known groups as al Qaeda and Shining Path, defunct groups such as Cuban Omega 7, government opposition groups such as the Patriotic Union of Kurdistan, and organizations for which little is known, such as Sweden's Revolutionary Socialists. Particularly useful are the descriptions of lesser-known American groups, such as the Republic of Texas, that employ nonviolent tactics, including instigating fraudulent legal actions or creating fake government documents to terrorize victims. **worthwhile CHOICE** useful book for anyone interested in national security **The NYMAS Review**

Encyclopedia of World Terrorism, 1996-2002

The War on Terror Encyclopedia: From the Rise of Al-Qaeda to 9/11 and Beyond

From the Rise of Al-Qaeda to 9/11 and Beyond

ABC-CLIO This fascinating reference chronicles the individuals, operations, and events of the War on Terror around the world, exploring its causes and consequences through the lens of policy, doctrine, and tactics of combat. • Features a timeline that enables readers to quickly grasp the succession of key events and developments in the War on Terror • Highlights specific individuals on both sides of this conflict, providing an objective and fair-minded approach to the topic • Provides a bibliography that directs students toward additional sources of information for further research • Connects related entries through helpful cross references

Encyclopedia of world terrorism

Encyclopedia of Terrorism: A-L

A valuable, up-to-date reference tool for understanding the latest developments in national and international terrorism-one of the most pressing security challenges facing the world today.

Encyclopedia of Violence, Peace, and Conflict

Academic Press The 2nd edition of Encyclopedia of Violence, Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life. Building on the highly-regarded 1st edition (1999), and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over, the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies, and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change. Covering topics as diverse as Arms Control, Peace Movements, Child Abuse, Folklore, Terrorism and Political Assassinations, the Encyclopedia comprehensively addresses an extensive information area in 225 multi-disciplinary, cross-referenced and authoritatively authored articles. In his Preface to the 1st edition, Editor-in-Chief Lester Kurtz wrote: "The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately. We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully. Instead, we have increased the lethality of our combat through revolutions in weapons technology and military training. The Encyclopedia of Violence, Peace, and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena." Ten years on, the need for an authoritative and cross-disciplinary approach to the great issues of violence and peace seems greater than ever. More than 200 authoritative multidisciplinary articles in a 3-volume set Many brand-new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world

Encyclopedia of Terrorist, Natural, and Man-made Disasters

Jones & Bartlett Learning Encyclopedia of Terrorist, Natural, and Man-Made Disasters is the first and only reference compiling all major toxicological incidents, both man-made and environmental in nature. Many of the man-made incidents resulting from occupational or industrial accidents have also led to environmental contamination, illness, and death for a great number of victims. Now for the first time, these occurrences with hazardous material are documented in a single index -- Encyclopedia of Terrorist, Natural, and Man-Made Disasters. An ideal resource for emergency physicians, EMS professionals, public health professionals, and toxicologists, this encyclopedia describes incidents that can be traced through history. Each event has been researched and reference citations are included. With over 1200 entries, the entire encyclopedia can be searched by source, date, or type of disaster! Book includes a CD-ROM!

World Book Focus on Terrorism

World Book .com A compendium of articles which deal with aspects of terrorism, including its history, the September 11, 2001 attacks, balancing civil rights and national security, and terrorist methods and weapons.

Global Jihadist Terrorism

Terrorist Groups, Zones of Armed Conflict and National Counter-Terrorism Strategies

Edward Elgar Publishing This insightful book provides a unified repository of information on jihadist terrorism. Offering an integrated treatment of terrorist groups, zones of armed conflict and counter-terrorism responses from liberal democratic states, it presents fresh empirical perspectives on the origins and progression of conflict, and contemporary global measures to combat terrorist activity.

Encyclopedia of Social Problems

SAGE From terrorism to social inequality and from health care to environmental issues, social problems affect us all. The Encyclopedia will offer an interdisciplinary perspective into these and many other social problems that are a continuing concern in our lives, whether we confront them on a personal, local, regional, national, or global level.

Disciplining Terror

How Experts Invented 'Terrorism'

[Cambridge University Press](#) Since 9/11, we have been told that terrorists are pathological evildoers. Yet before the 1970s, hijackings, assassinations, and other acts now called 'terrorism' were considered the work of rational actors. *Disciplining Terror* explains how political violence became 'terrorism', and how this transformation ultimately led to the current 'war on terror'.

Handbook of Terrorism and Counter Terrorism Post 9/11

[Edward Elgar Publishing](#) Almost two decades after the events of 9/11, this *Handbook* offers a comprehensive insight into the evolution and development of terrorism and insurgency since then. Gathering contributions from a broad range of perspectives, it both identifies new technological developments in terrorism and insurgency, and addresses the distinct state responses to the threat of political, or religiously motivated violence; not only in the Middle East and Europe, but also in Africa, South and Southeast Asia, and North and South America.

The Complete Encyclopedia of Terrorist Organisations

The First Complete Listing of Terror in Print

[Flashpoint Press](#) "So, you think you know everything there is to know about the invasion of Iraq? Well, think again. In *The War on Truth*, internationally acclaimed investigative journalist, author and filmmaker Neil Mackay exposes what really lay behind the occupation of Iraq as well as the truth about what is happening there today." "Mackay draws on his sources within British and American intelligence and four years spent investigating the roots of the war, the invasion and the occupation. In this highly accessible, no-holds-barred polemic, an arsenal of incendiary facts, scoops and exposes are unleashed and delivered with aplomb. This is the book for the 21st-century 'thinking rebel' - a literary guerilla attack on those in power that takes no prisoners; a savage, satirical and personal take on the violent world we live in." "The War on Truth reveals: what the UK's spies really make of the war and Tony Blair; how Blair could be legally impeached; how the torture of Iraqis was sanctioned at the very highest levels; how the media manipulated the west into support for the war; how the allies used WMD against the people of Iraq; how two secret spying units were set up by the British and Americans to lie to the public about the threat from Saddam; how the invasion of Iraq was dreamed up by the Bush team long before they took over the White House; and how the US and UK tried to destroy whistleblowers who attempted to expose the lies of the two administrations."--BOOK JACKET.

Encyclopedia of Terrorism: M-Z

The motivation to commit terrorist acts in the 21st century is just as likely to be religious or ideological as political. Modern terrorist organizations are more diffuse and are operating across national boundaries; and their methods have become more violent with little or no regard for civilian victims. This set provides coverage of the events, individuals, groups, incidents, and trends in terrorism in the modern era.

Terrorism Risk Assessment Instruments

Contemporary Policy and Law Enforcement Challenges

[IOS Press](#) The search for a distinct "terrorist profile" has been going on for many years, and while it is generally agreed that nobody is born a terrorist, there is plenty of disagreement about why a person might become one. Whereas personal and situational push and pull factors can be combined to determine how and why young people become involved in terrorism, preventing an individual from following a path that ends in violence without moral restraint poses an enormous challenge, especially in an open society. This book presents papers from the NATO Advanced Research Workshop titled "A Review of the Utility of Existing Terrorism Risk Assessment Instruments and Policies: Is there the Need for Possible New Approaches?", held in Berlin, Germany, on 29-30 November 2019. Researchers were asked to present papers for discussion sessions with invited participants and practitioners from a number of NATO member and partner countries. Various assessment instruments for identifying problematic individuals at an early stage were presented by experts. It was generally agreed that, due to cultural, religious and other differences, there is no simple way to identify the relatively few high-risk individuals among the larger population of politically radicalized but not necessarily violent individuals who pose no threat. Framed by an Introduction and Conclusion, the 16 chapters in the book are divided into three parts: Theory and Risk/Threat Assessment Instrument Policy Themes; Implementation of Politically Motivated Terrorism Protocols; and Personality Traits/Disorders, Anti-State Terrorism Profiles and the DSM-5 Personality Trait Instrument. This practice-oriented book will be of interest to all those tasked with protecting society from some of its most dangerous members.

Terrorism Today

[Routledge](#) The new edition of this best-selling insight into terrorism today has been fully updated and revised to include what the author terms the new 'militant Moslem international.' Drawing directly on the words and ideas of terrorists themselves, this book is an examination of patterns, current trends and future threats in terrorism worldwide. It explores the ideology and psychology, the politics and policies, the strategies and operations of many active small groups and major insurgencies. The terrorist leader emerges as a calculating, innovated and often well-educated person whose use of violence against the innocent is calibrated for maximum effects. The closing chapter is a stimulating discussion of the problems of counter-terrorism, making several key recommendations. *Terrorism Today* will be essential reading for students of terrorism, counter-insurgency and international security.

The Age of Lone Wolf Terrorism

[Columbia University Press](#) The lethality of lone-wolf terrorism has reached an all-time high in the United States. Isolated individuals using firearms with high-capacity magazines are committing brutally efficient killings with the aim of terrorizing others, yet there is little consensus on what connects these crimes and the motivations behind them. In *The Age of Lone Wolf Terrorism*, terrorism experts Mark S. Hamm and Ramón Spaaij combine criminological theory with empirical and ethnographic research to map the pathways of lone-wolf radicalization, helping with the identification of suspected behaviors and recognizing patterns of indoctrination. Reviewing comprehensive data on these actors, including more than two hundred terrorist incidents, Hamm and Spaaij find that a combination of personal and political grievances lead lone wolves to befriend online sympathizers—whether jihadists, white supremacists, or other antigovernment extremists—and then announce their intent to commit terror when triggered. Hamm and Spaaij carefully distinguish between lone wolves and individuals radicalized within a group dynamic. This important difference is what makes this book such a significant manual for professionals seeking richer insight into the transformation of alienated individuals into armed warriors. Hamm and Spaaij conclude with an analysis of recent FBI sting operations designed to prevent lone-wolf terrorism in the United States, describing who gets targeted, strategies for luring suspects, and the ethics of arresting and prosecuting citizens.

Countering Terrorist Recruitment in the Context of Armed Counter-Terrorism

Operations

[IOS Press](#) Terrorism is not a new phenomenon, but almost all communities, regardless of ethnicity, religion, social status or location, are now increasingly facing the challenge of terrorist threat. What makes a terrorist organization attractive to some citizens? A better understanding of the reasons why individuals choose to join terror groups may well enhance efforts to disrupt the recruitment process of terrorist organizations and thereby support current and future counter-terrorism initiatives. This book presents the proceedings of the NATO Advanced Research Workshop, 'Countering Terrorist Recruitment in the Context of Armed Counter-Terrorism Operations', held in Antalya, Turkey, in May 2015. The goal of the workshop was to share existing ideas and develop new ones to tackle terrorist recruitment. The book contains 18 articles covering topics which include: the role of NATO and other international entities in counter-terrorism; understanding recruitment methods and socialization techniques of terror networks by comparing them to gangs; social media in terrorist recruitment; drug money links with terrorist financing; and counter-terrorism and human rights. The book will be of interest to all those involved in developing, planning and executing prevention programs and policies in relation to both armed and non-armed counter-terrorism operations.

9/11: Mental Health in the Wake of Terrorist Attacks

Cambridge University Press This book was first published in 2006. Does terrorism have a unique and significant emotional and behavioral impact among adults and children? In what way does the impact of terrorism exceed the individual level and affect communities and specific professional groups, and test different leadership styles? How were professional communities of mental health clinicians, policy-makers and researchers mobilized to respond to the emerging needs post disaster? What are the lessons learned from the work conducted after 9/11, and the implications for future disaster mental health work and preparedness efforts? Yuval Neria and his team are uniquely placed to answer these questions having been involved in modifying ongoing trials and setting up new ones in New York to address these issues straight after the attacks. No psychiatrist, mental health professional or policy-maker should be without this book.

International Encyclopaedia of Terrorism Laws

This Set is a unique initiative of providing the most comprehensive coverage to the subject area in question. Today, the issue of terrorism has attracted global attention and no one can claim that this problem does not concern him or her in one form or the other.

Counter-Terrorism

The Ethical Issues

Edward Elgar Publishing This insightful book provides an analysis of the central ethical issues that have arisen in combatting global terrorism and, in particular, jihadist terrorist groups, notably Al Qaeda, Islamic State and their affiliates. Chapters explore the theoretical problems that arise in relation to terrorism, such as the definition of terrorism and the concept of collective responsibility, and consider specific ethical issues in counter-terrorism.
