History Of The Third Infantry Division In World War II

Pickle Partners Publishing Few units in the U.S. Army can boast as proud a unit history as the Third Infantry Division; it fought on all of the Europe and North African fronts that American soldiers were engaged against the Axis forces during World War II. The 3rd Infantry Division saw combat in North Africa, Sicily, Italy, France, Germany and Austria for 531 consecutive days. In this official division history written by the officers who served with the unit at the time serves as a fascinating memorial and a detailed history of the "Marne Division" during World War II. The 3rd Inf. Division made landfall in Fedala on the 8th November 1942 as part of Operation Torch during the Allied invasion of North Africa and was engaged in heavy fighting before the German and Italian troops were finally levered out of the continent. The division was back in the thick of the fighting in Sicily under the command of such famous leaders as Generals Lucien Truscott, Omar Bradley and George S. Patton. As part of General Mark Clark's U.S. Fifth army it engaged in some of the bloodiest engagements of the Italian campaign at Salerno beaches, Volturno river, Monte Cassino and Anzio. Under their old division commander General Truscott they formed part of the force that landed in Southern France and battled into the heart of Germany before the eventual capitulation of the Nazi High command in 1945. Richly illustrated with maps and pictures throughout.

Draftee Division

The 88th Infantry Division in World War II

University Press of Kentucky The involuntary soldiers of an unmilitary people such were the forces that American military planners had to pit against hardened Axis veterans, yet prewar unpreparedness dictated that whole divisions of such men would go to war under the supervision of tiny professional cadres. Much to his surprise and delight, Army Chief of Staff General George C. Marshall found that the 88th Infantry Division, his first draftee division, "fought like wildcats" and readily outclassed its German adversaries while measuring up to the best Regular Army divisions. Draftee Division is at once a history of the 88th Division, an analysis of American unit mobilization during World War II, and an insight into the savage Italian Campaign. After an introduction placing the division in historical context, separate chapters address personnel, training, logistics, and overseas deployment. Another chapter focuses upon preliminary adjustments to the realities of combat, after which two chapters trace the 88th's climactic drive through the Gustav Line into Rome itself. A final chapter takes the veteran 88th to final victory. Of particular interest are observations concerning differences connected with mobilization between the 88th and less successful divisions and discussions of the contemporary relevance of the 88th's experiences. Draftee Division is especially rich in its sources. John Sloan Brown, with close ties to the division, has secured extensive and candid contributions from veterans. To these he has added a full array of archival and secondary sources. The result is a definitive study of American cadremen creating a division out of raw draftees and leading them on to creditable victories. Its findings will be important for military and social historians and for students of defense policy

Imperial Germany's "Iron Regiment" of the First World War - Second Edition

Badgley Publishing Company Imperial Germany's "Iron Regiment" of the First World War offers a rare English-language account of a premier German infantry unit. Renowned as the Iron Regiment for its fighting record in the legendary 1916 Battle of the Somme, its service spanned from WW I's earliest battles through its destruction by US Marines in the Argonne Forest in the war's final days. Inspired by a wartime journal written by the author's grandfather, an IR 169 veteran, much of the book is drawn from rare soldier accounts, many published here for the first time in English. The voice of these soldiers take us into the other side of the trenches and through the unimaginable horrors of the First World War. This second edition adds over 100 pages of text, maps, and pictures to the original publication. "An excellent writing looking at WW 1 from a German soldier's perspective. I highly recommend it to everyone interested in learning more about the Great War." Gerald York, Colonel (Ret), US Army Grandson of Sergeant Alvin York, famed US Army WW I Medal of Honor Recipient "This book stands head and shoulders above previously published unit histories and should not be ignored for its substantial value in providing the whole picture of many of the war's landmark battles." Roads to the Great War "War histories of German regiments during either the First or Second World War are comparatively rare, and this book is a welcome addition." Britain at War Magazine "A complete lifecycle account of a German regiment for the duration of the First World War, and so a rare contribution to those wishing to see the war from the German perspective." Great War Society ----- The author, John K. Rieth, is a retired US Army Lieutenant Colonel with a lifelong interest in military history. He is the author of Patton's Forward Observers: The History of the 7th Field Artillery Battalion and is a member of the US Army Historical Foundation and the Western Front Association.

The Second Infantry Division in World War I

A History of the American Expeditionary Force Regulars, 1917-1919

McFarland When the United States entered World War I in 1917, it sent the American Expeditionary Force to relieve the worn and beleaguered Allied Forces. On September 20, 1917, Congress approved the creation of the Second Division of the American Expeditionary Force. A hybrid Marine/Army unit, it was conceived and ultimately formed overseas, primarily from units in France. Giving themselves the nickname "Second to None," the Second Division effectively stopped the German drive on Paris in June 1918, becoming the first American unit to fight the enemy in a major engagement and revitalizing the Allied war effort. This volume details the fighting experiences of the Second Division, from its creation in the fall of 1917 through 1919. The book follows the unit from training in Toulon through the major campaigns including Chateau Thierry, Soissons, Blanc Mont and Meuse Argonne and records the experiences of the men who served. Appendices provide information regarding the pedigree of the division and its units; a syllabi of the Second Division's experiences; and a list of major awards received by Second Division personnel. Detailed maps and period photographs are also included.

5 Division 13 Infantry Brigade Headquarters

5 August 1914 - 31 December 1915 (First World War, War Diary, Wo95/1548)

The War Diaries for the Great War, held under WO95, represent one of the most popular record collections held at the National Archives, Kew, London. For researchers and family historians, the War Diaries contain a wealth of information of far greater interest than the army could ever have predicted. They provide unrivalled insight into daily events on the front line and are packed with fascinating detail. They contain no modern editing, opinions or poorly judged comments, just the war day by day, written by the men who fought this 'War to end all Wars. They are without question, the most important source of information available on the war on the Western Front. Full colour facsimile of each page with specially created chronological index. What is a War Diary? The headquarters of each unit and formation of the British Army in the field was ordered to maintain a record of its location, movements and activities. For the most part, these details were recorded on a standard army form headed 'War diary or intelligence summary'. What details are given? Details given vary greatly, depending on the nature of the unit, what it was doing and, to some extent, the style of the man writing it. The entries vary from very simple and repetitive statements like 'Training' up to many pages of description when a unit was in battle. Production of the diary was the responsibility of the Adjutant of the headquarters concerned. Is there any other information or documents with the diaries? Some diaries have other documentation attached, such as maps, operational orders and after-action reports.

Combat With Company H, 317th Infantry Regiment, 80th Division

Casemate Andrew Z. Adkins, Jr., graduated from The Citadel in May 1943 and immediately attended the U.S. Army Officer Candidate School, where he was commissioned and sent on to the 80th Infantry Division, then undergoing its final training cycle in the California-Arizona desert. Upon reaching the division, 2d Lieutenant Adkins was assigned as an 81mm mortar section leader in Company H, 2d Battalion, 317th Infantry Regiment. When the 80th Infantry Division completed its training in December 1943, it was shipped in stages to the United Kingdom and then on to Normandy, where it landed on August 3, 1944. There, Lieutenant Adkins and his fellow soldiers took part in light hedgerow fighting that served to shake the division down and familiarize the troops and their officers with combat. The first real test came on August 20, 1944, when the 2d Battalion, 317th Infantry, attacked high ground near Argentan during the Allied drive to seal huge German forces in the Falaise Pocket. While scouting for mortar positions in the woods, Andy Adkins ran into a group of Germans and shot one of them dead with his carbine. This baptism in blood taught him the answer to a question every novice combatant wants to hear: He was cool under fire, capable of killing when facing the enemy. He later wrote, "It was a sickening sight, but having been caught up in the heat of battle, I didn't have a reaction other than feeling I had saved my own life." Thereafter, the 2d Battalion, 317th Infantry, took part in a succession of bloody battles across France. Ineptly led through the tenures of several battalion commanders, the unit suffered grievous losses even as it took hills and towns away from brave and well-led German veterans. In the course of fighting graphically portrayed in this soldier's memoir, Andy Adkins acted with remarkable skill and courage, placing himself at the forefront of the action whenever he could. His extremely aggressive delivery of critical supplies to a cutoff unit in an embattled French town earned him a Bronze Star Medal, the first such award in his battalion. *You Can't Get Much Closer Than This* is at heart a young soldier's story of war. In vibrant, piercing terms, a junior officer's coming of age in battle is the compelling focus of page after page of action sequences that add up to a solid description of what modern warfare is really all about. Before his death in 19--, Andy Adkins was able to face his memory of war as bravely as he faced the war itself. He set it all down on paper, honest, unflinching, and straightforward. In 1944 and 1945, young Lieutenant Adkins did his duty to his men and his country, and much later he did his duty to his readers. Indeed, you really can't get much closer than this.

The 92nd Infantry Division and the Italian Campaign in World War II

McFarland This work focuses on the all black 92nd Infantry Division in the Italian Campaign in World War II and the poor combat performance of the division in Italy. An introduction provides an overall view of the Italian Campaign and the role of the 92nd Infantry Division. The author then examines the reasons for the division's troubles on and off the battlefield, such as the low morale among the soldiers because of racial segregation, the limited facilities provided for them, and their lack of trust in their leadership. All of these issues are explored at length. Information on the early life and military training and experience of General Ned Almond is provided, along with the stories of Vernon Baker and John Fox, who emerged as leaders but endured a long struggle for recognition. The author concludes this work on a personal note by telling of his involvement as principal investigator of Acting Secretary of the Army John Shannon's study of why no African American received the Medal of Honor in World War II (a situation that was rectified in the late 1990s: See Elliott V. Converse, Daniel K. Gibran et al., *The Exclusion of Black Soldiers from the Medal of Honor in World War II*, McFarland 1997, \$29.95).

Order of Battle of the United States Land Forces in the World War

The 37th Infantry Division in World War II

Originally published in 1948, this WWII division history has long been out-of-print. It remains today the definitive WWII history of the "Buckeye Division." The 37th Infantry Division, drawn from Ohio and West Virginia, entered United States service as a National Guard unit in August of 1917, and participated in major campaigns during The Great War in Europe. In 1940, the unit was placed again into Federal service. The 37th served in the Pacific Theater from 1942 until 1945. It was active both in support and combat roles in battles and deployments in Fiji, Guadalcanal, the Philippines, and Bougainville. As a WWII unit, the 37th was deactivated at the end of 1945, but continued service in the Ohio National Guard and later in various other units until it was disbanded in 1968. In 2007, the remnants of the division were reassembled into the 37th Infantry Division Combat Team, and it adopted once again the infamous WWI & WWII shoulder insignia.

Between Mutiny and Obedience

The Case of the French Fifth Infantry Division during World War I

Princeton University Press Literary and historical conventions have long painted the experience of soldiers during World War I as simple victimization. Leonard Smith, however, argues that a complex dialogue of resistance and negotiation existed between French soldiers and their own commanders. In this case study of wartime military culture, Smith analyzes the experience of the French Fifth Infantry Division in both pitched battle and trench warfare. The division established a distinguished fighting record from 1914 to 1916, yet proved in 1917 the most mutinous division in the entire French army, only to regain its elite reputation in 1918. Drawing on sources from ordinary soldiers to well-known commanders such as General Charles Mangin, the author explains how the mutinies of 1917 became an explicit manifestation of an implicit struggle that took place within the French army over the whole course of the war. Smith pays particular attention to the pivotal role of noncommissioned and junior officers, who both exercised command authority and shared the physical perils of men in the lower ranks. He shows that "soldiers," broadly defined, learned to determine rules of how they would and would not fight the war, and imposed these rules on the command structure itself. By altering the parameters of command authority in accordance with their own perceived interests, soldiers and commanders negotiated a behavioral space between mutiny and obedience. Originally published in 1994. The GI Offensive in Europe

The Triumph of American Infantry Divisions, 1941-1945

This book provides a comprehensive study of America's infantry combat performance in Europe during World War II, showing that the Army succeeded by developing combat effective divisions that could not only fight and win battles but also sustain that effort over years of combat. While American industry admittedly enabled the United States to sustain its overseas armies, the effectiveness of those forces ultimately rested on their organizational capabilities and ability to adapt to combat in a variety of lethal environments and to learn from their mistakes. Mansoor also takes a close look at the personalities and capabilities of division commanders, infantry tactics and operations, logistics, and the benefits and weaknesses of stateside training.

St Vith: Lion In The Way: 106th Infantry Division in World War II [Illustrated Edition]

Pickle Partners Publishing Includes more than 25 maps, diagrams and photos The 106th was the last of 66 US Infantry Divisions to be activated during WWII. Before leaving for its first active service abroad in Europe it lost many of the most experienced men and officers to drafts to other divisions and units. Partly trained, inexperienced and green the 106th Division took over from the 2nd Division in the Schnee Eifel, a rugged hilly, densely wooded area of the Ardennes. The line was over 26 miles long, five times the recommended length for a division, but the higher command were unconcerned as they believed that the German Army was a spent force. Five days after taking over the line the 106th Division found that they were directly in the line of advance for the last great German offensive of the war, their struggle had just begun in what was later known as the Battle of the Bulge. The 106th fought with great determination and courage, but faced overwhelming odds of heavily tank-supported Wehrmacht units, two of its regiments surrendered en masse having been surrounded. The remaining units of the 106th fought many numerous delaying engagements and at the vital crossroads of St. Vith were involved in the valiant stand that did much to unhinge the timetable of the entire German advance. Having done much to stop the German's last roll of the dice, they were pulled out of the line having suffered horrendous casualties. Colonel Dupuy writes with justified pride in the conduct of the 106th but unlike other writers is scrupulously honest and unbiased. Accounted by many veterans as the most accurate account of the Battle of the Bulge in this area, the 106th tale needs no exaggeration of their heroic actions during the Ardennes offensive.

St Vith: Lion in the Way

106th Infantry Division in World War II

This is the story of the 106th Infantry Division of the U.S. Army, the last to be deployed before the end of World War Two. Arriving in Europe in late 1944, they were immediately, and with very little battle experience, thrust into battle at St Vith. The Battle of St. Vith was part of the Battle of the Bulge, which began on December 16, 1944, and represented the right flank in the advance of the German 5th Panzer Army, toward the ultimate objective of Antwerp. The inexperienced American troops were faced with adverse weather conditions, difficult terrain and a desperate German opponent fighting for their lives and the quickly-disappearing hope of victory. The defense of St Vith is recognized as one the most important Allied victories of this period, driving the Germans away from their goal of Antwerp and halting the last great German offensive of the war. Compiled from records and first-hand accounts from the officers and soldiers of the 106th Division, Colonel Dupuy's account of the final days of 1944 is a must-read for WW2 enthusiasts and fans of regimental histories. Colonel R. Ernest Dupuy (1887- 1976) was a soldier, newspaperman and military historian. He worked as a journalist in New York before enlisting in the army. Serving in both wars, he retired in 1947. Continuing his writing career, he specialized in writing military history, and authored or co-authored many books on the U.S. Army, West Point, and military affairs. St Vith: Lion in the Way was first published in 1949.
