Private Law and the Rule of Law

Oxford University Press, USA The rule of law is widely perceived to be a public law doctrine, concerned with the way governmental authority conforms to dictates of law. This book explores the idea that the rule of law instead concerns the conditions under which any relationship - that among citizens as well as that between citizens and the state - becomes subject to law.

Principles of Tort Law

Cambridge University Press This book does what it 'says on the tin' - stating the corpus of tort law as a body of principles. Undertaken for the first time in English tort law, this book describes the law of tort concisely, accessibly, and accurately, and with both depth and detail.

Tort Law

Text and Materials

Oxford University Press Each section begins with a clear overview of the key points of the law, before fully explaining and illustrating the topic through substantial case extracts and further commentary."--BOOK JACKET.

Scholars of Tort Law

Bloomsbury Publishing The publication of *Scholars of Tort Law* marks the beginning of a long overdue rebalancing of private law scholarship. Instead of concentrating on judicial decisions and academic commentary only for what that commentary says about judicial decisions, the book explores the contributions of scholars of tort law in their own right. The work of a selection of leading scholars of tort law from across the common law world, ranging from Thomas Cooley (1824-1898) to Patrick Atiyah (1931-2018), is addressed by eminent current scholars in the field. The focus of the contributions is on the nature of the work produced by each of the scholars in question, important influences on their work, and the influence which that work in turn had on thinking about tort law. The process of subjecting tort law scholarship to sustained analysis provides new insights into the intellectual development of tort law and reveals the important role played by scholars in that development. By focusing on the work of influential tort scholars, the book serves to emphasise the importance of legal scholarship to the development of the common law more generally.

Complete Tort Law

Text, Cases, & Materials

Oxford University Press *Complete Tort Law: Text, Cases, & Materials* combines extracts from a wide range of recent cases with clear explanatory text to create a complete resource for students. A wealth of features provide a high level of support, making this an ideal introduction to tort law.

Philosophical Foundations of the Law of Torts

Oxford University Press This book offers a rich insight into the law of torts and cognate fields, and will be of broad interest to those working in legal and moral philosophy. It has contributions from all over the world and represents the state-of-the art in tort theory.

Sex Trafficking

A Private Law Response

Routledge *Sex Trafficking: A Private Law Response* examines existing and potential causes of action against sex traffickers, clients and the state and argues for fair and effective private law remedies. Combining a theoretical inquiry about the borders of liability in torts and restitution with a political commitment to protecting the interests of victims of sex trafficking, this book offers a comparative doctrinal and socio-legal analysis of private law remedies, their justification, and their effectiveness. Tsachi Keren-Paz innovatively and convincingly makes the argument that all those directly involved in breaching the rights of victims of sex trafficking should compensate them for their losses, and make restitution of the profits made at their expense. *Sex Trafficking: A Private Law Response* will be invaluable to both academics and practitioners concerned with prostitution, modern slavery and trafficking, and those interested in private law theory and practice.

Maimonides and Contemporary Tort Theory Law, Religion, Economics, and Morality

Cambridge University Press Presents Maimonides' complete tort theory, and how it compares with other tort theories both in the Jewish world and beyond.

Tort Law

Text, Cases, and Materials

Oxford University Press **Tort Law: Text, Cases, and Materials** offers a stimulating overview of tort law. It provides a sound analysis of the key principles before exploring a wide range of critical perspectives through an extensive selection of cases and materials. This is a complete stand-alone resource designed to map directly to undergraduate courses.

European Tort Law

Oxford University Press This textbook provides insight into the differences, commonalities and mutual influence of the tort law systems of various European jurisdictions, bringing together national tort law, comparative law, EU law, and human rights law.

Principles of the Law of Tort

Modern Tort Law

Psychology Press The sixth edition of this well liked textbook provides a comprehensive update and a clear analysis of all aspects of the law of tort. Substantially revised since the last edition, this new edition maintains the popular student friendly style that seeks to explain the principles of tort law in an interesting and thought-provoking manner. Students are encouraged to understand and apply the principles effectively throughout. Particular attention is paid to areas of law that students find difficult, and to the context within which the law is evolving, making these topics accessible and enjoyable. Harwood's concise legal analysis covers many hundreds of cases, and offers insights into developing areas of negligence, employers' liability, occupiers' liability, and defamation among others. Key features of this edition include: Clear, in-depth analysis of legal principles Detailed coverage and comment on cases Extensive discussion of recent House of Lords decisions including *Gregg v Scott* (2005), *Chester v Afshar* (2004), *Cambell v MGN* (2004), *Wainwright v Home Office* (2003), *Transco v Stockport MBC* (2003) and *Rees v Darlington Memorial NHS Trust* (2003) Comprehensive analysis of new trends and developments in this fast-moving area of law Discussion of policy issues Consideration of Human Rights issues in tort A contextual approach covering practical and institutional issues such as the Civil Procedure Rules 1998 Concise summaries at the end of each topic An invaluable textbook for those studying this core subject, *Modern Tort Law* is a succinct and relevant text suitable for all undergraduate modular courses.

Tort Law

Oxford University Press This best-selling undergraduate textbook from leading academics Kirsty Horsey & Erika Rackley gives a comprehensive grounding in tort law and carefully chosen learning features help students to become engaged and critical thinkers. This lively and thought-provoking account allows students to understand rather than simply learn the law. The problem questions in each chapter help students to understand how the law works in its practical context and to begin to consider potential issues and debates. Carefully chosen features such as 'counterpoint' and 'pause for reflection' boxes enable students to think more deeply and critically about the law. The text is accompanied by an

extensive Online Resource Centre, which includes the following resources: - Downloadable annotated judgments, statutes, and problem questions - Outline answers to questions in the book - Annotated web links to external web resources and videos - Flashcard glossary of legal terms used in the book - Additional content on elements of a claim in the tort of negligence and on product liability - Test bank of 200 questions and answers for lecturers' use in assessing students

Tort Law Textbook

Oxford University Press This tort law textbook offers an interactive introduction to tort law. Previously a 'Blackstone's Study Pack' title, this text has been fully updated to include all changes in the law.

Insurance and the Law of Obligations

OUP Oxford It is widely acknowledged that insurance has a major impact on the operation of tort and contract law regimes in practice, yet there is little sustained analysis of their interaction. The majority of academic private lawyers have little knowledge of insurance law in its own right, and the amount of discussion directed to insurance in private law theory is disproportionately small in relation to its practical importance. Filling this substantial gap in the literature, this book explores the multiple influences of insurance in the law of obligations, and the nature and impact of insurance law as an inherent and significant aspect of private law. It combines conceptual and doctrinal analysis, informing the theoretical discussion of the nature of private law, including the role of judicial and public purpose, and the place of formalism and of contextualism in normative theories of private law. Arguing for the wider recognition of the multiple impacts of insurance, the book claims that recognition of the presence of insurance necessarily marks a departure from the two-party framework sometimes described as definitive of private law. The structured exploration and interpretation of the contemporary role of insurance in the law of obligations, and of its implications, illuminates this under-explored area of private law, and equips the reader for further enquiry and debate.

Research Handbook on the Economics of Torts

Edward Elgar Publishing Focusing on issues of vital importance to those seeking to understand and reform the tort system, this volume takes a multi-disciplinary approach, including theoretical economic analysis, empirical analysis, socio-economic analysis, and behavioral anal

Common Law and Civil Law Perspectives on Tort Law

Oxford University Press The book provides scholars, lawyers and law students with a comparative overview of the law of civil liability for injuries arising outside of contract in five major legal systems in the common law and civil law traditions: England, the United States, France, Germany and Italy. The book analyzes a select number of foundational issues that lie at the core of tort law in all the jurisdictions surveyed, and takes them as points of comparison for appreciating commonalities and differences between the common law and the civil law traditions, as well as within these traditions. The analysis covers the structure and context of tort law architectures, the role of negligence and the continuum between fault and strict liability, rules on recovery for personal injuries, non-economic losses and for pure economic losses, tests and approaches to causation, medical malpractice and products liability regimes. As such, the book provides an updated and enriched framework for understanding the rules, the theories, the styles of reasoning and the tort law cultures across the Atlantic.

Philosophical Foundations of Tort Law

Oxford University Press on Demand This exceptional collection of twenty-two essays on the philosophical fundamentals of tort law assembles many of the world's leading commentators on this particularly fascinating conjunction of law and philosophy. The contributions range broadly, from inquiries into how tort law derives from Aristotle, Aquinas, and Kant to the latest economic and rights-based theories of legal responsibility. This is truly a multi-national production, with contributions from several distinguished Oxford scholars of law and philosophy and many prominent scholars from the United States, Canada, and Israel. A provocative closing essay by one of the world's leading moral philosophers illuminates how tort law enables philosophers to observe the abstract theories of their discipline put to the concrete test in the legal resolution of real-world controversies based on principles of

right and wrong.

Tort Law

Pearson Education This lively book is clear, critical and modern approach to tort law, which will stretch and stimulate students whilst simultaneously giving them a clear understanding of the subject necessary for undergraduate courses.

Elliott and Quinn

As Law

Pearson Education Now in its third edition, AS Law continues its clear explanation of the law, allowing students to enjoy learning, and providing a pathway to examination success. Throughout the text, critique of existing law, law reform proposals and commentary are discussed to stretch students understanding and give them the confidence to tackle essay and examination questions. Newspaper articles and photographs on topical cases are included, keeping the law fresh and engaging. The new edition includes the Constitutional Reform Act 2005 which introduces the radical constitutional reforms of the Labour governments and the increase police powers contained in the Serious Organised Crime Police Act 2005.

A Text-book of the Law of Tort

Tort Law: Principles in Practice

Principles in Practice

Aspen Publishing Tort Law: Principles in Practice is an approachable and engaging casebook, with a variety of pedagogical features and tools to examine tort law doctrine and rules and their application in practice. Introductory text for each chapter, subsection, and cases frame the issues under discussion, aiding student comprehension. Key Features: Text boxes and photographs, sample pattern jury instructions, checklists, and end-of-chapter essay questions. Chapter Goals are listed at the beginning of each chapter to highlight the key areas of coverage and provide a checklist for students when reviewing material. New key cases (e.g., new cases dealing with “but-for” causation and cutting edge coverage of the seat-belt defense showing a recent trend toward acceptance of this defense). Expanded short practice problems after most cases.

Law Notes

Power to the People!

A Young People's Guide to Fighting for Our Rights as Citizens and Consumers

Seven Stories Press An important and empowering history of and guide to the battle for our right to safe products and conditions--for younger readers. Corporations enter our daily lives from the moment we wake up until we turn off the lights at night. Large Internet companies, health insurance companies, fuel and transportation companies--all play a role in our lives every moment of every single day. And yet what power do we have over their actions or intentions? None, except through redress in a court of law for any harm they may

have done. This area of the law is known as torts, from the French word for wrongs. *Power to the People!* offers a deep understanding of how civil actions work, through many examples and straightforward language for the middle-grade student reader. From Ralph Nader's 1966 law-changing address to Congress on automobile safety (it's thanks to Nader that we wear seat belts) to the decades-long battle to raise awareness of the risks of smoking (cigarette and cigar smoke contains over 7,000 chemicals, and has caused the deaths of more than 2.5 million nonsmokers in the last half-century), readers will learn how we must fight to protect ourselves from corporations that are more concerned with profit than our safety. Corporate America will listen, Panchyk argues, but only if we make ourselves heard. *Power to the People!* explores all the ways we the people can be powerful, too.

Recognizing Wrongs

Belknap Press "Recognizing Wrongs is about tort law, also commonly known as "personal injury law." The book's central thesis is that tort law fulfills a basic obligation that government owes to each of us: to provide law that defines and proscribes a special class of wrongs - wrongs that involve one person mistreating another - and to provide a means for victims of such wrongs to obtain redress from those who have wronged them. This book aims to recover the traditional understanding of tort law by helping readers to recognize what it is all about. It does so by offering a systematic statement of a theory now known in academic circles as "civil recourse theory." In providing a comprehensive statement of that theory, the book aims to unseat both the leading philosophical theory of tort law - corrective justice theory, as put forward by Jules Coleman, John Gardner, Arthur Ripstein, Ernest Weinrib, and others - as well as the economic approach favored by scholars such as Guido Calabresi and Richard Posner"--

MCAT Critical Analysis and Reasoning Skills Review

Online + Book

Simon and Schuster More people get into medical school with a Kaplan MCAT course than all major courses combined. Now the same results are available with MCAT Critical Analysis and Reasoning Skills Review. This book features thorough subject review, more questions than any competitor, and the highest-yield questions available. The commentary and instruction come directly from Kaplan MCAT experts and include targeted focus on the most-tested concepts. MCAT Critical Analysis and Reasoning Skills Review offers:

UNPARALLELED MCAT KNOWLEDGE: The Kaplan MCAT team has spent years studying every MCAT-related document available. In conjunction with our expert psychometricians, the Kaplan team is able to ensure the accuracy and realism of our practice materials. **THOROUGH SUBJECT REVIEW:** Written by top-rated, award-winning Kaplan instructors, all material has been vetted by editors with advanced English degrees and by a medical doctor. **EXPANDED CONTENT THROUGHOUT:** The AAMC tests not only content knowledge, critical thinking, and critical analysis and reasoning skills, but also two other important scientific skills: research design and the execution of research, and data-based and statistical analysis. This book has expanded material to help you master these skills for Test Day. **MORE PRACTICE THAN THE COMPETITION:** With questions throughout the book and access to a full-length practice test online, MCAT CARS Review has more practice than any other MCAT CARS book on the market. **ONLINE COMPANION:** One practice test and additional online resources help augment content studying. The MCAT is a computer-based test, so practicing in the same format as Test Day is key. **KAPLAN'S MCAT REPUTATION:** Kaplan is a leader in the MCAT prep market, and twice as many doctors prepared for the MCAT with Kaplan than with any other course.* **UTILITY:** Can be used alone or with other companion books in Kaplan's MCAT Review series. * Doctors refers to US MDs who were licensed between 2001-2010 and used a fee-based course to prepare for the MCAT. The AlphaDetail, Inc. online study for Kaplan was conducted between Nov. 10 - Dec. 9, 2010 among 763 US licensed MDs, of whom 462 took the MCAT and used a fee-based course to prepare for it.

Expert Guidance We know the test: The Kaplan MCAT team has spent years studying every MCAT-related document available. Kaplan's expert psychometricians ensure our practice questions and study materials are true to the test.

Three Essays on Torts

Oxford University Press, USA These essays illustrate the advantages of 'reflexive' tort scholarship by contrasting the reflexive scholarship of judicial analysis with grand theory, then applying reflexive scholarship to the tort of negligence. The final essay presents a wider argument about human responsibility and legal conduct.

MCAT Critical Analysis and Reasoning Skills Review 2020-2021

The Cost of the Legal System

Hearing Before the Subcommittee on Administrative Oversight and the Courts of the Committee on the Judiciary, United States Senate, One Hundred Fourth Congress, First Session ... May 2, 1995

Tort Law

Text, Cases, and Materials

Oxford University Press 'Tort Law' offers a stimulating introduction to the subject. Jenny Steele provides a sound analysis of the key principles before exploring a wide range of critical perspectives through an extensive selection of cases and materials.

Studies in Law, Politics and Society

Jai Press This volume is part of an annually-published series of interdisciplinary research on law, with a critical focus. Research is invited on a wide range of law-related subjects, including law and inequality, feminist jurisprudence, racial oppression and law, and legal institutions and communities.

Baseball and the Law

Cases and Materials

Baseball and the Law: Cases and Materials explores the jurisprudence of baseball through 110 principal readings, 619 notes, and 26 photographs. After an introductory chapter that acquaints students with the sport and the role lawyers have played in its development, the authors proceed to examine a multitude of legal issues, from player salaries, franchise relocations, and steroids to fan safety, broadcast rights, and gambling. Special attention is paid to racial and sexual discrimination; tax planning, asset protection, and bankruptcy; and the burgeoning use of technology. A concluding chapter focuses on amateur and youth baseball. The book draws on a variety of materials--including court decisions, arbitration awards, law review articles, newspapers stories, and blog posts--to place baseball in three different contexts: cultural, historical, and legal. The exhaustive notes make numerous references to movies, TV shows, and videos to further demonstrate the connection between baseball and the law. In addition to being a fun read, this work will strengthen a student's understanding of such core subjects as civil procedure, constitutional law, property, and torts while improving his or her ability to read contracts and parse statutes.

Tort Law and the Legislature

Common Law, Statute and the Dynamics of Legal Change

Bloomsbury Publishing The study of the law of tort is generally preoccupied by case law, while the fundamental impact of legislation is often overlooked. At a jurisprudential level there is an unspoken view that legislation is generally piecemeal and at best self-contained and specific; at worst dependent on the whim of political views at a particular time. With a different starting point, this volume seeks to test such notions, illustrating, among other things, the widespread and lasting influence of legislation on the shape and principles of the law of tort; the variety of forms of legislation and the complex nature of political and policy concerns that may lie behind their enactment; the sometimes unexpected consequences of statutory reform; and the integration not only of statutory rules but also of legislative policy into the operation of tort law today. The apparently sharp distinction between judicially created private law principles, and democratically enacted legislative rules and policies, is therefore questioned, and it is argued that to describe the principles of the law of tort without referring to statute is potentially highly misleading. This book shows that legislation is important not only because of the way it varies or replaces case law, but because it also deeply influences the intrinsic character of that law, providing some of its most familiar characteristics. The book provides the first extended interpretation of legislative intervention in the law of tort. Each of the chapters, by leading tort scholars, deals with an aspect of the influence of legislation on the law of tort. While the nature, sources and extent of legislative influence in personal injury law is an essential feature of the collection, other significant areas of tort law are explored, including tort in the context of commercial law, labour law, regulation and the welfare state. Essays on the Compensation Act 2006 and Human Rights Act 1998 bring the current state of the interplay between tort, politics and legislation to the forefront. In all of these contexts, contributors explore the deeper lessons that can be learned about the nature of the law of tort and its changing role and functions over time. Cited with approval in the Singapore Court of Appeal by VK Rajah JA in *See Toh Siew Kee vs Ho Ah Lam Ferrocement (Pte) Ltd and others*, [2013] SGCA 29

Sedation - E-Book

A Guide to Patient Management

Elsevier Health Sciences Combining essential theory with “how-to technical instruction, this concise guide is the leading reference for basic techniques in sedation and anxiety control in the dental office. The latest guidelines from the ADA and the American Society of Anesthesiologists keep you up-to-date with the latest medical standards.
