## The Last World

### A Novel with an Ovidian Repertory

*Grove Press A man goes in search of the Roman poet Ovid, banished to the end of the world. He finds that Ovid's personality and stories have undergone a sea-change, and have fragmented themselves into lots of clues - people, bizarre events, odd stretches of landscape, and a story emerges.*

## The World's Last Peanut

*Lulu.com Many changes in one's lifetime are for the better; some are glaringly not. Progress of our modern world has led to the shadow of ""Political Correctness"" - every word written and spoken must be weighed lest someone will be insulted. No longer can we have a candid conversation for fear of banishment if we so much as use the wrong word, wrong idea, or thought that will offend someone. In this little book, is a very curious selection of tales and thoughts - philosophies perhaps - that are true stories that should offend no one. Yet in the course of these writings, when presented as opinion in newspapers around the United States, each of these has found someone who has been overwhelmed with my careless use of my imagination or choice of words. Hopefully you will find value, fun and humor in this ""Curious Collection of Politically Incorrect Opinions and Thoughts. If you do not find value, fun and humor in your readings, then you might want to change political parties. Or stay in bed.*

## The World's Last Steam Trains

### China

*Key Publishing China was the last country in the world to manufacture and operate steam locomotives. By the early 1980s, there were an estimated 10,000 operational steam locomotives in the country, but by the 1990s, diesel and electric locomotives started to replace them on the main lines and the number in service reduced substantially as the millennium approached. The last steam locomotives were finally withdrawn from China Rail in 2003. After that, some continued to operate heavy freight trains on local railways for a short while, but most were deployed for use on the country's industrial railways, mainly at coal mines and steel works. This trend continued into the first decade of the 21st century, but subsequently, the number of steam engines in service declined substantially and were confined to just a handful of industrial locations. Steam rail operations in China are now facing extinction. The modernization of the railways with the switch from steam to diesel, the closure of unsafe and loss-making collieries and China's drive to reduce pollution and combat climate change from burning coal, have all conspired towards the demise of the industrial lines operating steam in China. This book looks at the last of the standard-gauge steam operations in China, including Sandaoling, the last steam-worked opencast coal mine in the world; Fuxin, a coal-mining city in Liaoning Province, which until recently, operated the largest surviving fleet of SY locomotives; Baiyin, in Gansu Province, which operated some of the last steam-hauled passenger trains in the world; and Wu Jiu, a remote coal-mining outpost in Inner Mongolia. Beautifully illustrated with over 120 color photographs and a description of the operations, this is a striking portrait of the last of the world's operating steam trains.*

## The War of the Worlds

*First Avenue Editions ™ When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of*

extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

## Fire World (The Last Dragon Chronicles #6)

Scholastic Inc. David and the dragons are back in the sixth installment in the New York Times bestselling Last Dragon Chronicles! After destroying a trace of dark fire, David, Zanna, and the Pennykettle dragons vanished. In a brand-new world, Co:per:nica, which runs parallel to that of Crescent Lane, firebirds roam the ancient librarium, a museum for books. But when 12-year-old David and Rosanna accidentally injure one of the firebirds, they are suddenly thrust into a remarkable adventure. The evil Ix have taken over one of the firebirds, turning it to the side of darkness, but the birds have a secret: They know about the existence of dragons. And from across the universe, one may come to their aid.... Don't miss Chris d'Lacey's addition to his rich dragon mythology in his next series, The Erth Dragons!

## The World Set Free

BEYOND BOOKS HUB This chilling, futuristic novel, written in 1913 and first published the following year, was incredibly prophetic on a major scale. Wells was a genius and visionary, as demonstrated by many of his other works, but this book is clearly one of his best. He predicts nuclear warfare years before research began and describes the chain reactions involved and the resulting radiation. He describes a weapon of enormous destructive power, used from the air that would wipe out everything for miles, and actually used the term "atomic bombs." This book may have been at least part of the original inspiration for the development of atomic weapons, as well as presenting many other ideas that would ultimately come to pass. Some ideas may still be coming, including a one-world government referred to as The World Republic, that will attempt to end all wars.

## The Last of the Last

## The Final Survivor of the First World War

*Random House Before his death at the age of 110 in May 2011, Claude Choules was the last man alive who had served in both world wars. Claude learned life's lessons during a rural childhood in England and later in the Royal Navy as a boy sailor, before graduating to become an explosives expert in the Australian navy. In his 80s, Claude began working on his memoirs with the help of his daughters, and *The Last of the Last* is a riveting account of his lifetime that vividly mirrors how the last century unfolded. Claude had the insight of an ordinary man thrust to the forefront of international furor. He was opposed to the glorification of war, but his charming anecdotes honour a generation called upon to serve not once but twice. This engaging, wryly humorous autobiography reflects the amiable nature of a truly unique man.*

## Recent Themes in the History of Africa and the Atlantic World

## Historians in Conversation

*Univ of South Carolina Press Described as "the New York Review of Books for history," *Historically Speaking* has emerged as one of the most distinctive historical publications in recent years, actively seeking out contributions from a pantheon of leading voices in historical discourse. This collection of articles and forums by prominent historians explores the relationship of Africa to world history, maps the current state of the burgeoning field of Atlantic history, and debates the accuracy of Olaudah Equiano's seminal narrative. The standard approach of world historians often compresses the African past into interpretive frameworks that leave Africans without a history of their own. Joseph C. Miller makes the case here for an alternative approach, a multicentric world history that gives voice to the various ways Africans experienced the past, and an impressive array of Africanist and world historians respond. The volume also assesses the state of the field of Atlantic history and includes a spirited forum on Vincent Carretta's provocative thesis that Olaudah Equiano, author of the most important account available of the horrific Middle Passage, was actually born in South Carolina and not Africa.*

## The 50 Final Events in World History

## The Bible's Last Words on Earth's Final Days

*Thomas Nelson How much do you know about the end of the world? In The 50 Final Events in World History, beloved and respected pastor Robert J. Morgan takes readers on a journey through end-times prophecy, walking step-by-step through the end of the world to the dawn of the new kingdom of heaven. Heard of worldwide pandemics? Weapons of mass destruction flashing through the air? Global water and air contamination? The nation of Israel restored after 2,000 years, encircled by hostile nations and buffered by the nation of Jordan? Air evacuations with machines having two wings? Threats from Russia and Asia? Extremism in Turkey? Clamor for globalization? Hand implants for commerce and security? The gospel penetrating unreached places? Violent persecution? Cascading wickedness? The world falling apart? All of this is predicted in the book of Revelation. If you find yourself baffled and maybe even a little intimidated by end times and the book of Revelation, The 50 Final Events in World History will be a comprehensive yet easy-to-understand overview of the book of Revelation, resource you can turn to again and again, helpful tool that translates the events of Revelation both literally and sequentially, and guide to interpret present circumstances as well as future events. Revelation is the Bible's final words on the world's last days. The key is understanding its simple sequence of events—one after another, clearly laid out—the fifty final events in world history. This is information we need to know now since we might soon be on the doorstep of event #1.*

The World's Last Steam Railway

*Artists & Photographers Press China was the last country in the world to build steam locomotives. The final main line engines emerged from Datong workshops in December 1988 and production of steam locomotives for industrial use continued until 1999. The final few steam locomotives were withdrawn from service in 2003, making China the last country to use steam on its main lines. Total eradication of China's steam programme is set to coincide with the Olympic games in 2008. When this happens, it will be the end of the last mecca for fans of real steam. This is a photo essay detailing the end of this era.*
