CAESAREAN MOON BIRTHS: CALCULATIONS, MOON SIGHTING, AND THE PROPHETIC WAY

eBooks2go, Inc. **Prior to the advent of electricity, every night held the possibility of a celestial light show. People in even the most urban environments were exposed to the awe and majesty of the heavens, which clearly "proclaim the glory of God." The contemplation of the celestial orbs and their movements provided early man with the most direct connection to his Lord. In the Qur'anic story of Abraham, it is his observance of heavenly phenomena that leads him to his certainty of God's unity and transcendence. Since the time of the Seljuq Turks, the crescent moon has been a sign of Islam. For Muslims in North America, there has been much confusion regarding when Ramadan begins, when to fast, and when to break the fast. Hamza Yusuf provides clarity through this detailed and scholarly work that decisively makes the case for sighting the crescent moon with the naked eye, as has been the Islamic tradition for 1400 years. This is essential reading for anyone seeking guidance on this important and sacred matter.**

THE PRAYER OF THE OPPRESSED

eBooks2go, Inc. The Power of this prayer of Imam Muhammad al-Dar'i lies in its simplicity, its purity, and its sincere supplication. It is essentially a plea to God that our transgressions be overlooked, that divine mercy be bestowed upon us, that social justice be restored in spite of us, that wrongs be righted, and that righteousness reign once again in our lands, so that the destitute may no longer be in need, the young may be educated, the animals' purpose fulfilled, rain restored, and bounties poured forth. It is a plea to be freed from the aggression of foreigners in lands over which they have no right—a plea much needed in our modern world, rampant as it is with invasions and territorial occupations. Ultimately, it asks not that our enemies be destroyed, but simply that their plots, and the harm they cause, be halted. Its essence is mercy, which in turn is the essence of the Messenger of God, Muhammad (peace and blessing of God be upon him): "And We have only sent you as a mercy to all the worlds."

MEDICAL ANALOGIES FOR CLINICIAN-PATIENT COMMUNICATION

INNOVATIVE STRATEGIES FOR IMPROVING THE CLINICAL ENCOUNTER

Springer Nature Patient-healthcare worker communication is the cornerstone of an informed and patient-centered approach to healthcare. It is continually stressed throughout all aspects of medical training and practice, but this can be impaired by the myriad of medical jargon and complex pathophysiology required in explaining a patient's condition. This book aims to provide a comprehensive reference of analogies which simplify and make the most common medical conditions that patients may question about or be afflicted with comprehensible. There is need for an efficient way to translate years of study and experiential learning from the doctor and healthcare professional to the patient. The book contains over 200 analogies that span across 19 chapters covering a wide variety of medicine specialties, including but not limited to cardiology, dermatology, endocrinology, gastroenterology, and more. Each chapter follows a consistent format: a condition is given, the analogy title for the condition is given, and then the analogy is explained in the body text. The authors took some of the most common encountered medical conditions and attributed them to digestible analogies that help bridge the gap between healthcare professional to patient. *Medical Analogies for Clinician-Patient Communication: Innovative Strategies for Improving the Clinical Encounter* serves as a fruitful reference for anyone wanting to communicate profoundly with their patients without forfeiting brevity.

WITH STONES IN OUR HANDS

WRITINGS ON MUSLIMS, RACISM, AND EMPIRE

Muslim International "After September 11, 2001, the Global War on Terror has made clear that Islam and Muslims are central to an imperial system of racism. Prior to 9/11, white supremacy has always had a violent relationship of dominance to Islam and Muslims. Racism against Muslims today borrows from centuries of white supremacy and is a powerful and effective tool to maintain the status quo. *With Stones in Our Hands* compiles writings by scholars and activists who are leading the struggle to understand and combat anti-Muslim racism. Through a bold call for a politics of the Muslim Left and the poetics of the Muslim International, this book offers a glimpse into the possibilities of social justice, decolonial struggle, and political solidarity. The essays in this anthology reflect a range of concerns that capture the contemporary moment such as anti-Muslim racism, the settler colonial occupation of Palestine, surveillance and policing, blackness and radical protest traditions, militarism and empire building, social movements, and political repression. The inaugural volume in the new series Muslim International, *With Stones in Our Hands* offers new ideas to achieve decolonization and global solidarity"--

CONSCIENCE AND ITS ENEMIES

CONFRONTING THE DOGMAS OF LIBERAL SECULARISM

Open Road Media "Many in elite circles yield to the temptation to believe that anyone who disagrees with them is a bigot or a religious fundamentalist. Reason and science, they confidently believe, are on their side. With this book, I aim to expose the emptiness of that belief." From the introduction: Assaults on religious liberty and traditional morality are growing fiercer. Here, at last, is the counterattack. Showcasing the talents that have made him one of America's most acclaimed and influential thinkers, Robert P. George explodes the myth that the secular elite represents the voice of reason. In fact, George shows, it is on the elite side of the cultural divide where the prevailing views frequently are nothing but articles of faith. *Conscience and Its Enemies* reveals the bankruptcy of these too often smugly held orthodoxies while presenting powerfully reasoned arguments for classical virtues.

HEARTS TURN

SINNERS, SEEKERS, SAINTS AND THE ROAD TO REDEMPTION

978-0-9893640-0-3 'Hearts Turn' is a singular and gripping exploration of the act of 'tawba', a Qur'anic term commonly translated as repentance. In English, repentance is a forbidding word that suggests a puritanical

finality. But in Arabic the term 'tawba' is dynamic, meaning to 'turn' or 'return'. 'At-Tawwab' is one of the Names of God, the Oft-Returning or Ever-Relenting. It is an active constant, an ongoing, compassionate reality that renews every moment we are alive. The process of purification is a process of continuous turning. In 'Hearts Turn' Michael Sugich, author of 'Signs on the Horizons', tells stories that are harrowing and hilarious, heartrending and bizarre, profane and transcendent, and altogether full of hope, showing how men and women from many parts of the world and many walks of life have turned themselves around and taken a fork in the road toward a higher reality. "This book is a declaration of mercy and certainty. Formed of a collection of stories I've experienced, read or heard, about how malleable the human heart can be and how wrongdoing, remorse, need, and yearning intersect with Divine Compassion, Forgiveness and Guidance. It is also about the sudden transitions from confusion to clarity, from sin to virtue, from sleep to wakefulness, from ignorance to knowledge, from foolishness to wisdom. And finally it is about the path of our lives, which leads us gradually, and for those who God favors, inexorably to salvation." From the introduction to 'Hearts Turn'"Magnificent!...Interlacing ancient and modern experiences of the unexpected presence of God, this unique anthology of conversion stories reminds us of the ongoing spiritual power of Islamic faith." Dr. Timothy Winter (Shaykh Abdal Hakim Murad) Dean of Cambridge Muslim College"Michael Sugich is a master storyteller as he demonstrated in 'Signs on the Horizons'. 'Hearts Turn' is a brilliantly written reminder that God's Mercy is always open to each of us, no matter our position in life. This book has the power to leave the reader wanting to turn to God and to His Mercy. I loved this book." Sami Yusuf Singer, Composer, Humanitarian"A really heartwarming book...for a generation of young Muslims and converts who face inner doubts and in need of a few smart lessons from Michael's journeybook, told through many voices and his own unique spiritual history. It is a relief to know I am not alone." Yusuf Islam (Cat Stevens)

THE DIVINE REALITY

GOD, ISLAM AND THE MIRAGE OF ATHEISM

In *The Divine Reality*, (Newly Revised Edition 2019) Hamza Andreas Tzortzis provides a compelling case for the rational and spiritual foundations of Islam, whilst intelligently and compassionately deconstructing atheism. Join him on an existential, spiritual and rational journey that articulates powerful arguments for the existence of God, the Qur'an, the Prophethood of Muhammad and why we must know, love and worship God. He addresses academic and popular objections while showing how contemporary atheism is based on false assumptions about reality, which leads to incoherent answers to life's important questions. Does hope, happiness and human value make sense without the Divine? Do we have an ultimate purpose? Can we have consciousness and rational minds without God? Did the universe

come from nothing? Does evil and suffering negate Divine mercy? Has scientific progress led to the denial of God? Are revelation and prophethood myths? Is God worthy of our worship? If you want to know how the Islamic intellectual and spiritual tradition answers these questions then this is the book for you. Hamza Andreas Tzortzis's new book presents a much needed comprehensive account of Islamic theism that draws upon Western and Islamic thought. Hamza Tzortzis is an international speaker, writer and instructor. He has a PgCert and an MA in philosophy and is currently continuing his postgraduate studies in the field. Hamza has studied Islamic thought and theology under qualified scholars. He has delivered workshops and courses on topics related to Islamic thought and philosophy. Hamza has debated prominent academics and thinkers on Islam and atheism.

PURIFICATION OF THE HEART (FARSI/PERSIAN TRANSLATION)

SIGNS, SYMPTOMS AND CURES OF THE SPIRITUAL DISEASES OF THE HEART (FARSI/PERSIAN)

The suffering of the world is spoken of in terms of wars, starvation, hatred, competition, and the struggle of the survival of the fittest. Yet all the suffering of the world originates in the human heart. Every crime committed, every act of oppression, every callous cruelty, and every injustice to the self or others emanates from the hearts of men. However, for every wrong wrought by the human heart, a thousand acts of mercy have issued forth: every mother's love, every child's forgiveness, every teacher's care, and every father's concern for the well-being of his progeny—all have their source in the core of the human being, the human heart. If we are to right the world, we must first rectify our hearts, and this is why every revelation has been granted to humanity in order to make firm our hearts. Before you is a text that gives practical means and methods of transformation. Learn them, and use them, and then pass them on.

MUSLIM COOL

RACE, RELIGION, AND HIP HOP IN THE UNITED STATES

NYU Press This groundbreaking study of race, religion and popular culture in the 21st century United States focuses on a new concept, “Muslim Cool.” Muslim Cool is a way of being an American Muslim—displayed in ideas, dress, social activism in the ‘hood, and in complex relationships to state power. Constructed through hip hop and the performance of Blackness, Muslim Cool is a way of engaging with the Black American experience by both Black and non-Black young Muslims that challenges racist norms in the U.S. as well as dominant ethnic and religious structures within American Muslim communities. Drawing on over two years of ethnographic research, Su'ad Abdul Khabeer illuminates the ways in which young and multiethnic U.S. Muslims draw on Blackness to construct their identities as Muslims. This is a form of critical Muslim self-making that builds on interconnections and intersections, rather than divisions between “Black” and “Muslim.” Thus, by countering the notion that Blackness and the Muslim experience are fundamentally different, Muslim Cool poses a critical challenge to dominant ideas that Muslims are “foreign” to the United States and puts Blackness at the center of the study of American Islam. Yet Muslim Cool also demonstrates that connections to Blackness made through hip hop are critical and contested—critical because they push back against the pervasive phenomenon of anti-Blackness and contested because questions of race, class, gender, and nationality continue to complicate self-making in the United States.

POLITICAL QUIETISM IN ISLAM

SUNNI AND SHI'I PRACTICE AND THOUGHT

Bloomsbury Publishing In recent years, Islam - whether via the derivatives of 'Political Islam' or 'Islamism' - has come to be seen as an 'activist' force in social and political spheres worldwide. What such representations have neglected is the strong countervailing tradition of political quietism. Political quietism in Islam holds that it is not for Muslims to question or oppose their leaders. Rather, the faithful should concentrate on their piety, prayer, religious rituals and personal quest for virtue. This book is the first to analyze the history and meaning of political quietism in Islamic societies. It takes an innovative cross-sectarian approach, investigating the phenomenon and practice across both Sunni and Shi'i communities. Contributors deconstruct and introduce the various forms of political quietisms from the time of the prophetic revelations through to the contemporary era. Chapters cover issues ranging from the politics of public piety among the women preachers in Saudi Arabia, through to the legal discourses in the Caucasus, the different Shi'i communities in Iran, Lebanon, Iraq and Pakistan, and the Gülen movement in Azerbaijan. The authors describe a wide range of political quietisms and assess the continuing significance of the tradition, both to the study of Islam and to

the modern world today.

MUHAMMAD

PROPHET OF PEACE AMID THE CLASH OF EMPIRES

Bold Type Books In the midst of the dramatic seventh-century war between two empires, Muhammad was a spiritual seeker in search of community and sanctuary. Many observers stereotype Islam and its scripture as inherently extreme or violent—a narrative that has overshadowed the truth of its roots. In this masterfully told account, preeminent Middle East expert Juan Cole takes us back to Islam's—and the Prophet Muhammad's—origin story. Cole shows how Muhammad came of age in an era of unparalleled violence. The eastern Roman Empire and the Sasanian Empire of Iran fought savagely throughout the Near East and Asia Minor. Muhammad's profound distress at the carnage of his times led him to envision an alternative movement, one firmly grounded in peace. The religion Muhammad founded, Islam, spread widely during his lifetime, relying on soft power instead of military might, and sought armistices even when militarily attacked. Cole sheds light on this forgotten history, reminding us that in the Qur'an, the legacy of that spiritual message endures. A vibrant history that brings to life the fascinating and complex world of the Prophet, Muhammad is the story of how peace is the rule and not the exception for one of the world's most practiced religions.

THE PROPHETIC INVOCATIONS

SUFIS, SALAFIS AND ISLAMISTS

THE CONTESTED GROUND OF BRITISH ISLAMIC ACTIVISM

Bloomsbury Publishing British Muslim activism has evolved constantly in recent decades. What have been its main groups and how do their leaders compete to attract followers? Which social and religious ideas from abroad are most influential? In this groundbreaking study, Sadek Hamid traces the evolution of Sufi, Salafi and Islamist activist groups in Britain, including The Young Muslims UK, Hizb ut-Tahrir, the Salafi JIMAS organisation and Traditional Islam Network. With reference to second-generation British Muslims especially, he explains how these groups gain and lose support, embrace and reject foreign ideologies, and succeed and fail to provide youth with compelling models of British Muslim identity. Analysing historical and firsthand community research, Hamid gives a compelling account of the complexity that underlies reductionist media narratives of Islamic activism in Britain.

OBSERVING THE OBSERVER

THE STATE OF ISLAMIC STUDIES IN AMERICAN UNIVERSITIES

International Institute of Islamic Thought (IIIT) **THE** collection of papers in this volume documents the study of Islam in American Universities. Over the last few decades the United States has seen significant growth in the study of Islam and Islamic societies in institutions of higher learning fueled primarily by events including economic relations of the U.S. with Muslim countries, migration of Muslims into the country, conversion of Americans to Islam, U.S. interests in Arab oil resources, involvement of Muslims in the American public square, and the tragic events of 9/11. Although there is increasing recognition that the study of Islam and the role of Muslims is strategically essential in a climate of global integration, multiculturalism, and political turmoil, nevertheless, the state of Islamic Studies in America is far from satisfactory. The issue needs to be addressed, particularly as the need for intelligent debate and understanding is continuously stifled by what some have termed an “Islam industry” run primarily by fly-by-journalists, think tank pundits, and cut-and-paste “experts.”

ISLAM IS A FOREIGN COUNTRY

AMERICAN MUSLIMS AND THE GLOBAL CRISIS OF AUTHORITY

NYU Press **In Islam Is a Foreign Country**, Zareena Grewal explores some of the most pressing debates about and among American Muslims: what does it mean to be Muslim and American? Who has the authority to speak for Islam and to lead the stunningly diverse population of American Muslims? Do their ties to the larger Muslim world undermine their efforts to make Islam an American religion? Offering rich insights into these questions and more, Grewal follows the journeys of American Muslim youth who travel in global, underground Islamic networks. Devoutly religious and often politically disaffected, these young men and women are in search of a home for themselves and their tradition. Through their stories, Grewal captures the multiple directions of the global flows of people, practices, and ideas that connect U.S. mosques to the Muslim world. By examining the tension between American Muslims’ ambivalence toward the American mainstream and their desire to enter it, Grewal puts contemporary debates about Islam in the context of a long history of American racial and religious exclusions. Probing the competing obligations of American Muslims to the nation and to the umma (the global community of Muslim believers), **Islam is a Foreign Country** investigates the meaning of American citizenship and the place of Islam in a global age.

ISLAMIC PERSPECTIVES ON THE PRINCIPLES OF BIOMEDICAL ETHICS

World Scientific **Islamic Perspectives on the Principles of Biomedical Ethics** presents results from a pioneering seminar in 2013 between Muslim religious scholars, biomedical scientists, and Western bioethicists at the research Center for Islamic Legislation & Ethics, Qatar Faculty of Islamic Studies. By examining principle-based bioethics, the contributors to this volume addressed a number of key issues related to the future of the field. Discussion is based around the role of religion in bioethical reasoning, specifically from an Islamic perspective. Also considered is a presentation of the concept of universal principles for bioethics, with a response looking at the possibility (or not) of involving religion. Finally, there is in-depth analysis of how far specific disciplines within the Islamic tradition — such as the higher objectives of Sharia (maqāṣid al-Sharī'ah) and legal maxims (qawā'id fiqhīyah) — can enrich principle-based bioethics.
